REVIEW REPORT ON INTERIM UNCONSOLIDATED FINANCIAL INFORMATION

To the Board of Directors of Odea Bank Anonim Şirketi;

Introduction

We have reviewed the accompanying unconsolidated statement of financial position of Odea Bank A.Ş. (the "Bank") as at 30 June 2021 and the related unconsolidated statements of profit or loss, profit or loss and other comprehensive income, changes in shareholders' equity, cash flows for the six month period then ended and notes, comprising a summary of significant accounting policies and other explanatory information. The Bank Management is responsible for the preparation and fair presentation of these unconsolidated interim financial information in accordance with the "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation" which includes the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Board and circulars and interpretations published by BRSA and the requirements of Turkish Accounting Standard 34 "Interim Financial Reporting" principles for those matters not regulated by the aforementioned legislations. Our responsibility is to express a conclusion on these unconsolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial information does not present fairly the financial position of Odea Bank A.Ş. as at 30 June 2021 and its financial performance and its cash flows for the six-month period then ended in all aspects in accordance with the BRSA Accounting and Reporting Legislation.

Report on Other Legal and Regulatory Requirements

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section VII, is not consistent with the unconsolidated financial statements and disclosures in all material respects.

IFC FIG Investment Company S.a.r.l	112.674	3,426%	112.674	3,426%
Mr. Mohammad Hassan Zeidan	58.532	1,780%	58.532	1,780%
	3.288.842	100,00%	3.288.842	100,00%

Bank Audi sal

Bank Audi Group is a leading Lebanese based banking group with a universal banking profile. Based on a diversified universal service model, it operates principally in Lebanon in the Middle East and North Africa (MENA) region, in Europe and in Turkey. The Group offers universal financial products and services including Corporate, Commercial, Retail and Private Banking services in addition to capital market activities and factoring.

Bank Audi Group boasts one of the largest branch networks in Lebanon, covering the Greater Beirut area and other strategic regions in Lebanon. The Group has also two principal subsidiaries in the MENA region outside Lebanon, two principal subsidiaries in Europe and one in Turkey.

The Group ranks among the top banks in Lebanon in terms of asset size, shareholders' equity, customer deposits, loans and net income. Having one of the largest branch networks in Lebanon, the Group has 116 branches as of 30 June 2021.

The Bank Audi Group, established in 1830, has become a private joint stock company (Société Anonyme Libanaise), limited to 99 years in 1962. The Group's shareholder base has been expanding since 1983, with the first shareholders being the members of the Audi family along with Kuwaiti investors. Today, the Group's shareholder base covers 1.500 shares and/or Global Depository Receipt (GDR) holders representing the shares. The parent bank of the Group, Bank Audi's shares are listed on the Beirut Stock Exchange, while its Global Depository Receipt (GDR) are quoted on the Beirut Stock Exchange.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE
ACCOUNTING PRINCIPLES

I Basis of Presentation

a. The preparation of the unconsolidated financial statements and related notes and explanations in accordance with the Turkish Financial Reporting Standards and regulation on the Regulation on Accounting Applications for Banks and Safeguarding of Documents

The unconsolidated financial statements have been prepared in accordance with the “Regulation on the Procedures and Principles for Accounting Practices and Retention of Documents by Banks” published in the Official Gazette no.26333 dated 1 November 2006 with regard to Banking Law No. 5411, and in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency (“BRSA”), and in case where a specific regulation is not made by those, by those, “Turkish Accounting Standards” (“TAS”) and “Turkish Financial Reporting Standards” (“TFRS”) put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”) (all “Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Legislation).

The unconsolidated financial statements have been prepared in TL, under the historical cost convention except for the financial assets and liabilities carried at fair value. The accompanying unconsolidated financial statements and notes to these financial statements are expressed in thousands of Turkish Lira (TL), unless otherwise stated.

In preparing the unconsolidated financial statements in accordance with “BRSA Accounting and Financial Reporting Legislation”, the Bank management has to make assumptions and estimates about the assets and liabilities in the balance sheet. These estimates and assumptions include fair value calculation of financial instruments and impairment of financial assets are being reviewed regularly and, when necessary, adjustments are made and the effects of these adjustments are reflected to the statement of profit or loss. The assumptions and estimates used are explained in the related notes.

b. Information on accounting policies and changes in financial statements

Accounting policies and valuation principles used in the preparation of the unconsolidated financial statements are determined in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency and in case where a specific regulation is not made by BRSA, TFRS.

In accordance with the Communiqué on the Amendment to the Communiqué on the Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks that published in the Official Gazette dated 1 February 2019 and numbered 30673, the financial statements of the previous year have been aligned with the new financial statements.

The accounting policies and the valuation principles applied in the preparation of the accompanying financial statements are explained in section three notes II to XXIII.

c. Changes in accounting policies and disclosures

New and revised Turkish Accounting Standards effective for annual periods beginning on or after 1 January 2020 have no material effect on the financial statements, financial performance and on the Bank’s accounting policies. New and revised Turkish Accounting Standards issued but not yet effective as of the finalization date of the financial statements have no material effect on the financial statements, financial performance and on the Bank’s accounting policies.

The Indicator Interest Rate Reform- 2nd Phase, which brings changes in TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16, effective from the beginning of 2021, was published in December 2020 and early implementation of the changes is allowed. With the modifications made, certain exceptions are provided for the basis used in the determination of contractual cash flows and hedge accounting implementations. The effects of the changes on the Bank’s financials are being assessed.

I Basis of Presentation (continued)

Explanation for convenience translation into English

The differences between accounting principles, as described in these preceding paragraphs and accounting principles generally accepted in countries in which unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in these unconsolidated financial statements. Accordingly, these unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

II Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions

The Bank's main activities comprise retail, commercial and corporate banking, money market and securities market operations.

The Bank uses financial assets intensely by its nature. The Bank's basic strategy regarding the use of financial assets is intended for ensuring the balance between the profits from and risk levels of assets.

The most important funding source of the Bank is the deposits accepted for various time periods and apart from deposits, the most important funding sources are equity, securities issued, money market transactions and borrowings obtained from foreign financial institutions, generally medium and long term. In order to use these sources in high-yield and high-quality financial assets, the Bank follows an effective asset-liability management strategy. The Bank manages interest rate risk, liquidity risk, exchange rate risk and credit risk carried on in and off balance sheet assets and liabilities within the framework of internal and legal limits.

The Bank's asset-liability management is executed by the Asset-Liability Management Committee, within the risk limits determined by the Board of Directors, in order to keep the liquidity risk, interest rate risk, currency risk and credit risk within certain limits depending on the equity adequacy and to maximize profitability.

Translation gains and losses arising from foreign currency transactions are accounted for within the period in which the transaction occurs. Foreign currency denominated assets and liabilities are translated into TL with the prevailing buying rate of exchange of the Bank on reporting date and gains and losses arising from such transactions are recognized in the statement of profit or loss under the account of foreign exchange gains or losses.

III Explanations on Futures and Options Contracts and Derivative Instruments

The derivative transactions mainly consist of options, foreign currency swaps, interest rate swaps, and foreign currency forward contracts. Derivative instruments are measured at fair value on initial recognition and subsequently remeasured at their fair values. The changes in their fair values are recorded on balance sheet under "the portion of derivative financial assets measured at fair value through profit and loss" or "the portion of derivative financial liabilities measured at fair value through profit and loss", respectively depending on the fair values being positive or negative. Fair value changes for derivatives are recorded in the account of "income / losses" from derivative transactions under income statement.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts as their contractual values. Embedded derivatives are separated from the host contract and accounted as derivative instruments according to "IFRS – 9 Financial Instruments" in case the related embedded derivative's economic features and risks are not closely related to the host contract, another instrument that has the same contract conditions with the embedded derivative satisfies the definition of a derivative instrument and the hybrid instrument is not carried at fair value through profit or loss. If the underlying contract is closely related to the embedded derivative, the embedded derivative is accounted for in accordance with the standard which the underlying contract is based on without any separation from the contract.

Within the scope of IFRS 13 Fair Value Measurement standard; if there is a significant decrease in the volume or level of activity for that asset or liability in relation to normal market activity for the asset or liability (or similar assets or liabilities); when the transaction or quoted price does not represent fair value; and / or when a price for a similar asset requires significant adjustment to make it comparable to the asset being measured, or when the price is stale, the Bank makes an adjustment to the transactions or quoted prices and reflects this adjustment to the fair value measurement. In this context, the Bank determines the point within the range that is most representative of fair value under current market conditions. As of 30 June 2021, fair value measurement adjustments are made in TL, EUR, CHF yield curves used in valuation of derivative transactions.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

III. Explanations on Futures and Options Contracts and Derivative Instruments (continued)

Derivative financial instruments held for hedging purpose

The Bank may apply cash flow hedge accounting to mitigate interest rate changes on TL deposit through interest rate swaps.

The Bank utilizes derivative instruments effectively in the process of asset and liability management. TFRS 9 permits to defer application of TFRS 9 hedge accounting and continue to apply hedge accounting in accordance with TAS 39 as a policy choice. Accordingly, the Bank continues to apply hedge accounting in accordance with TAS 39 in this context.

Within the scope of cash flow hedge accounting, effective part of the fair value changes of the hedging instrument are accounted in equity under "Cash Flow Hedge Gain/Loss, Shares of Investments Valued by Equity Method in Other Comprehensive Income Classified Through Profit or Loss and Other Accumulated Amounts of Other Comprehensive Income Items Reclassified Through Other Profit or Loss" whereas ineffective part is accounted in the income statement.

The Bank hedges its cash flow risk arising from Turkish Lira floating interest rate liabilities by using interest rate swaps. Within the scope of cash flow hedge accounting the fair values being positive or negative and effective portions in the equity under "Other Comprehensive Income Items to be recycled to profit and loss" and ineffective portions in the income statement under "profit / loss from derivative financial transaction".

In the periods in which the cash flows (interest expenses) of the hedged item affects the income statement, the profit/ loss of the hedging instrument is recycled to the income statement from equity.

Effectiveness tests are performed at the beginning of the hedge accounting period and at each reporting period. The effectiveness tests are carried out using the Dollar off-set model and the hedge accounting is applied as long as the test results are between the range of 80% -125% of effectiveness.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective.

When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortized to income statement under trading account income/loss caption over the maturity of the hedged item from that date of the hedge accounting is discontinued. While expiring, sale, discontinuing cash flow hedge accounting or when no longer effective the cumulative gains/losses recognised in shareholders' equity and presented under "accumulated other comprehensive income or expense to be reclassified to profit or loss" are continued to be kept in this account. When the cash flows of hedged item incur, the gain/losses accounted for under shareholders' equity are recognised in income statement considering the original maturity.

IV. Explanations on Interest Income and Expenses

Interest income and expenses are recognized in the statement of income by using the "Effective interest method". Starting from January 1, 2018, Bank has started accruing interest income on non-performing loans.

V. Explanations on Fees and Commission Income and Expenses

Fees and commissions those that are not an integral part of the effective interest rate of the financial instruments measured at amortized cost are accounted for in accordance with "TFRS 15 - Revenue from Customer Contracts". Fees and commission income/expenses are primarily recognized on an accrual basis or "Effective interest method (Internal rate of return)" according to the nature of the fee and commission. Income earned in return for services rendered contractually or due to operations like sale or purchase of assets on behalf of a third party real person or corporate body are recognized when realized.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VI. Explanations on Financial Assets

Financial instruments comprise financial assets, financial liabilities and derivative instruments. Financial instruments affect liquidity, market, and credit risks on the Bank's balance sheet in all respects.

Basically, financial instruments create the majority of the commercial activities and operations of the Bank. These instruments expose, affect and diminish the liquidity, credit and interest risks in the financial statements.

All regular way purchases and sales of financial assets are recognized on the settlement date. The settlement date is the date that the asset is delivered to or by the Bank. Settlement date accounting requires (a) accounting of the asset when acquired by the institution and (b) disposing of the asset out of the balance sheet on the date settled by the institution; and accounting of gain or loss on disposal. Changes in fair value of assets to be received during the period between the trade date and the settlement date are accounted for in the same way as the acquired assets.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

The Bank categorizes its financial assets as "Fair Value Through Profit/Loss", "Fair Value Through Other Comprehensive Income" or "Measured at Amortized Cost". Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part 3 Issued for classification and measurement of the financial instruments published in the Official Gazette No. 29953 dated 19 January 2017 by the Public Oversight Accounting and Auditing Standards Authority.

The methods and assumptions used in the recognition and measurement of financial instruments are mentioned below.

Cash, Banks, and Other Financial Institutions:

Cash and cash equivalents comprise cash on hand, demand placements, and highly liquid short-term investments with maturity of 3 months or less following the purchase date, not bearing risk of significant value change, and that are readily convertible to a known amount of cash and are carried at amortized cost. The book values of these assets are at their fair values.

Financial Assets at Fair Value Through Profit and Loss:

"Financial assets at fair value through profit/loss" are financial assets that are either managed by a model other than the ones that are managed with a business model of hold to collect contractual cash flows or with a business model of hold to collect contractual cash flows or to sell financial assets, or being subject to mentioned business models, of which cash flows does not meet the "solely for the payments of principal and interest" criteria.

Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement. Transaction costs related to such assets are recorded as expense at the time of occurrence.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VI. Explanations on Financial Assets (continued)

Financial Assets at Fair Value Through Other Comprehensive Income:

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows which are solely payments of principal and interest are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. "Unrealized gains and losses" arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the receipt of consideration against that asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted for under the "other comprehensive income or expense items to be recycled to profit or loss" under shareholders' equity.

Equity instruments, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Equity instruments that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

During initial recognition an entity can choose in an irrevocable way to record the changes of the fair value of the investment in an equity instrument that is not held for trading purposes in the other comprehensive income. In the case of this preference, the dividend from the investment is taken into the financial statements as profit or loss.

Financial Assets Measured at Amortized Cost:

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted for in the income statement.

"Fair value through other comprehensive income" and "measured at amortized cost" securities portfolio of the Bank contains Consumer Price Indexed (CPI) bonds. These securities are valued and accounted for using the effective interest method based on the CPI of two months before the reporting date together with the real coupon rates and the reference index at the issuance date, with the index coefficient generated on the inflation rate is estimated by the Bank. The inflation rate estimated by the inflation expectations of Central Bank and the Bank, is updated when necessary during the year. Securities are valued at the end of the year with reference index announced by the Ministry of Treasury and Finance.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VI. Explanations on Financial Assets (continued)

Loans and Receivables:

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market.

Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Interest Rate (internal rate of return) Method".

Foreign currency indexed loans are converted into TL from the foreign currency rate as of the opening date and followed in TL accounts. Repayments are measured with the foreign currency rate at the payment date, the foreign currency gains and losses are reflected to the statement of income.

Foreign exchange gains and losses on the foreign currency indexed loans are presented under foreign exchange gains and losses in the statement of income.

Derecognition of a financial asset:

Before evaluating whether, and to what extent, derecognition is appropriate, the Bank determines whether those criteria should be applied to a part of a financial asset (or a part of a group of similar financial assets) or a financial asset (or a group of similar financial assets) in its entirety. Criteria is applied to a part of financial asset (or a part of a group of similar financial assets) if, and only if, the part being considered for derecognition meets one of the following three conditions: (i) The part comprises only specifically identified cash flows from a financial asset (or a group of similar financial assets) (ii) The part comprises only a fully proportionate (pro rata) share of the cash flows from a financial asset (or a group of similar financial assets) (iii) The part comprises only a fully proportionate (pro rata) share of specifically identified cash flows from a financial asset (or a group of similar financial assets).

A financial asset (or, a part of a financial asset or a part of group of financial assets, where appropriate) is derecognized when, and only when,

- The contractual rights to the cash flows from the financial asset expire; or
- The contractual rights to the cash flows from the financial asset are transferred; or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in the arrangement without material delay and:
- If the entity transfers substantially all the risks and rewards of ownership of the financial asset or,
- If the entity neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, whether it has retained control of the financial asset.

If the Bank transfers the contractual rights to the cash flows from the financial asset, or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in the arrangement without material delay and if the Bank neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, the entity shall determine whether it has retained control of the financial asset and it shall continue to recognize the financial asset to the extent of its continuing involvement in the financial asset. In this case, the entity also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the entity has retained.

The Bank has evaluated the non-performing loan portfolio of which contractual rights are transferred to the asset management companies, in the context of above statements and derecognizes the loans that are subject to agreements in which all risks and rewards are transferred to the buyer.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VII. Explanations on Expected Credit Losses

As of 1 January 2018, a loss allowance for expected credit losses is provided by Bank for all financial assets measured at amortised cost and financial assets measured at fair value through other comprehensive income, all financial assets which are not measured at fair value through profit or loss, commitments and financial guarantee contracts in accordance with TFRS 9 International Financial Reporting Standard and "Regulation on Procedures and Principles for Classification of Loans and Provisions to be Set Aside" published in the Official Gazette No. 29750 dated 22 June 2016. Equity instruments are not subject to impairment assessment as they are measured at fair value.

The Bank has started its credit calculation method with the expected credit loss models in accordance with IFRS 9 rules as of 1 January 2018. Expected credit losses include a probability-weighted amount that is determined by evaluating a range of possible outcomes; reasonable and supportable information that are current conditions and forecasts of future economic conditions and the time value of money. The financial assets are divided into three categories depending on the gradual increase in credit risk observed since their initial recognition:

Stage 1:

They are financial assets that do not have a significant increase in credit risk at initial recognition or since initial recognition. Loss allowance for impairment of credit risk for these assets is recorded in the amount of 12-month expected credit loss.

Stage 2:

In the case of a significant increase in credit risk since initial recognition the financial asset is transferred to Stage 2. Loss allowance for impairment of credit risk is determined on the basis of the instrument's lifetime expected credit losses.

Stage 3 (Default):

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. In the calculation of expected credit losses, probability of default is considered as 100%. In determining the impairment, the Bank considers the following criteria:

- Delinquency in interest and/or principal payments by more than 90 days. On the other hand, based on the BRSA's decision numbered 8948 dated 17 March 2020 and numbered 9312 and dated 8 December 2020 and numbered 9624 and dated 17 June 2021, the default definition is that the debt is delayed more than 180 days instead of 90 days, to be valid until 30 September 2021. In this context, the Bank measures the expected credit loss according to risk models, while considering the temporariness of the process and the liquidity shortage experienced by the borrower due to Covid-19 outbreak in calculating the expected credit loss within the scope of IFRS 9 for loans delayed between 91-180 days.
- Having the opinion that collection of principal and /or interest will be past due more than 90 days from its maturity or due date due to reasons such as having problems in the financing operating capital or creating additional liquidity due to unfavourable developments in macroeconomic conditions or in the sectors the debtor operates or, independent from all, due to adverse developments peculiar to the debtor.

The collections made based on provision provided for loans in the current period are deducted from "Expected Credit Losses" account in income statement, and the principal collections made in respect of loans that have been provision set aside in the previous periods or write-off exposures under off-balance sheet are recognized under "Other Operating Income" account.

Significant Increase in Credit Risk

The Bank performs qualitative and quantitative assessments for the determination of financial assets that will be classified as Stage 2 due to the significant increase in credit risk.

To make the quantitative assessment, the Bank compares the rating information of the financial asset at the reporting date with the rating information at the date of initial recognition. The change above the defined threshold is considered as significant increase in credit risk, meaning that the credit is classified under Stage 2 loans.

Within the scope of qualitative assessments, if any of the following criteria occurs; the related financial asset would be taken into account as Stage 2:

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VII. Explanations on Expected Credit Losses (continued)

Significant Increase in Credit Risk (continued)

- Delinquency in principal and/or interest payments, which is between 30 days and 90 days. In accordance with the BRSA Decision numbered 8970 dated 27 March 2020 and numbered 9312 dated 8 December 2020 and numbered 9624 and dated 17 June 2021 starting from 27 March 2020, loans with an overdue more than 90 days instead of 30 days are taken into consideration from 17 March 2020 until 30 September 2021. In accordance with the related decisions, borrowers with a DPD between 30 and 90 days were classified as Stage 1, however lifetime ECL (S2 ECL) was calculated for them.
- Watchlist exposures,
- Forborne exposures,
- The other retail exposures which belong to an obligor who has a retail exposure that is classified as non-performing loans.

Measurement of Expected Credit Losses

ECL is estimated according to several macroeconomic scenarios and final ECL is an average of each scenario's ECL weighted by scenario probabilities. The parameters subject to the expected credit loss measurement are as follows:

Exposure at Default (EAD): The EAD represents the incurred amortized cost for cash obligations as of reporting date. It refers to the value calculated through credit conversion factors for non-cash loans and commitments.

Credit Conversion Factor (CCF): As of the reporting date, CCF corresponds to the rate used to convert non-cash loans and commitments to loan equivalents. Conversion rates are determined based on Circular 2016/1 published by local regulatory (BRSA) under the Basel I Framework.

Lost Given Default (LGD): It represents the economic loss incurred on the loan, if a loan defaults. It is represented as a percentage. The recovery rate summarizes all cash flows from the customer after default, including collections through cash, prior lien mortgages and vehicle pledges. In this context, different LGD values are calculated for the segments in the retail and non-retail portfolios using historical data.

Probability of Default (PD): PD represent the likelihood of default over a specified time period. Based on TFRS 9, the Bank uses two different PDs in order to calculate expected credit losses:

- 12-month PD: as the estimated probability of default occurring within the next 12 months following the reporting date.
- Lifetime PD: as the estimated probability of default occurring over the remaining life of the financial instrument.

The Bank uses two separate internal rating systems for non-retail portfolio in the Corporate and SME segment. The both internal rating models include the borrower's financial information and the answers to the qualitative question set. PD's used in ECL calculation consider both current conditions and historical data. For retail portfolio, the cumulative multiplication of the 12-month averages of the roll rates for each delinquency cluster on the basis of products that are sharing common characteristics is considered as PD.

When expected credit losses are estimated, it is considered that three different macroeconomic scenarios as "Base", "Upside" and "Downside". Macroeconomic scenarios should be reviewed and if necessary, updated at least on an annual basis or earlier in case of a major event necessitating a review. Each scenario has its own probability to occur. The expected credit loss amount corresponding to each scenario is discounted to the net present value by using the exposure's contractual rate of interest.

If the loan classified under Stage 1, expected credit losses is calculated by considering 12-month PDs. The Bank calculates expected 12-month credit loss on the basis of a 12-month anticipation of default following the reporting date. The marginal PDs calculated as the difference between the cumulative PDs in two consecutive periods multiplied by the total loss in default calculated on EAD amounts for each horizon. This calculation is performed for each of the three scenarios as described above, each scenario is discounted to the net present value by using the exposure's effective interest rate of interest from related date and final ECL is derived from average of each scenario ECL weighted by scenario probabilities. If the loan classified under Stage 2, expected credit losses is calculated by considering lifetime. The expected credit loss measurement, including the use of forward-looking macroeconomic scenarios is similar to that described above however the probability of default is estimate lifetime of the financial instrument.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VII. Explanations on Expected Credit Losses (continued)

For non-retail loans classified under Stage 3, ECL estimated based on individual assessment in accordance with internal policies and IFRS9. Expected credit loss calculation is performed by discounting the expected collections of the financial instrument to its net present value with a defined interest rate.

In addition, the Bank assesses a certain portion of Stage 2 non-retail loans individually in the calculation of the expected credit losses based on TFRS 9. As of June 30, 2021, due to the negative effects of the COVID-19 epidemic, the Bank reviewed its cash flow expectations, collection forecasts and scenario weights for its individual assessed loans, and reflected the related effects to the expected loss provisions with the best estimation approach.

For retail products sharing similar credit risk characteristics, a collective approach is used for ECL measurement. In making this calculation, the Bank takes into consideration the transition rates between the clusters in the thirty-day intervals past due of the financial assets sharing the similar credit risk characteristics as of the end of the month. The probability of loss for related cluster is calculated by multiplying the average of the 12-month transition rates corresponding to each cluster with the average of the 12-month transition rates of afterthought clusters. The outstanding balance per cluster is multiplied by the probability of loss, LGD and weighted average remaining maturity. Finally, expected credit loss is computed by applying the respective impact from the forward looking model which accounts 3 probability weighted scenarios considering the stage and the remaining maturity of the retail product.

The Bank updates TFRS 9 models at least once a year in accordance with its internal policies. The model update for the probability of default and future expectations was made in the 4th quarter of 2020, and the Bank calculated the expected loss provision with the model updated at the end of 2020.

Approaches to Determine Forward Looking Economic Scenario

As mentioned above, by using scenarios related to macroeconomic factors, the effect of future expectations is included in the calculation of ECL. The macro indicators that make up these macroeconomic forecasting models are Gross Domestic Product (GDP) and unemployment rate. That macroeconomic model contains more than one scenario that are considered along with their respective probability of occurrence and the weighted average of the results of these scenarios are taken into account in ECL calculations.

Due to the COVID-19 outbreak, within the scope of forward-looking indicators, the scenarios have been updated in line with the new conditions and the probability of occurrence has been changed.

Behavioural Maturity Calculation Methodology

The loss allowance for expected credit losses is measured for loans in Stage 1 until the end of maturity for those with less than one year of maturity and one year for loans with a remaining maturity of more than one year. For loans in Stage 2, lifetime (up to maturity) expected credit losses is measured. This calculation is based on the remaining maturity information for each loan. While using this information for products with maturity information, behavioural maturity determined in accordance with internal policies is taken into consideration for products without maturity information such as off-balance sheet items and overdrafts. Expected credit losses are measured over these maturities according to the type of loan.

Financial Assets Measured at Fair Value through Other Comprehensive Income (FVOCI)

As of 1 January 2018, The Bank applied the impairment requirements for the recognition and measurement of a loss allowance for financial assets that are measured at fair value through other comprehensive income in accordance with TFRS 9 principles. However, the loss allowance is recognised in other comprehensive income and does not reduce the carrying amount of the financial asset in the statement of financial position.

When the related financial asset is de-recognised from the financial statement, the loss allowance for expected credit losses previously reflected to the other comprehensive income is classified under the profit-loss statement.

VIII. Explanations on Offsetting of Financial Instruments

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and the intention of collecting or paying the net amount of related assets and liabilities or the right to offset the assets and liabilities simultaneously. Otherwise, there is not any offsetting transaction about financial assets and liabilities.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

IX. Explanations on Sales and Repurchase Agreements and Lending of Securities

The sales and purchase of government securities under repurchase agreements made with the customers are being recorded in balance sheet accounts in accordance with the Uniform Chart of Accounts. Accordingly in the financial statements, the government bonds and treasury bills sold to customers under repurchase agreements are classified under financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and financial assets measured at amortized cost depending on the portfolio they are originally included in and are valued according to the valuation principles of the related portfolios. Funds obtained from repurchase agreements are classified as a separate sub-account under money markets borrowings account in the liabilities.

Funds given against securities purchased under agreements to resell ("reverse repo") are accounted under "Receivables from reverse repurchase agreements" on the balance sheet. The difference between the purchase and determined re-sell price is accrued over the life of repurchase agreements.

The income and expenses from these transactions are reflected to the "Interest Income on Marketable Securities" and "Interest Expense on Money Market Borrowings" accounts in the income statement.

X. Explanations on Assets Held for Sale and Discontinued Operations

Property and equipment held-for-sale consist of tangible assets that were acquired due to non-performing receivables and are accounted in the unconsolidated financial statements in accordance with the regulations of "Turkish Financial Reporting Standard for Assets Held for Sale and Discontinued Operations (TFRS 5)".

The Bank, in some portion of the foreclosed assets, provides repurchase right to the debtor.

A discontinued operation is a division of a bank that is either disposed or held for sale.

Results of discontinued operations are included in the income statement separately. As of 30 June 2021 and 31 December 2020 the Bank does not have any discontinued operations.

XI. Explanations on Goodwill and Other Intangible Assets

There is no goodwill regarding the investments in associates and subsidiaries.

Other intangible assets are accounted for at cost less accumulated amortization. Other intangible assets are amortized with straight-line method based on their economic lives. There have been no changes in the amortization calculation method during the current period.

As of the balance sheet date, all softwares are purchased and there are no completed or continuing software development projects by the Bank.

XII. Explanations on Tangible Fixed Assets

Tangible fixed assets are accounted for at acquisition cost less accumulated depreciation.

Depreciation of assets held less than one year as of the balance sheet date is accounted for proportionately. Depreciation method is not changed in the current period. The annual rates used, which approximate rates based on the estimated economic useful lives of the related assets, are as follows:

	%
Buildings	2
Safety box	2
ATM	10
Furniture, fixtures and others	6-20
Office equipment's	10-33

Gain or loss resulting from disposals of the tangible fixed assets is reflected to the income statement as the difference between the net proceeds and net book value.

Normal maintenance and repair cost of the properties are expensed.

There is no pledge, mortgage, or any other lien on tangible fixed assets.

Branches, service buildings and vehicles subject to operational lease are accounted in accordance with TFRS 16 as of 1 January 2019.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XII. Explanations on Tangible Fixed Assets (continued)

At the commencement date, the Bank measures the right-of-use asset in accordance with TFRS 16. The depreciation requirements in TAS 16 Property, Plant and Equipment is applied in depreciating real assets considered as right-of-use asset. Amortization calculation considers the length of contract as useful lifetime.

The amortization expenses related to operational leases subject to TFRS 16 are recorded in profit/loss table under amortization expenses of tangible asset.

XIII. Explanations on Leasing Transactions

Tangible assets acquired through financial leasing are recognized as assets and the related liabilities as lease payables in assets and liabilities, respectively. Financial costs on leasing agreements are distributed throughout the lease periods at fixed interest rates. Interest expenses and foreign exchange losses related with financial leasing are accounted in income statement. Depreciation for assets acquired through financial leases is calculated consistently with the same principle as for the tangible assets.

As of the balance sheet date, the Bank does not have authorization for any financial leasing transactions as lessor.

a. Disclosures of TFRS 16

Bank-lessee:

The Bank assesses whether the contract has the quality of a lease or whether the lease includes the transaction at the beginning of a contract. In case the contract is transferred for a certain period of time to control the use of the asset defined for a price, it is either leased or includes a lease. The Bank reflects the existence of a right of use and a lease liability to the financial statements at the effective date of the lease.

Right of use assets:

The right to use asset is first recognized by cost method and includes:

- a) The initial measurement amount of the lease obligation,
- b) The amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease;
- c) All initial direct costs incurred by the Bank and

When Bank applying the cost method, the existence of the right to use:

- a) Accumulated depreciation and accumulated impairment losses are deducted and
- b) Measures the restatement of the lease obligation at the restated cost.

TAS 16 Impairment of Assets is applied to determine whether the real estates considered as right-of-use assets are impaired and to account for any impairment loss identified.

The Lease Obligations:

At the effective date of the lease, the Bank measures its leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the Bank's average borrowing interest rates.

The lease payments included in the measurement of the lease liability consist of the payments to be made for the right of use during the lease term of the underlying asset and the unpaid payments at the effective date of the lease.

After the effective date of the lease, the Bank measures the leasing liability as follows:

- a) Increase the book value to reflect the interest on the lease obligation
- b) Reduces the book value to reflect the lease payments made and
- c) The book value is measured to reflect reassessments and restructuring or reflect to fixed lease payments as of revised nature.

The interest on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic interest rate to the remaining balance of the lease liability.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XIV. Explanations on Provisions and Contingent Liabilities

Provisions are recognized when there is a present obligation due to a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by using the Bank's best expectation of expenses in fulfilling the obligation and discounted to present value if material.

XV. Explanations on Liabilities Regarding Employee Benefits

In accordance with the existing labor law, the Bank is required to make lump-sum termination indemnities to each employee who has completed over one year of service and whose employment is terminated due to retirement or for reasons other than resignation and misconduct.

The Bank has calculated provision for employee severance benefits in the accompanying financial statements in accordance with TAS 19 "Employee Benefits" by using the "Projection Method" and discounted the total provision by using the current market yield at the balance sheet date on government bonds based on their past experiences in the issues of completion of personnel service period and severance pay eligibility.

The Bank has no retirement fund or foundation that the employees are the member of.

Defined Contribution Plans:

The Bank pays contributions to the Social Security Institution of Turkey on a mandatory basis. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due.

Short-term Employee Benefits:

In accordance with TAS 19 "Turkish Accounting Standard on Employee Benefits"; defined liabilities that arise from unused leave payments are accrued in the related period and are not discounted.

XVI. Explanations on Taxation

Corporate Tax:

According to the Article 32 of the Corporate Tax Law No 5520, accepted in the meeting of Grand National Assembly of Turkey (TBMM) on June 13, 2006 and announced in the Official Gazette dated June 21, 2006, the corporate tax rate has been decreased from 30% to 20%, effective from January 1, 2006 as per the Article 37 of the Corporate Tax Law.

According to Provisional Article 13 added to the Corporate Tax Law, Corporate Tax at 20% shall be applied as 25% for corporate earnings for the 2021 taxation period and 23% for corporate earnings for the 2022 taxation period.

In accordance with tax legislation, temporary tax is paid at the rate in force in the relevant period on earnings generated as of quarterly periods, and the amounts paid are deducted from the calculated tax on annual earnings.

Tax returns are required to be filed between the first and twenty-fifth day of the fourth month following the balance sheet date and paid in one installment until the end of the related month.

According to the Corporate Tax Law, tax losses can be carried forward for a maximum period of five years following the year in which the losses are incurred. Tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

The Bank makes necessary provisions over results of current period operations related with Income Tax and Corporate Tax liabilities.

The balance resulting from netting off prepaid taxes and the corporate tax provision is shown in the current tax asset or liability as being positive or negative, respectively.

Deferred Tax Liability / Asset:

The Bank calculates and reflects deferred tax asset or liability on timing differences which will result in taxable or deductible amounts in determining taxable profit of future periods.

In accordance with TAS 12 "Turkish Accounting Standard on Income Taxes" the Bank calculates deferred tax asset on carry forward tax losses and all deductible temporary differences, if sufficient taxable profit within five-year period to recover such amounts is probable; as well as deferred tax liability on all taxable temporary differences.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVI. Explanations on Taxation (continued)

Deferred Tax Liability / Asset (continued)

The book value of the deferred tax asset is reviewed at the end of each reporting period. The book value of a deferred tax asset is reduced to the extent that it is no longer probable that sufficient financial profit will be available to allow the benefit of part or all of the deferred tax asset to be obtained.

If the deferred tax transactions and other issues are recognized (accounted) in profit and loss, related tax effects are recognized in profit and loss. On the other hand, if the deferred tax transactions and other issues are recognized (accounted) in equity accounts, related tax effects are also recognized (accounted) in equity accounts.

Deferred tax assets and liabilities are reflected in the accompanying financial statements on a net basis.

The net deferred tax asset is included in deferred tax asset and the net deferred tax liability is reflected under deferred tax liability on the balance sheet.

In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date. The Law regarding amendments on Certain Tax Laws was approved in The Grand National Assembly of Turkey on 15 April 2021 and the Law was published in the Official Gazette on 22 April 2021. Accordingly, the corporate income tax rate will be determined as 25% and 23% for the years 2021 and 2022. According to the Law that have been enacted, deferred tax asset and liabilities shall be measured at the tax rate 25% that are expected to apply to these periods when the asset is realized or the liability is settled. For the periods 2022 and after deferred tax assets and liabilities were measured by 23% and 20% tax rate. As of 30 June 2021, the Bank calculated deferred tax on its assets and liabilities according to the rates corresponding to the relevant periods.

XVII. Additional Explanations on Borrowings

The borrowing costs related to purchase, production, or construction of qualifying assets that require significant time to be prepared for use and sale are included in the cost of assets until the relevant assets become ready to be used or to be sold. Financial investment income obtained by temporary placement of undisbursed investment loan in financial investments is offset against borrowing costs qualified for capitalization.

All other borrowing costs are recorded to the income statement in the period they are incurred.

The Bank has not issued convertible bonds.

XVIII. Explanations on Issued Share Certificates

Direct transaction costs related to issuance of stock certificates are recognized as discount from equity.

XIX. Explanations on Avalized Drafts and Acceptances

Avalized draft and acceptances are realized simultaneously with the payment dates of the customers and they are presented as probable commitments in off-balance sheet accounts.

XX. Explanations on Government Incentives

There are no government incentives utilized by the Bank.

XXI. Explanations on Segment Reporting

Reporting according to the operational segment is presented in Note VIII of Section Four.

XXII. Explanations on Reclassifications

The Bank has made some classifications on the financial statements in order to comply with the presentation of the financial statements dated 30 June 2021. These classifications does not have any impact over Bank's asset size or financial performance.

ODEA BANK ANONİM ŞİRKETİ
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XXIII. Explanations on Other Disclosures

The new type of virus, COVID-19, and precautions regarding it, cause malfunctions in operations in countries exposed to it. Moreover, it affects economic conditions negatively both in our country and globally.

The process is monitored and managed by the Bank's Executive Committee with an integrated approach by giving priority to employee and customer safety, business continuity and including the assessment of its financial impacts.

The Bank has reflected possible effects of the COVID-19 outbreak on the estimates and judgments used in preparation of the financial statements as of 30 June 2021.

The Bank's detailed assessments in terms of financial impacts are ongoing, and which may have a significant impact on the financial statements are identified and addressed as follows:

- TFRS 9 – Within Financial Instruments Standard, the adequacy of the Expected Credit Losses has been evaluated taking into account the effects of outbreak and accounting estimates and assumptions has been reviewed and the necessary updates have been reflected.
- TFRS 16 - The effects within Leasing standard has been reviewed and deemed that no change is required.
- TAS 12 – The effects of recoverable amounts within Income Taxes Standard has been reviewed and deemed that no change is required.
- The effects of TFRS 15 - Revenue from Contracts with Customers and TAS 37 - Provisions, Contingent Liabilities and Contingent Assets Standard on the contracts with customers and suppliers have been reviewed and deemed that no change is required.

Additionally, the Bank's capital adequacy standard ratios and liquidity coverage ratios remain above from minimum limits stated on the legislation.

The Bank's management continues to monitor and evaluate the possible impacts as of the reporting date.

The Bank's management analyses the permanent depreciation on assets monitored with their Fair Value and it is decided that there is no such indication.

(*) The Bank, in accordance with Article 519 of the Turkish Commercial Code No.6102, decided in the Extraordinary General Assembly on March 24, 2021 to book legal reserves of TL 6.710, which is 5% of the distributable net statutory profit of TL 134.209 and the remaining amount of TL 127.499 has been decided to be reserved as extraordinary reserves.

(**) The Bank, on August 1, 2017 issued the Basel III compliant, 10 year, semi-annual fixed 7,625% coupon paying bond of USD 300 million to foreign domicile investors. The bond, with the permission of BRSA dated July 17, 2017 was classified as Tier II sub-loan. The Bank, pursuant to the approval of the BRSA on 26 September 2018, bought back USD 24.535 thousands of Tier II sub-loan as of 30 June 2021, and the relevant amount has been deducted from the capital amount in the equity calculation. The Bank has not redeemed or cancelled the shares in circulation, thus selling back any portion of such amount at any time is completely at the Bank management's discretion.

As of June 30, 2021 in accordance with BRSA's decision dated December 8, 2020 and numbered 9312, the Bank, effective until September 30, 2021 the amount subject to credit risk in capital adequacy calculations calculated by taking into account the simple arithmetic average of the Central Bank foreign exchange buying rates for the last 252 business days before the calculation date. Had the Bank not applied these regulations, the equity amount as of 30 June 2021 would be calculated as TL 6.202.394 and the capital adequacy standard ratio would be calculated as 19,35 %.

AS OF 30 JUNE 2021

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Explanations on Currency Risk

Foreign currency risk indicates the probability of loss that banks are subject to due to the exchange rate movements in the market. While calculating the share capital requirement, all foreign currency assets, liabilities and forward transactions of the Bank are taken into consideration and value at risk is calculated by using the standard method.

The Board of Directors sets limits for the positions and stop losses which are followed up daily and weekly. Any possible changes in the foreign currency transactions in the Bank's positions are also monitored.

The announced foreign exchange buying rates of the Bank at 30 June 2021 and the previous five working days in full TL are as follows (Bank's FC evaluation rates):

	23 June 2021	24 June 2021	25 June 2021	28 June 2021	29 June 2021	30 June 2021
USD	8,6077	8,6828	8,7018	8,7061	8,7252	8,6670
CHF	9,4012	9,4600	9,5150	9,4704	9,4684	9,3797
GBP	12,0494	12,0902	12,1172	12,1114	12,0739	11,9913
100 JPY	7,7752	7,8415	7,8723	7,8602	7,8910	7,8291
EURO	10,3017	10,3756	10,4184	10,3802	10,3778	10,2875

	24 December 2020	25 December 2020	28 December 2020	29 December 2020	30 December 2020	31 December 2020
USD	7,5601	7,5620	7,4478	7,3507	7,3636	7,4212

II. Explanations on Currency Risk (continued)

Foreign currency sensitivity:

The Bank holds EUR and USD currencies as a result of foreign currency transactions and manages it by using miscellaneous financial instruments.

As of 30 June 2021, the Bank's net foreign exchange exposure as per internal calculation is presented below:

30 June 2021	EURO	USD	OTHER FC	TOTAL
Net currency position including on-balance sheet and off-balance sheet	13.301	142.978	(160.525)	(4.246)

31 December 2020	EURO	USD	OTHER FC	TOTAL
Net currency position including on-balance sheet and off-balance sheet	(25.153)	(86.450)	58.714	(52.889)

The internal currency risk calculation includes derivative financial assets / liabilities, securities valuation differences and similar positions which are not included in the FCNGP Regulation of the BRSA and options are taken into account with their delta equivalents for internal currency risk management purposes.

The maximum and minimum positions presented in Other FC column of internal foreign exchange exposure calculation are TL 1.063 and TL (133.255) respectively (31 December 2020: TL 56.937 and TL (62)).

The table below shows the sensitivity of the Bank to a 10% change in USD and EURO exchange rates. 10% is the sensitivity rate and represents possible change in foreign exchange rates. Positive/Negative number indicates a change in profit or loss and other equity where USD and EUR appreciate 10% against TL.

	Change in currency rate in %	Effect on profit or loss (*)		Effect on equity(*)	
		30 June 2021	31 December 2020	30 June 2021	31 December 2020

III. Explanations on Interest Rate Risk

Interest rate risk shows the probability of loss related to the changes in interest rates depending on the Bank's position, and it is managed by the Asset-Liability Committee. The interest rate sensitivity of assets, liabilities and off-balance sheet items related to this risk are measured by using the standard method and included in the market risk for capital adequacy.

Risk Management Group performs duration, maturity and sensitivity analysis to protect the effect of interest rate volatility and reported to the Asset-Liability Committee.

Simulations on interest income are performed in connection with the forecasted economic indicators used in the budget of the Bank. The negative effects of the fluctuations in the market interest rates on the financial position and the cash flows are minimized by revising budgeted targets.

The Bank management follows the market interest rates daily and revises the interest rates of the Bank whenever necessary.

Since the Bank monitors maturity mismatches very closely a significant interest rate risk exposure is not expected.

Information related to the interest rate sensitivity of assets, liabilities and off-balance sheet items (based on repricing dates):

V. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio

Liquidity risk is a risk that occurs as a result of, not having cash in hand or cash inflow at a level and nature to meet cash outflow as a consequence of imbalance in cash flow in time and completely. Liquidity risk consists of sum of two main risk types; funding liquidity risk and market liquidity risk.

Management of the Bank's liquidity risk is carried out in scope of responsibilities of Board of Directors, Risk Committee of the Board, Assets and Liabilities Management Committee (ALCO), Risk Management Department and other business units which are members of ALCO.

Board of Directors has the ultimate responsibility concerning the liquidity risk and its management. Board of Directors also has the responsibility to determine liquidity risk appetite as a part of holistic risk appetite, evaluate and approve proposed limits, approve liquidity risk management policy and confirm changes regarding limit and confinement.

Risk Committee evaluates and approves short, medium and long term liquidity risk management strategies. Risk Committee also provides general adaptability of the Bank to principals and management procedures included in the management of the risk. Risk Committee reviews and evaluates liquidity risk reports periodically.

Assets and Liabilities Management Committee (ALCO) establishes short, medium and long term liquidity management strategies and evaluates the liquidity risk profile of the Bank and impacts of recently developed trends on the liquidity of the Bank through periodical meetings. ALCO makes a decision regarding the qualification of liquidity buffer of the Bank in line with risk appetite and liquidity strategy of the Bank. Additionally, ALCO reviews liquidity reports and feedbacks of the Risk Management, considers Treasury's opinions and action plans and informs Risk Committee and Board of Directors about the possible adverse conditions regarding liquidity and its material impacts.

Risk Management establishes liquidity risk management policy, determines liquidity risk limits and submits these policies and limits to the approval of Board of Directors. It also provides to measure and manage liquidity risk in the framework of risk appetite and limits approved by the Board of Directors. Risk management performs reporting to ALCO, Risk Committee and members of Board of Directors regarding adherence to risk appetite and limit excess. Additionally, risk management is also responsible to form and implement liquidity stress tests and share the results with the related parties.

Liquidity risk analysis and early warning signals are reported to the senior management periodically. Furthermore, all the analysis including regulatory and internal rates with respect to liquidity risk are reported to ALCO and limit and warning levels approved by the Board of Directors are monitored periodically and reported to related parties.

Funding management of the Bank is carried out under the control of the Treasury and with the knowledge of ALCO. The Bank's funding strategy is intended to ensure sufficient liquidity and diversity of funding sources to meet actual and contingent liabilities through both normal and stress periods. A significant part of Bank's liquidity needs is met with deposits which represent the main funding source of the Bank. On the other hand, when it is deemed necessary, bond issuance and pre-financing products can be provided in addition to the aforementioned sources.

Almost all the liabilities of the Bank are denominated in TL, USD or EUR and the concentration risk in the funding sources is monitored closely. Concentration analysis related to deposits are performed and factors, which can deteriorate access to funding sources and trigger a sudden withdrawal of funds at a significant level, are analyzed.

Liquidity risk is closely monitored and managed in order to keep it at a level appropriate to risk appetite and liquidity risk management policies, by promoting diversification of funding sources, keeping high quality liquid assets and reduction or termination of activities causing limit excess.

In scope of the Liquidity Stress Test, the Bank monitors stress scenarios arising from internal and external factors and manages its high quality liquid assets, deposits, other balance sheet items generating cash outflows, loans and other cash inflows in that respect. There are designated risk limits for indicators. The compliance with the risk and the determined risk limits is shared with the Senior Management and the relevant business units and necessary actions are taken.

The Bank has established a Liquidity Emergency Action Plan to explain the actions that should be taken in possible liquidity tightness scenarios. In this context, normal market conditions and various stress levels are defined and action plans are created for each situation. In addition to the Emergency Action Plan, Basic Risk Indicators and Liquidity Early Warning Signals are defined within the scope of Liquidity Risk Management Policy and these indicators are regularly monitored.

V. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio (continued)

The liquidity coverage ratios are calculated in accordance with the "Regulation on Liquidity Coverage Ratio Calculation of Banks" published in Official Gazette dated 21 March 2014 and numbered 28948. Liquidity coverage ratios should be at least 80% for foreign currency assets and liabilities and 100% for total assets and liabilities.

Information regarding weekly solo liquidity coverage ratios realized in the sixth quarter of 2021 is as follows:

		Rate of "Percentage to be taken into account" not implemented Total value (*)		Rate of "Percentage to be taken into account" implemented Total value (*)

				Upper Limit Applied Amounts	
21	TOTAL HQLA			8.751.462	5.930.843
22	TOTAL NET CASH OUTFLOWS			4.944.262	3.157.775
23	Liquidity Coverage Ratio (%)			179,06	194,03

(*) Simple arithmetic average calculated for the last three months by using the amounts calculated based on weekly simple arithmetic averages.

Liquidity coverage ratio is calculated by proportioning the high quality liquid assets owned by the bank to the net cash outflows in the one month maturity window. Important balance sheet items that determine the ratio can be listed as required reserves held at the CBRT, securities not subject to repo / collateral, deposits according to counterparty, securities taken as collateral with reverse repo, placements to banks and derivative transactions. Since these items have a high share in liquid assets and net cash outflows in terms of volume, their ratio of consideration is high and they may change over time, their effect on liquidity coverage ratio is higher than other items.

Although derivative transactions create a low amount of net cash flow in terms of total liquidity coverage ratio, fluctuations in foreign currency derivative transaction volumes may affect the foreign currency liquidity coverage ratio.

VI. Explanations on Leverage Ratio

Information on subjects that causes difference in leverage ratio between current and prior periods:

“Regulation on the Measurement and Evaluation of Banks Leverage Levels” regulates the procedures and principles regarding to ensure adequate capital at the consolidated and non-consolidated basis for exposure of possible risk of Banks. Leverage ratio of the Bank calculated amounting to 6,12% (31 December 2020: 6,62%). As of 30 June 2021, the Bank's leverage ratio is dropped to 6,12% from 6,62%. The decrease springs from the increase in risk amounts of on and off balance sheet items. According to Regulations, minimum leverage ratio is 3%.

Disclosure of Leverage ratio template:

	Current Period	Prior Period
	30 June	31 December

VII. Explanations on Risk Management (continued)

b. Credit risk explanation

1. General qualitative information about credit risk:

Credit Risk Management Department operates under Internal Systems pillar directly subject to Board of Directors as it is mentioned in scope of "Regulation on Internal Systems of Banks and Internal Capital Adequacy Assessment Process". Reports, prepared in a wider perspective, are reported to Board of Directors and senior management as well as reports having given minimum standards in scope of aforementioned regulation. Risk Report include customer, group, collateral and sector concentrations, stress tests, risk profile, overdue receivables and specific provision development, close monitoring development and capital adequacy analysis as general scope and main content.

The Bank determines risk limits including all risks and covering all activities of the Bank and those limits are approved by Board of Directors. Limits of the Bank are determined in a way to reflect risk appetite, which is planned to be undertaken, and expectations in economy with our main partner. Credit policies are established in compliance with risk limits accordingly. Those limits are periodically monitored by Risk Management and Board of Directors is informed in scope of respective outputs.

Credit allocation processes are established in line with risk appetite and limits determined in scope of credit policies. In this scope, rating and decision support systems are used in evaluation of credits in order to reflect related risks. Access levels are determined by Board of Directors.

Credit Risk is the possibility of loss to which the current or future return or capital of the bank shall be exposed since the debtor cannot fulfil its liability in due time through violating requirements of related contract. The Bank approaches risk management as a cycle. Credit allocation units, form the first level of line of defence for credit risk in scope of allocation decision. Board of Directors holds the control over credit process in scope of authorization levels. Risk Management executes measurement, monitoring and reporting activities of credit risk through using statistical methods and forms line of defence at second level. Internal Control and Supervisory Board Directorate forms line of defence at third level in this process.

Board of Directors is responsible for determination of taking risks and appetite level. Board of Directors manages risks through Risk Committee. Committee is responsible for determination of risk policies, measurement and monitoring of risks.

2. Credit quality of assets:

VII. Explanations on Risk Management (continued)

b. Credit risk explanation (continued)

3. Changes in stock of defaulted loans and debt securities:

	30 June 2021	31 December 2020
1 Defaulted loans and debt securities at end of the previous reporting period	2.280.483	2.803.192
2 Loans and debt securities that have defaulted since the last reporting period	69.518	401.009
3 Returned to non-defaulted status	-	-
4 Amounts written off	1.065	611.501
5 Other changes	(109.640)	(312.217)
6 Defaulted loans and debt securities at end of the reporting period (1+2-3-4+5)	2.239.296	2.280.483

4. Credit risk mitigation techniques – overview:

The Bank considers appropriate collaterals mentioned in “Regulation on Measurement and Evaluation of Bank’s Capital Adequacy” published on Official Gazette numbered 29511 for the calculation of capital adequacy. Since mortgages determine a receivable class, collateral used in credit risk reduction consists of cash collaterals with blockage.

All expertise reports, get done by the Bank, are assigned to valuation institutions, which are authorized by Banking Regulation and Supervision Agency and also having CMB license. Expertise requests, received from branches for valuation reports issued for the purpose of collateral, are evaluated by Expertise and Mortgage Department and forwarded to contracted valuation institutions through expertise system of the Bank. Valuation institutions submit expertise report through using expertise system of the bank following the completion of expertise activity. The report, submitted by expertise institution, is reviewed by Expertise and Mortgage Department and delivered to branches via aforementioned system. If there exists elements, which are considered as risks, in collateralization, those elements are included in valuation report.

Mortgage transaction is performed by law firms following the collateralization decision. Mortgage request is submitted from branch to our mortgage department via mortgage system of the bank. Mortgage department forwards the request to contracted law firms after controlling the request in question. Authenticated deeds and mortgage receipt certificates are delivered to branches via aforementioned system following the finalisation of mortgage transaction.

If the mortgage is in release phase, release request, submitted by the branch, is delivered to directorate of land registry with release letter which is obtained on mortgage release system following getting approval of required approvers.

A review report is issued on an annual basis in scope of communique on risk mitigation techniques for received collaterals.

5. Qualitative disclosures related to rating grades used by the Banks for the calculation of credit risk with standard approach:

The Bank uses external rating grades provided by Fitch Ratings for the calculation of credit risk with standard method. In this scope, risk weights in Receivables from Central Administrations or Central Banks class of the Bank are determined through taking ratings provided by Fitch Ratings and guidance given by BRSA for the aforementioned CRA into account.

c. Counterparty Credit risk (CCR) explanations:

1. Qualitative disclosure related to counterparty credit risk:

Counterparty credit risk (CCR) states default risk of counterparty, which is a party to a transaction imposing an obligation to both parties, going into default before the final payment included in cash flow of the transaction in question. The Bank monitors Counterparty Credit Risk in the framework of Counterparty Credit Risk and Exchange Risk Management Policy which is approved by Board of Directors. Counterparty Credit Risk and Exchange Risk Management Policy includes rules, limits and actions in case of non-compliance related to transactions in counterparty credit risk and exchange risk.

The Bank internally applies different action rules for each of the action groups determined for measurement of counterparty credit risk. Action groups are divided into Individual Business Line, Non-Individual Business Line (except for Stock Exchange and Banks) and Banks and Stock Exchanges.

Potential and current risk exposures of transactions are calculated/determined in order to determine CCR. Internal netting application is taken into account while calculating risk exposures.

Daily collateral management is performed in accordance with provisions of agreements related to transactions of counterparty credit risk and exchange risk with stock exchanges and banks having ISDA-CSA agreement.

Internal limits related to counterparty credit risk and exchange risk are evaluated by Credits Department with respect to requests from related departments and submitted to the approval of Director of Credits Department, General Manager, Credit Committee or Board of Directors according to magnitude of exposures.

VII. Explanations on Risk Management (continued)

c. Counterparty Credit risk (CCR) explanations (continued)

1. Qualitative disclosure related to counterparty credit risk: (continued)

The Bank legally calculates counterparty credit risk and exchange risk in accordance with the rules and explanations mentioned in "Regulation on Measurement and Evaluation of Bank's Capital Adequacy". Counterparty credit risk and exchange risk, calculated legally, is subject to limit of capital adequacy ratio.

2. Analysis of counterparty credit risk (CCR) exposure by approach

VII. Explanations on Risk Management (continued)

d. Explanations Related to Securitization Positions: None.

e. Explanations on Market Risk

Market risk is the probability of impairment of in/off balance sheet positions based on fluctuations in market risk factors. Fluctuations in market risk factors states changes occurring in interest rates, exchange rates, share prices, commodity prices and volatility. Exchange rate and interest rate risks are considered as two of the most significant components forming market risk and derivative financial transactions are made in order to provide hedging from exposed financial risks, when required.

The Bank manages market risk in line with Market Risk Management Policy including rules and limits to be adopted related to management of trading portfolio and required actions to be taken in case of non-compliance. Trading Portfolio Strategy, approved by Board of Directors, determines which products shall be reviewed under trading portfolio. Principles, policies and risk limits with respect to management of market risk are approved by Board of Directors, reviewed periodically and applied by senior management of the Bank and related departments.

The Bank applies legal and internal limits which are determined in scope of measurement of market risk belonging to trading portfolio and approved by Board of Directors. Foreign exchange position, interest rate and volatility limits are included in various breakdowns under internal limits and compliance with limits are monitored and reported daily by Risk Management Department.

Legal capital requirement, sourcing from Market Risk, is calculated and reported using standard method in line with principles related to Calculation of Value at Market Risk of Regulation on Measurement and Evaluation of Bank's Capital Adequacy.

Responsibilities of Board of Directors, Member of Board of Directors Responsible from Internal Systems, General Manager, Asset-Liabilities Committee (ALCO), Treasury Department, Finance Department and Risk Management Department with respect to management of Market Risk are determined and detailed in Market Risk Management Policy.

Treasury Front-Office system and Banking Application is used related to measurement and reporting of Market Risk and integration process of a risk software application is still going on.

VIII. Explanations on Segment Reporting

Organized to operate in all operational aspects of banking under the scope of 4th Article of the Banking Law, the Bank is providing diversified financial solutions focused on capital financing, foreign trade, project finance, non-cash products, cash management and internet banking services to commercial (segregated as Corporate, Commercial and SME prior to unification under Commercial Banking in 2018) customers. Retail Banking, formed under three major divisions, namely, Retail Loans, Bank and Credit Cards and Wealth Management, serves to the financial needs of customers through branches, internet and mobile channels. Treasury and Capital Markets department is managing TL and FCY liquidity in healthy and sustainable manner, performing profit oriented trading activities in the market within the limits given by the Board. In addition, Treasury sales unit delivers pricing services of government bills and bonds, Eurobonds and derivatives to the Bank customers.

SECTION FIVE

INFORMATION AND DISCLOSURES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS

I. Explanations and Disclosures Related to the Assets

1. a) Information on Cash and Balances with the Central Bank of Turkey:

	30 June 2021		31 December 2020	
	TL	FC	TL	FC
Cash in TL/Foreign Currency	31.240	288.435	31.322	252.891
Balances with the Central Bank of Turkey	473.793	4.736.468	247.452	4.344.430
Other	-	-	-	-
Total	505.033	5.024.903	278.774	4.597.321

b) Information related to the account of the Central Bank of Turkey:

	30 June 2021		31 December 2020	
	TL	FC	TL	FC
Unrestricted Demand Deposit	473.793	1.591.583	247.452	1.584.987
Unrestricted Time Deposit	-	720.126	-	364.565
Restricted Time Deposit	-	2.424.759	-	2.394.878
Total	473.793	4.736.468	247.452	4.344.430

c) Explanations related to reserve deposits:

In accordance with the "Communiqué Regarding the Reserve Requirements no. 2013/15, the Bank is required to maintain reserves in CBRT for TL and foreign currency liabilities. The reserve requirements can be maintained as TL, USD, EUR and standard gold.

The required reserve rates for TL liabilities vary between 3 % and 8% for TL deposits and other liabilities according to their maturities as of 30 June 2021 (31 December 2020: 1 % and 6% for all TL liabilities). The reserve rates for foreign currency liabilities vary between 5% and 22% for deposit and other foreign currency liabilities according to their maturities as of 30 June 2021 (31 December 2020: 5% and 22% for all foreign currency liabilities).

With the Communiqué numbered 2019/15, and dated August 9, 2019, the application of required reserve ratios differentiated according to loan growth was abolished on 11 December 2020. 13,5% interest rate is applied by the CBRT for Required Reserves in Turkish Lira. No interest is paid for required reserves kept in USD by the CBRT since 19 September 2019. Based on the CBRT's letter dated 24 January 2020, the Bank pays an annual commission amount of 12.5 per ten thousand over the required reserve amount to be kept for deposits in foreign currencies other than US dollars.

5. Information on loans (continued)

k) Explanations on write-off policy:

The amendment with respect to the regulation on the Principles and Procedures Regarding the Classification of Loans and Reserves Set Aside for These Loans entered into force with its publication in the Official Gazette No.30961 on November 27, 2019. Pursuant to the regulation, the banks are enabled to write down and move off the balance sheet the portion of a loan which is classified as "Uncollectible loans" if it cannot reasonably be expected to be recovered. Loans and receivables considered as non-collectable are written-off pursuant to approval of Board of Directors (BoD) and other related departments. As of 30 June 2021, The Bank has written-off TL 1.065 of non-performing loan portfolio.

II. Explanations and Disclosures Related to the Liabilities (continued)

13. Information on Shareholders' Equity (continued):

At the Ordinary General Assembly meeting held on March 24, 2021, TL 6.710, which is 5% of the Bank's net profit for the year 2020, TL 134.209, was reserved as 1st Arrangement Legal Reserve in accordance with Article 519 of the Turkish Commercial Code numbered 6102 and the remaining 127.499 It has been decided to reserve TL as Extraordinary Reserve Fund.

The Law No. 7244 on Reducing the Effects of the New Coronavirus (COVID-19) Epidemic on Economic and Social Life and the Law on Amendment to Certain Laws ("Law") entered into force after being published in the Official Gazette dated April 17, 2020. Pursuant to the aforementioned Law, the Turkish Commercial Code numbered 6102 was amended and restrictions and restrictions on profit distribution were envisaged. The regulation in question has started to be implemented as of the publication date of the Law.

Within the scope of this regulation, capital companies will be able to decide to distribute only up to 25% of the net profit for the year 2020 in the general assembly they will hold until March 31, 2021, and the previous years' profits and free reserves will not be subject to profit distribution. In addition, the general assembly will not be authorized to distribute advance dividends to the board of directors. The period in which the said restrictions and restrictions are valid may be extended or shortened for three months by the President's decision.

d) Main principles of liquidation policies of non-performing loans and receivables:

According to the "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves" published on Official Gazette No. 26333 dated November 1, 2006; legal action is carried on considering firms, guarantors and existing collaterals and provisions are made for non-performing loans in accordance with the relevant decree. As of 30 June 2021, the net amount after provisions of the non-performing loans and receivables in the fifth group (in Stage 3) is TL 1.270.549 (31 December 2020: TL 1.182.816).

14. Information on minority shares:

Message from the Chairman

Dear Stakeholders,

After a turbulent 2020, the global economy is finally starting to emerge from the worst phases of the Covid-19 pandemic. Although uncertainties regarding the evolution of this pandemic remain, the way out of this eco-health crisis has become more visible as a result of the rapid progress in vaccination. Thus, a stronger recovery is predicted in the global growth forecasts of international organizations compared to the first periods of the pandemic.

In Turkey, leading indicators show that the economy has been on a path to growth. It had displayed a high growth performance in the first quarter of 2021, supported by a strong domestic demand as well as a pickup in foreign demand due to the recovery in global economic activity. Despite the full lockdown measures implemented, a high growth rate is expected in the second quarter of the year attributed to the low base achieved in the corresponding period of last year. Over the short term, the evolution of the pandemic and related vaccination impacting the services sector will continue to be the principal determinant of the economic and banking activities at large.

With that in mind, we, at Odeabank, continue to gear our activity in priority toward the active support of our clients and community financing needs while closely monitoring our asset quality, capitalization and income generation capacity to weather these challenging times in the best shape possible. A number of new projects serving this purpose have been put into motion, of which more importantly an extensive revamping of our digital channels infrastructure so as to continue, within the lockdown measures, to provide the highest quality to our existing customers while increasing our outreach to potential customers in regions where the Bank does not have an existing physical infrastructure. As a result, we managed to increase our share in the growth of the Turkish economy, while coming out of the shrinking interest margin environment with less damage compared to a number of banks in the sector. We also took advantage from the improving contribution of the European economy to Turkey's exports to increase our Foreign Trade revenues. Our investment products continue to grow steadily increasingly diversified. Last and not least, a lot of efforts were put forth in order to keep our operating expenses under control despite the inflationary environment.

With each of these measures, we continue to stand behind our commitment to sound banking by providing the financing needs to the Turkish economy as we believe in the fundamentals of Turkey and the opportunities its economy and banking sector has to offer.

Once again, I would like to thank our customers for their continuous faith, our employees for their dedication and our shareholders for their permanent support.

Sincerely yours,

DR. İmad İtani

Bank Audi S.A.L Board Member

Odea Bank's Chair of the Board of Directors

CEO's Message

Dear Stakeholders,

Despite the uncertainties experienced in the markets due to the COVID-19 pandemic and the full closure period, we continue to grow by contributing to the economy in the second quarter of 2021 with our strong equity structure, solid balance sheet structure and sustainable profitability. Despite the global developments in the world and in Turkey as a result of the pandemic, we successfully implemented our customer-oriented working strategy in the second quarter of this year. We continued to operate in line with our country's priorities, placing more emphasis on efficiency and risk management than ever before.

Focusing on our strategy to become the best investment products bank, we continue to take steps for a healthy and stable performance. In line with the reflection of technological developments, aiming to develop the customer-oriented banking approach in areas that create added value; we are moving forward with our aim to implement sustainable, innovative solutions and digitalization in all business lines. In this context, we established the Digital Transformation Directorate in order to realize the digital transformation of our bank in all processes, to provide the variety of digital products we offer to our customers and to increase the quality of services, to enrich our digital channels according to trends and to increase the effectiveness of these channels. With the Agile Working Method, which is our first action, we aim to adapt to change quickly and efficiently, to create a competitive advantage by making the best use of opportunities, and to adopt an approach that puts the customer in the center of every product and service.

In addition, we continue to offer our products and services to exporters to increase foreign trade in line with the growth plans of our country's economy. We will continue to contribute to the Turkish economy by expanding our cash and non-cash loan portfolio.

When we evaluate our financial results for the second quarter of the year, our cash loans reached 24.1 billion TL, our non-cash loans reached 7.3 billion TL and our deposits reached 28.5 billion TL. With these results, our gross loan-deposit ratio stood at 84.6%, while Odeabank continued to maintain its strong balance sheet structure that could fund itself. In line with our long-term goals, we continue to increase our diversity in investment products and to grow uninterrupted. Accordingly, our non-deposit assets managed reached TL 3.8 billion. Provisions and profit before tax was realized as 773 million TL. As a result of the correct management of our asset structure and strong equity structure, our Tier 1 capital ratio is 11,35 % and our capital adequacy ratio is 20,24 %, which is above the sector average.

As Odeabank, we will continue to create added value with our belief in Turkey's future and high potential in the light of all these efforts.

Sincerely,

Mert Öncü
CEO and Board Member
