Odea Bank Anonim Şirketi

Unconsolidated Interim Financial Statements As at and for the Three-Month Period Ended 31 March 2025

Convenience Translation of the Auditors' Review Report Originally Prepared and Issued in Turkish to English (See Note I in Section Three)

REVIEW REPORT ON INTERIM UNCONSOLIDATED FINANCIAL INFORMATION

To the Board of Directors of Odea Bank Anonim Şirketi;

Introduction

We have reviewed the accompanying unconsolidated statement of financial position of Odea Bank A.Ş. (the "Bank") as of 31 March 2025 and the related unconsolidated statements of profit or loss, profit or loss and other comprehensive income, changes in shareholders' equity, cash flows for the three-month period then ended and notes, comprising a summary of material accounting policies and other explanatory information. The Bank Management is responsible for the preparation and fair presentation of these interim financial information in accordance with the "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation" which includes the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Board and circulars and interpretations published by BRSA and the requirements of Turkish Accounting Standard 34 "Interim Financial Reporting" principles for those matters not regulated by the aforementioned legislations. Our responsibility is to express a conclusion on these interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated interim financial information does not present fairly, in all material respects, the unconsolidated financial position of Odea Bank A.Ş. as at 31 March 2025, and its unconsolidated financial performance and its unconsolidated cash flows for the three-month period then ended in accordance with the BRSA Accounting and Reporting Legislation.

Report on Other Legal and Regulatory Requirements

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information provided in the interim activity report included in section seven of the accompanying unconsolidated interim financial information is not consistent, in all material respects, with the reviewed unconsolidated interim financial information and explanatory notes.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIATED FINANCIAL STATEMENTS **AS OF 31 MARCH 2025**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION ONE

GENERAL INFORMATION ABOUT THE BANK

I. Bank's Incorporation Date, Beginning Statue, Changes in the Existing Statue

Odea Bank A.Ş. ("the Bank") was established as a deposit bank with USD 300 Million capital with the permission of BRSA numbered 4432 dated October 27, 2011, which was published in the Official Gazette on October 28, 2011, numbered 28098. The Bank started its operations in the "foreign deposit banks founded in Turkey" group, by taking operating permission from BRSA numbered 4963 on September 28, 2012, which was published in Official Gazette dated October 2, 2012 numbered 28429.

II. Explanations Regarding Bank's Shareholding Structure, Shareholders Holding Directly or Indirectly, Collectively or Individually, the Managing and Controlling Power and Changes in Current Year, if any and Explanations on the Controlling Group of the Bank

Established in 2018 as a strategic partner of the Government of the United Arab Emirates, Abu Dhabi Developmental Holding Company P.J.S.C. (together with its subsidiaries and affiliates, "ADQ"), an investment and holding company headquartered in Abu Dhabi and active in critical infrastructure and global supply chain investments, has signed a share purchase agreement on October 14, 2024 with a shareholder consortium led by Bank Audi s.a.l. to acquire 96% of the shares of Odeabank, through its indirect and ultimate owner ADQ Financial Services L.L.C. and its wholly owned subsidiaries. Regarding this transaction, approvals were received from the Banking Regulation and Supervision Agency (BRSA) on March 06, 2025, and from the Competition Authority on March 20, 2025.

Within this context, the share transfer transaction was completed as of March 26, 2025, and the total shareholding rate of Bank Audi s.a.l. (%76.42), European Bank for Reconstruction and Development (%8.01), International Finance Corporation (%6.36), IFC FIG Investment Company S.a.r.l. (%3.43) and Mr. Mohammad Hassan Zeidan (%1.78) in Odeabank decreased from 96% to 0%, while the shareholding rate of ADQ Financial Services L.L.C. and its affiliates in Odeabank increased from 0% to 96%.

ADQ Group

ADO is an Abu Dhabi-based investment and holding company with a broad portfolio of businesses. Its investments span key sectors of the UAE's diversified economy, including energy and utilities, food and agriculture, healthcare and life sciences, and transportation and logistics. As a strategic partner of the Abu Dhabi Government, ADQ is committed to accelerating the Emirate's transformation into a globally competitive, knowledge-based economy.

As of 31 March 2025, the shareholders' structure and their ownerships are summarized as follows:

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

IV. Information About The Persons and Institutions That Have Qualified Shares

Information about the persons and institutions that have qualified shares as of 31 March 2025:

Name and Surname / Commercial Title	Share	Share	Paid up	Unpaid
	Amount	Ratios	Shares	Shares
ADQ Financial Services LLC	3.157.145	%96,000	3.157.145	-

V. Summary on the Bank's Functions and Areas of Activity

The headquarters of the Bank is located in Istanbul and as of 31 March 2025. The Bank has 36 domestic branches with 1.090 employees. The Bank is organized to operate in all operational aspects of commercial and retail banking under the scope of 4th Article of the Banking Law. The Bank has no subsidiaries in the financial sector (31 December 2024: 36 branches, 1.112 employees).

VI. Differences between the communiqué on preparation of consolidated financial statements of Banks and Turkish Accounting Standards and short explanation about the institutions subject to full consolidation method or proportional consolidation and institutions which are deducted from equity or not included in these three methods

While non-financial subsidiaries are not consolidated within the scope of the Communiqué on Preparation of Consolidated Financial Statements of Banks, all subsidiaries are consolidated within the scope of Turkish Accounting Standards as long as they meet the relevant consolidation standard requirements.

The Bank's newly established non-financial subsidiary is not consolidated in the accompanying financial statements.

VII. The existing or potential, actual or legal obstacles on the transfer of shareholder's equity between the Bank and its subsidiaries or reimbursement of liabilities

None.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE

ACCOUNTING PRINCIPLES

I. Basis of Presentation

a. The preparation of the unconsolidated financial statements and related notes and explanations in accordance with the Turkish Financial Reporting Standards and regulation on the Regulation on Accounting Applications for Banks and Safeguarding of Documents

The unconsolidated financial statements have been prepared in accordance with the "Regulation on the Procedures and Principles for Accounting Practices and Retention of Documents by Banks" published in the Official Gazette no.26333 dated 1 November 2006 with regard to Banking Law No. 5411, and in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency ("BRSA"), and in case where a specific regulation is not made by those, by those, "Turkish Accounting Standards" ("TAS") and "Turkish Financial Reporting Standards" ("TFRS") put into effect by Public Oversight Accounting and Auditing Standards Authority ("POA") (all "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation).

The unconsolidated financial statements have been prepared in TL, under the historical cost convention except for the financial assets and liabilities carried at fair value. The accompanying unconsolidated financial statements and notes to these financial statements are expressed in thousands of Turkish Lira (TL), unless otherwise stated.

In preparing the unconsolidated financial statements in accordance with "BRSA Accounting and Financial Reporting Legislation", the Bank management has to make assumptions and estimates about the assets and liabilities in the balance sheet. These estimates and assumptions include fair value calculation of financial instruments and impairment of financial assets are being reviewed regularly and, when necessary, adjustments are made and the effects of these adjustments are reflected to the statement of profit or loss. The assumptions and estimates used are explained in the related notes.

b. Additional paragraph for convenience translation to English

The effects of differences between accounting principles and standards set out by regulations in conformity with Article 37 of the Banking Law No. 5411, accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and the International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

c. Information on accounting policies and changes in financial statements

Accounting policies and valuation principles used in the preparation of the unconsolidated financial statements are determined in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency and in case where a specific regulation is not made by BRSA, TFRS.

Based on the announcement made by Public Oversight, Accounting and Auditing Standards Authority (POA) on 23 November 2023, entities applying Turkish Financial Reporting Standards (TFRSs) are required to present their financial statements by adjusting for the impact of inflation for the annual reporting period ending on or after 31 December 2023, in accordance with the accounting principles specified in TAS 29 Financial Reporting Standard in Hyperinflationary Economies. In the same announcement, it was stated that institutions or organizations authorized to regulate and supervise in their respective scope might determine different transition dates for the implementation of inflation accounting. In this context,

- In accordance with Board decision on 12 December 2023, financial statements of banks, financial leasing, factoring, financing, savings financing and asset management companies as of 31 December 2023 would not be subject to the inflation adjustment.

- In accordance with Board decision on 11 January 2024, banks, financial leasing, factoring, financing, savings financing and asset management companies are required to apply inflation adjustment as of 1 January 2025.

- In accordance with the Board decision numbered 11021 on 5 December 2024, banks, financial leasing, factoring, financing, savings financing and asset management companies will not apply inflation adjustment in 2025.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

I. Basis of Presentation (continued)

Based on this, "TAS 29 Financial Reporting Standard in Hyperinflationary Economies" has not been applied in the Bank's unconsolidated financial statements dated 31 March 2025.

The accounting policies and the valuation principles applied in the preparation of the accompanying financial statements are explained in section three notes II to XXIV.

d. Changes in accounting policies and disclosures

New and revised Turkish Accounting Standards effective for annual periods beginning on or after 1 January 2025 have no material effect on the financial statements, financial performance and on the Bank's accounting policies. New and revised Turkish Accounting Standards issued but not yet effective as of the finalization date of the financial statements have no material effect on the financial statements, financial performance and on the Bank's accounting accounting policies.

II. Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions

The Bank's main activities comprise retail, commercial and corporate banking, money market and securities market operations.

The Bank uses financial assets intensely by its nature. The Bank's basic strategy regarding the use of financial assets is intended for ensuring the balance between the profits from and risk levels of assets.

The most important funding source of the Bank is the deposits accepted for various time periods and apart from deposits, the most important funding sources are equity, securities issued, money market transactions and borrowings obtained from foreign financial institutions, generally medium and long term. In order to use these sources in high-yield and high-quality financial assets, the Bank follows an effective asset-liability management strategy. The Bank manages interest rate risk, liquidity risk, exchange rate risk and credit risk carried on in and off balance sheet assets and liabilities within the framework of internal and legal limits.

The Bank's asset-liability management is executed by the Asset-Liability Management Committee, within the risk limits determined by the Board of Directors, in order to keep the liquidity risk, interest rate risk, currency risk and credit risk within certain limits depending on the equity adequacy and to maximize profitability.

Translation gains and losses arising from foreign currency transactions are accounted for within the period in which the transaction occurs. Foreign currency denominated assets and liabilities are translated into TL with the prevailing buying rate of exchange of the Bank on reporting date and gains and losses arising from such transactions are recognized in the statement of profit or loss under the account of foreign exchange gains or losses.

III. Investments In Associates, Subsidiaries and Joint Ventures

Subsidiaries are accounted for at cost in accordance with the "Turkish Accounting Standard for Individual Financial Statements" ("TMS 27") and are reflected in the unconsolidated financial statements after deducting the provision for impairment, if any.

IV. Explanations on Futures and Options Contracts and Derivative Instruments

The derivative transactions mainly consist of options, foreign currency swaps, interest rate swaps, and foreign currency forward contracts. Derivative instruments are measured at fair value on initial recognition and subsequently remeasured at their fair values. The changes in their fair values are recorded on balance sheet under "the portion of derivative financial assets measured at fair value through profit and loss" or "the portion of derivative financial liabilities measured at fair value through profit and loss", respectively depending on the fair values being positive or negative. Fair value changes for derivatives are recorded in the account of "income / losses" from derivative transactions under income statement.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts as their contractual values. Embedded derivatives are separated from the host contract and accounted as derivative instruments according to "TFRS -9 Financial Instruments" in case the related embedded derivative's economic features and risks are not closely related to the host contract, another instrument that has the same contract conditions with the embedded derivative satisfies the definition of a derivative instrument and the hybrid instrument is not carried at fair value through profit or loss. If the underlying contract is closely related to the underlying contract is based on without any separation from the contract.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

IV. Explanations on Futures and Options Contracts and Derivative Instruments (continued)

Within the scope of TFRS 13 Fair Value Measurement standard; if there is a significant decrease in the volume or level of activity for that asset or liability in relation to normal market activity for the asset or liability (or similar assets or liabilities); when the transaction or quoted price does not represent fair value; and / or when a price for a similar asset requires significant adjustment to make it comparable to the asset being measured, or when the price is stale, the Bank makes an adjustment to the transactions or quoted prices and reflects this adjustment to the fair value measurement. In this context, the Bank determines the point within the range that is most representative of fair value under current market conditions.

Derivative financial instruments held for hedging purpose

The Bank may apply cash flow hedge accounting to mitigate interest rate changes on TL deposit through interest rate swaps.

The Bank utilizes derivative instruments effectively in the process of asset and liability management. TFRS 9 permits to defer application of TFRS 9 hedge accounting and continue to apply hedge accounting in accordance with TAS 39 as a policy choice. Accordingly, the Bank continues to apply hedge accounting in accordance with TAS 39 in this context.

Within the scope of cash flow hedge accounting, effective part of the fair value changes of the hedging instrument are accounted in equity under "Cash Flow Hedge Gain/Loss, Shares of Investments Valued by Equity Method in Other Comprehensive Income Classified Through Profit or Loss and Other Accumulated Amounts of Other Comprehensive Income Items Reclassified Through Other Profit or Loss" whereas ineffective part is accounted in the income statement.

The Bank hedges its cash flow risk arising from Turkish Lira floating interest rate liabilities by using interest rate swaps. Within the scope of cash flow hedge accounting the fair values being positive or negative and effective portions in the equity under "Other Comprehensive Income Items to be recycled to profit and loss" and ineffective portions in the income statement under "profit / loss from derivative financial transaction".

In the periods in which the cash flows (interest expenses) of the hedged item affects the income statement, the profit/loss of the hedging instrument is recycled to the income statement from equity.

Effectiveness tests are performed at the beginning of the hedge accounting period and at each reporting period. The effectiveness tests are carried out using the Dollar off-set model and the hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective.

When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortized to income statement under trading account income/loss caption over the maturity of the hedged item from that date of the hedge accounting is discontinued. While expiring, sale, discontinuing cash flow hedge accounting or when no longer effective the cumulative gains/losses recognised in shareholders' equity and presented under "accumulated other comprehensive income or expense to be reclassified to profit or loss" are continued to be kept in this account. When the cash flows of hedged item incur, the gain/losses accounted for under shareholders' equity are recognised in income statement considering the original maturity.

The Bank has no derivative financial instruments for hedging purposes as of 31 March 2025 (31 December 2024 : None). There is no amount recognized under the equity due to ineffective or closed swaps (31 December 2024: None).

V. Explanations on Interest Income and Expenses

Interest income and expenses are recognized in the statement of income by using the "Effective interest method". Starting from January 1, 2018, Bank has started accruing interest income on non-performing loans.

VI. Explanations on Fees and Commission Income and Expenses

Fees and commissions those that are not an integral part of the effective interest rate of the financial instruments measured at amortized cost are accounted for in accordance with "TFRS 15 - Revenue from Customer Contracts". Fees and commission income/expenses are primarily recognized on an accrual basis or "Effective interest method (Internal rate of return)" according to the nature of the fee and commission. Income earned in return for services rendered contractually or due to operations like sale or purchase of assets on behalf of a third party real person or corporate body are recognized when realized.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIATED FINANCIAL STATEMENTS **AS OF 31 MARCH 2025**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VII. Explanations on Financial Assets

Financial instruments comprise financial assets, financial liabilities and derivative instruments. Financial instruments affect liquidity, market, and credit risks on the Bank's balance sheet in all respects.

Basically, financial instruments create the majority of the commercial activities and operations of the Bank. These instruments expose, affect and diminish the liquidity, credit and interest risks in the financial statements.

All regular way purchases and sales of financial assets are recognized on the settlement date. The settlement date is the date that the asset is delivered to or by the Bank. Settlement date accounting requires (a) accounting of the asset when acquired by the institution and (b) disposing of the asset out of the balance sheet on the date settled by the institution; and accounting of gain or loss on disposal. Changes in fair value of assets to be received during the period between the trade date and the settlement date are accounted for in the same way as the acquired assets.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace.

The Bank categorizes its financial assets as "Fair Value Through Profit/Loss", "Fair Value Through Other Comprehensive Income" or "Measured at Amortized Cost". Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part 3 Issued for classification and measurement of the financial instruments published in the Official Gazette No. 29953 dated 19 January 2017 by the Public Oversight Accounting and Auditing Standards Authority.

The methods and assumptions used in the recognition and measurement of financial instruments are mentioned below.

Cash, Banks, and Other Financial Institutions:

Cash and cash equivalents comprise cash on hand, demand placements, and highly liquid short-term investments with maturity of 3 months or less following the purchase date, not bearing risk of significant value change, and that are readily convertible to a known amount of cash and are carried at amortized cost. The book values of these assets are at their fair values.

Financial Assets at Fair Value Through Profit and Loss:

"Financial assets at fair value through profit/loss" are financial assets that are either managed by a model other than the ones that are managed with a business model of hold to collect contractual cash flows or with a business model of hold to collect contractual cash flows or to sell financial assets, or being subject to mentioned business models, of which cash flows does not meet the "solely for the payments of principal and interest" criteria.

Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement. Transaction costs related to such assets are recorded as expense at the time of occurrence.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIATED FINANCIAL STATEMENTS **AS OF 31 MARCH 2025**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VII. Explanations on Financial Assets (continued)

Financial Assets at Fair Value Through Other Comprehensive Income:

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows which are solely payments of principal and interest are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. "Unrealized gains and losses" arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the receipt of consideration against that asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted for under the "other comprehensive income or expense items to be recycled to profit or loss" under shareholders' equity.

Equity instruments, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Equity instruments that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

During initial recognition an entity can choose in an irrevocable way to record the changes of the fair value of the investment in an equity instrument that is not held for trading purposes in the other comprehensive income. In the case of this preference, the dividend from the investment is taken into the financial statements as profit or loss.

Financial Assets Measured at Amortized Cost:

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted for in the income statement.

"Fair value through other comprehensive income" and "measured at amortized cost" securities portfolio of the Bank contains Consumer Price Indexed (CPI) bonds. These securities are valued and accounted for using the effective interest method based on the CPI of two months before the reporting date together with the real coupon rates and the reference index at the issuance date, with the index coefficient generated on the inflation rate is estimated by the Bank. The inflation rate estimated by the inflation expectations of Central Bank and the Bank, is updated when necessary during the year. Securities are valued at the end of the year with reference index announced by the Ministry of Treasury and Finance.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025 (Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VII. Explanations on Financial Assets (continued)

Loans and Receivables:

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market.

Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Interest Rate (internal rate of return) Method".

Foreign currency indexed loans are converted into TL from the foreign currency rate as of the opening date and followed in TL accounts. Repayments are measured with the foreign currency rate at the payment date, the foreign currency gains and losses are reflected to the statement of income.

Foreign exchange gains and losses on the foreign currency indexed loans are presented under foreign exchange gains and losses in the statement of income.

Derecognition of a Financial Asset:

Before evaluating whether, and to what extent, derecognition is appropriate, the Bank determines whether those criteria should be applied to a part of a financial asset (or a part of a group of similar financial assets) or a financial asset (or a group of similar financial assets) in its entirety. Criteria is applied to a part of financial asset (or a part of a group of similar financial assets) if, and only if, the part being considered for derecognition meets one of the following three conditions: (i) The part comprises only specifically identified cash flows from a financial asset (or a group of similar financial assets) (ii) The part comprises only a fully proportionate (pro rata) share of the cash flows from a financial asset (or a group of similar financial asset (or a group of similar financial asset) (iii) The part comprises only a fully proportionate (pro rata) share of specifically identified cash flows from a financial asset (or a group of similar financial asset) is applied to a specifically identified cash flows from a financial asset (or a group of similar financial asset) (ii) The part comprises only a fully proportionate (pro rata) share of specifically identified cash flows from a financial asset (or a group of similar financial asset) (iii) The part comprises only a fully proportionate (pro rata) share of specifically identified cash flows from a financial asset (or a group of similar financial asset).

A financial asset (or, a part of a financial asset or a part of group of financial assets, where appropriate) is derecognized when, and only when,

- The contractual rights to the cash flows from the financial asset expire; or
- The contractual rights to the cash flows from the financial asset are transferred; or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in the arrangement without material delay and:
- If the entity transfers substantially all the risks and rewards of ownership of the financial asset or,
- If the entity neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, whether it has retained control of the financial asset.

If the Bank transfers the contractual rights to the cash flows from the financial asset, or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in the arrangement without material delay and if the Bank neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, the entity shall determine whether it has retained control of the financial asset and it shall continue to recognize the financial asset to the extent of its continuing involvement in the financial asset. In this case, the entity also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the entity has retained.

The Bank has evaluated the non-performing loan portfolio of which contractual rights are transferred to the asset management companies, in the context of above statements and derecognizes the loans that are subject to agreements in which all risks and rewards are transferred to the buyer.

ODEA BANK ANONIM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025 (Amounto compressed in thousands of Turkish Ling (TL) unlass otherwise stated.)

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VIII. Explanations on Expected Credit Losses

As of 1 January 2018, a loss allowance for expected credit losses is provided by Bank for all financial assets measured at amortized cost and financial assets measured at fair value through other comprehensive income, all financial assets which are not measured at fair value through profit or loss, commitments and financial guarantee contracts in accordance with TFRS 9 International Financial Reporting Standard and "Regulation on Procedures and Principles for Classification of Loans and Provisions to be Set Aside" published in the Official Gazette No. 29750 dated 22 June 2016. Equity instruments are not subject to impairment assessment as they are measured at fair value.

The Bank has started its credit calculation method with the expected credit loss models in accordance with TFRS 9 rules as of 1 January 2018. Expected credit losses include a probability-weighted amount that is determined by evaluating a range of possible outcomes; reasonable and supportable information that are current conditions and forecasts of future economic conditions and the time value of money.

The financial assets are divided into three categories depending on the gradual increase in credit risk observed since their initial recognition:

Stage 1:

They are financial assets that do not have a significant increase in credit risk at initial recognition or since initial recognition. Loss allowance for impairment of credit risk for these assets is recorded in the amount of 12-month expected credit loss.

Stage 2:

In the case of a significant increase in credit risk since initial recognition the financial asset is transferred to Stage 2. Loss allowance for impairment of credit risk is determined on the basis of the instrument's lifetime expected credit losses.

Stage 3 (Default):

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. In the calculation of expected credit losses, probability of default is considered as 100%. In determining the impairment, the Bank considers the following criteria:

- Delinquency in interest and/or principal payments by more than 90 days.
- Having the opinion that collection of principal and /or interest will be past due more than 90 days from its maturity or due date due to reasons such as having problems in the financing operating capital or creating additional liquidity due to unfavourable developments in macroeconomic conditions or in the sectors the debtor operates or, independent from all, due to adverse developments peculiar to the debtor.

The collections made based on provision provided for loans in the current period are deducted from "Expected Credit Losses" account in income statement, and the principal collections made in respect of loans that have been provision set aside in the previous periods or write-off exposures under off-balance sheet are recognized under "Other Operating Income" account.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025 (Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

(Amounts expressed in mousands of Turkish Lifa (TL) unless otherwise stated

VIII. Explanations on Expected Credit Losses (continued)

Significant Increase in Credit Risk

The Bank performs qualitative and quantitative assessments for the determination of financial assets that will be classified as Stage 2 due to the significant increase in credit risk.

To make the quantitative assessment, the Bank compares the rating information of the financial asset at the reporting date with the rating information at the date of initial recognition. The Bank compares the rating information of the financial instrument as of the reporting date with the rating information of the financial instrument as of the date of initial recognition, and classifies the financial instrument as Stage 2 if the change in deteriorating direction exceeds certain thresholds on a segment basis.

Within the scope of qualitative assessments, if any of the following criteria occurs; the related financial asset would be considered as Stage 2:

- Watchlist exposures,
- Forborne exposures,
- The other retail exposures which belong to an obligor who has a retail exposure that is classified as nonperforming loans.

Measurement of Expected Credit Losses

The Bank calculates expected credit losses with a weighted estimate of the probabilities of credit losses over the expected life of the financial instrument. The parameters that are subject to the expected credit loss calculation are given below.

Exposure at Default (EAD): The EAD represents the incurred amortized cost for cash obligations as of reporting date. It refers to the value calculated through credit conversion factors for non-cash loans and commitments.

Credit Conversion Factor (CCF): As of the reporting date, CCF corresponds to the rate used to convert non-cash loans and commitments to loan equivalents. The Bank uses the conversion rates based on the statistical internal models developed by considering the historical data on the basis of products.

Lost Given Default (LGD): It refers to the economic loss resulting from the loan if the borrower defaults. The Bank uses LGD ratios in its calculations based on the statistical internal models developed by considering the historical data on the basis of segments.

Probability of Default (PD): PD represent the likelihood of default over a specified time period. Based on TFRS 9, the Bank uses two different PDs in order to calculate expected credit losses:

- 12-month PD: as the estimated probability of default occurring within the next 12 months following the reporting date.
- Lifetime PD: as the estimated probability of default occurring over the remaining life of the financial instrument.

The Bank divides its non-retail portfolio into Corporate, Medium and Small segments and uses 6 different internal rating models in total. In internal TFRS9 rating models that include the Corporate and Medium segments, the customer's financial information includes the results of internal and external behavioral information. In the internal rating model, which includes the Small segment, it includes the results of the customer's internal and external behavioral information. PD calculations are performed by considering historical data and current conditions. For retail portfolio, the cumulative multiplication of the 12-month averages of the roll rates for each delinquency cluster on the basis of products that are sharing common characteristics is considered as PD.

When expected credit losses are estimated, the Bank considers three scenarios (base, pessimistic and optimistic) to determine PIT PDs. Scenarios are reviewed at least once a year and revised if necessary. Each scenario has its own probability of occurrence. The weighted average of the scenarios results according to their realization probabilities determines the PIT PD on the basis of each segment. ECL calculations are made over these determined PIT PDs.

ODEA BANK ANONİM SİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS **AS OF 31 MARCH 2025** (Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VIII. Explanations on Expected Credit Losses (continued)

Significant Increase in Credit Risk (continued)

If the loan is classified as Stage 1, the loss amount is considered as the expected loss in the first 12 months. The bank calculates the 12-month expected credit loss based on an expectation of default that is likely to occur in the 12 months following the reporting date. 12-month expected credit losses are calculated by multiplying the estimated default amounts at each cash flow date by the marginal default probabilities and the loss at default rate, and then discounting the effective interest rate of the loan from the relevant date to the present.

If the loan classified under Stage 2, expected credit losses is calculated by considering lifetime. The expected credit loss measurement, including the use of forward-looking macroeconomic scenarios is similar to that described above however the probability of default is estimate lifetime of the financial instrument.

The Bank applies an individual assessment methodology for the provisioning calculations of Stage 2 loans, in line with its established criteria. The provision amount is determined by discounting expected recoveries under Going Concern and Gone Concern scenarios using the effective interest rate, and consolidating these based on scenario weightings.

In accordance with TFRS 9, the Bank set aside provision for Stage 3 in the calculation of expected credit losses in accordance with internal policies. The Bank makes this calculation by using default LGD rates that increase according to the time spent in default for companies below a certain threshold value, and by discounting the collection expectations individually for the financial instrument to its present value with the internal rate of return for the companies above this threshold.

For retail products sharing similar credit risk characteristics, a collective approach is used for ECL measurement. In making this calculation, the Bank takes into consideration the transition rates between the clusters in the thirty-day intervals past due of the financial assets sharing the similar credit risk characteristics as of the end of the month. The probability of loss for related cluster is calculated by multiplying the average of the 12-month transition rates corresponding to each cluster with the average of the 12-month transition rates of afterthought clusters. The outstanding balance per cluster is multiplied by the probability of loss, LGD and weighted average remaining maturity. Finally, expected credit loss is computed by applying the respective impact from the forward looking model which accounts 3 probability weighted scenarios considering the stage and the remaining maturity of the retail product.

The Bank updates TFRS 9 models at least once a year in accordance with its internal policies.

Approaches to Determine Forward Looking Economic Scenario

As mentioned above, by using scenarios linked to macroeconomic factors, the impact of future expectations for the individual portfolio is included in the calculation of expected credit losses. The macroeconomic indicators that make up these forecast models are Gross Domestic Product (GDP) and unemployment for the individual segment, and only GDP rates for the non-individual segments. The macroeconomic forecast model includes more than one scenario, and the weighted averages of the relevant scenarios are reflected in the expected loss calculation for the individual segment and in the PIT PD for non-individual segments.

Financial Assets Measured at Fair Value through Other Comprehensive Income (FVOCI)

As of 1 January 2018, The Bank applied the impairment requirements for the recognition and measurement of a loss allowance for financial assets that are measured at fair value through other comprehensive income in accordance with TFRS 9 principles. However, the loss allowance is recognised in other comprehensive income and does not reduce the carrying amount of the financial asset in the statement of financial position.

When the related financial asset is de-recognised from the financial statement, the loss allowance for expected credit losses previously reflected to the other comprehensive income is classified under the profit-loss statement.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

IX. Explanations on Offsetting of Financial Instruments

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and the intention of collecting or paying the net amount of related assets and liabilities or the right to offset the assets and liabilities simultaneously. Otherwise, there is not any offsetting transaction about financial assets and liabilities.

X. Explanations on Sales and Repurchase Agreements and Lending of Securities

The sales and purchase of government securities under repurchase agreements made with the customers are being recorded in balance sheet accounts in accordance with the Uniform Chart of Accounts. Accordingly in the financial statements, the government bonds and treasury bills sold to customers under repurchase agreements are classified under financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and financial assets measured at amortized cost depending on the portfolio they are originally included in and are valued according to the valuation principles of the related portfolios. Funds obtained from repurchase agreements are classified as a separate sub-account under money markets borrowings account in the liabilities.

Funds given against securities purchased under agreements to resell ("reverse repo") are accounted under "Receivables from reverse repurchase agreements" on the balance sheet. The difference between the purchase and determined re-sell price is accrued over the life of repurchase agreements.

The income and expenses from these transactions are reflected to the "Interest Income on Marketable Securities" and "Interest Expense on Money Market Borrowings" accounts in the income statement.

XI. Explanations on Assets Held for Sale and Discontinued Operations

Property and equipment held-for-sale consist of tangible assets that were acquired due to non-performing receivables and are accounted in the unconsolidated financial statements in accordance with the regulations of "Turkish Financial Reporting Standard for Assets Held for Sale and Discontinued Operations (TFRS 5)".

The Bank, in some portion of the foreclosed assets, provides repurchase right to the debtor.

A discontinued operation is a division of a bank that is either disposed or held for sale.

Results of discontinued operations are included in the income statement separately. As of 31 March 2025 and 31 December 2024 the Bank does not have any discontinued operations.

XII. Explanations on Goodwill and Other Intangible Assets

There is no goodwill regarding the investments in associates and subsidiaries.

Other intangible assets are accounted for at cost less accumulated amortization. Other intangible assets are amortized with straight-line method based on their economic lives. There have been no changes in the amortization calculation method during the current period.

As of the balance sheet date, all software are purchased and there are no completed or continuing software development projects by the Bank.

ODEA BANK ANONİM SİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS **AS OF 31 MARCH 2025**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XIII. Explanations on Tangible Fixed Assets

Tangible fixed assets are accounted for at acquisition cost less accumulated depreciation.

Depreciation of assets held less than one year as of the balance sheet date is accounted for proportionately. Depreciation method is not changed in the current period. The annual rates used, which approximate rates based on the estimated economic useful lives of the related assets, are as follows:

	%
Buildings	2
Safety box	2-13
ATM	10
Furniture, fixtures and others	7-33
Office equipment's	10-25

Gain or loss resulting from disposals of the tangible fixed assets is reflected to the income statement as the difference between the net proceeds and net book value.

Normal maintenance and repair cost of the properties are expensed.

There is no pledge, mortgage, or any other lien on tangible fixed assets.

Branches, service buildings and vehicles subject to operational lease are accounted in accordance with TFRS 16 as of 1 January 2019.

At the commencement date, the Bank measures the right-of-use asset in accordance with TFRS 16. The depreciation requirements in TAS 16 Property, Plant and Equipment is applied in depreciating real assets considered as right-ofuse asset. Amortization calculation considers the length of contract as useful lifetime.

The amortization expenses related to operational leases subject to TFRS 16 are recorded in profit/loss table under amortization expenses of tangible asset.

The Bank has started to account real estates booked under the tangible assets with revalued amount instead of cost values in accordance with "TAS 16 Plant and Equipment" on 31 December 2024. As of 31 December 2024, the revaluation difference arising from the valuations made by the appraisal firms authorized by Capital Markets Board ("CMB") and BRSA has been booked in other accumulated comprehensive income that will not be reclassified in profit or loss line under the Shareholders' Equity.

XIV. Explanations on Leasing Transactions

Tangible assets acquired through financial leasing are recognized as assets and the related liabilities as lease payables in assets and liabilities, respectively. Financial costs on leasing agreements are distributed throughout the lease periods at fixed interest rates. Interest expenses and foreign exchange losses related with financial leasing are accounted in income statement. Depreciation for assets acquired through financial leases is calculated consistently with the same principle as for the tangible assets.

As of the balance sheet date, the Bank does not have authorization for any financial leasing transactions as lessor.

Disclosures of TFRS 16 a.

Bank- lessee:

The Bank assesses whether the contract has the quality of a lease or whether the lease includes the transaction at the beginning of a contract. In case the contract is transferred for a certain period of time to control the use of the asset defined for a price, it is either leased or includes a lease. The Bank reflects the existence of a right of use and a lease liability to the financial statements at the effective date of the lease.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XIV. Explanations on Leasing Transactions (continued)

Right of use assets:

The right to use asset is first recognized by cost method and includes:

a) The initial measurement amount of the lease obligation,

b) The amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease;

c) All initial direct costs incurred by the Bank and

When Bank applying the cost method, the existence of the right to use:

a) Accumulated depreciation and accumulated impairment losses are deducted and

b) Measures the restatement of the lease obligation at the restated cost.

TAS 16 Impairment of Assets is applied to determine whether the real estates considered as right-of-use assets are impaired and to account for any impairment loss identified.

The Lease Obligations:

At the effective date of the lease, the Bank measures its leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the Bank's average borrowing interest rates.

The lease payments included in the measurement of the lease liability consist of the payments to be made for the right of use during the lease term of the underlying asset and the unpaid payments at the effective date of the lease.

After the effective date of the lease, the Bank measures the leasing liability as follows:

a) Increase the book value to reflect the interest on the lease obligation

b) Reduces the book value to reflect the lease payments made and

c) The book value is measured to reflect reassessments and restructuring or reflect to fixed lease payments as of revised nature.

The interest on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic interest rate to the remaining balance of the lease liability.

XV. Explanations on Provisions and Contingent Liabilities

Provisions are recognized when there is a present obligation due to a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by using the Bank's best expectation of expenses in fulfilling the obligation and discounted to present value if material.

XVI. Explanations on Liabilities Regarding Employee Benefits

In accordance with the existing labor law, the Bank is required to make lump-sum termination indemnities to each employee who has completed over one year of service and whose employment is terminated due to retirement or for reasons other than resignation and misconduct.

The Bank has calculated provision for employee severance benefits in the accompanying financial statements in accordance with TAS 19 "Employee Benefits" by using the "Projection Method" based on their past experiences in the issues of completion of personnel service period and severance pay eligibility and discounted the total provision by using the current market yield at the balance sheet date.

The Bank has no retirement fund or foundation that the employees are the member of.

Defined Contribution Plans:

The Bank pays contributions to the Social Security Institution of Turkey on a mandatory basis. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due.

Short-term Employee Benefits:

In accordance with TAS 19 "Turkish Accounting Standard on Employee Benefits"; defined liabilities that arise from unused leave payments are accrued in the related period and are not discounted.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVII. Explanations on Taxation

Corporate Tax:

While corporate tax which is applied to corporate earnings at the rate of 20% in Turkey, in accordance with the regulation introduced by the Law No. 7316 on the "Procedure for Collection of Public Receivables and the Law Amending Some Laws", has been determined to be applied as 25% for the corporate earnings for the taxation periods of 2021 and as 23% for the corporate earnings for the taxation periods of 2022, in accordance with the regulation introduced by the Law No. 7394 on the "Law on Evaluation of Immovable Property Owned by the Treasury and Amendment to the Value Added Tax Law" and as per added first sentence to the temporary Article 13 of the Law No. 5520 on the "Corporate Tax Law", this rate has been determined to be applied as 25% for the corporate earnings for the taxation periods of 2022 for the banks, companies within the scope of Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies. With the 21st article of the Law No. 7456, the phrase 25% above has been changed to 30% and it is applied to the earnings obtained in 2023 and the following taxation periods, starting from the declarations that must be submitted as of October 1, 2023.

In accordance with tax legislation, temporary tax is paid at the rate in force in the relevant period on earnings generated as of quarterly periods, and the amounts paid are deducted from the calculated tax on annual earnings.

Tax returns are required to be filed between the first and the last day of the fourth month following the balance sheet date and paid in one installment until the end of the related month.

According to the Corporate Tax Law, tax losses can be carried forward for a maximum period of five years following the year in which the losses are incurred. Tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

The Bank makes necessary provisions over results of current period operations related with Income Tax and Corporate Tax liabilities.

The balance resulting from netting off prepaid taxes and the corporate tax provision is shown in the current tax asset or liability as being positive or negative, respectively.

As of 31 December 2022, the conditions sought for inflation adjustment in the calculation of corporate tax have been fulfilled, within the framework of the repeated provision of Article 298/A of the Tax Procedure Law. These conditions are both the exceed in the increase of Producer Price Index in the last 3 accounting period including current period by 100% and the exceed in the increase in the current period by 10%. However, temporary article 33 has been added on the Tax Procedure Law No. 213 with the regulation made with the Tax Procedure Law and the Law on Change in Corporate Tax Law No. 7352 published in the Official Gazette No.31734 dated 29 January 2022, the application of inflation adjustment in the calculation of corporate tax was postponed to 2023. According to this, the financial statements for the 2021 and 2022 accounting period; will not be subject to inflation adjustment as of the provisional tax periods, and the financial statements dated 31 December 2023 will be subject to inflation adjustment and for the inflation adjustment conditions are met or not. Profit/loss difference arising from inflation adjustment in the financial statements will be shown in previous years' profit/loss accounts and will not affect the corporate tax base.

In accordance with the Tax Procedural Law General Communiqué No. 555 published in the Official Gazette No. 32415 (2nd Repeat) dated 30 December 2023, the financial statements for the 2023 accounting period must be subject to inflation adjustment in accordance with the temporary article 33 of the Law No. 213 as of the end of the 2023 calendar year. In addition, the profit/loss difference arising from the inflation adjustment made by the banks in the 2024 and 2025 accounting periods, including the provisional tax periods, is not taken into account in determining the profit. In accordance with the Tax Procedure Law General Communiqué No. 582 published in the Official Gazette dated February 15, 2025, taxpayers within the scope shall not apply inflation adjustment for the first, second, and third provisional tax periods of the 2025 fiscal year.

Deferred Tax Liability / Asset:

The Bank calculates and reflects deferred tax asset or liability on timing differences which will result in taxable or deductible amounts in determining taxable profit of future periods.

ODEA BANK ANONİM SİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS **AS OF 31 MARCH 2025**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVII. Explanations on Taxation (continued)

In accordance with TAS 12 "Turkish Accounting Standard on Income Taxes" the Bank calculates deferred tax asset on carry forward tax losses and all deductible temporary differences, if sufficient taxable profit within five-year period to recover such amounts is probable; as well as deferred tax liability on all taxable temporary differences.

The book value of the deferred tax asset is reviewed at the end of each reporting period. The book value of a deferred tax asset is reduced to the extent that it is no longer probable that sufficient financial profit will be available to allow the benefit of part or all of the deferred tax asset to be obtained.

If the deferred tax transactions and other issues are recognized (accounted) in profit and loss, related tax effects are recognized in profit and loss. On the other hand, if the deferred tax transactions and other issues are recognized (accounted) in equity accounts, related tax effects are also recognized (accounted) in equity accounts.

Deferred tax assets and liabilities are reflected in the accompanying financial statements on a net basis.

The net deferred tax asset is included in deferred tax asset and the net deferred tax liability is reflected under deferred tax liability on the balance sheet.

In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date.

XVIII. Additional Explanations on Borrowings

The borrowing costs related to purchase, production, or construction of qualifying assets that require significant time to be prepared for use and sale are included in the cost of assets until the relevant assets become ready to be used or to be sold. Financial investment income obtained by temporary placement of undisbursed investment loan in financial investments is offset against borrowing costs qualified for capitalization.

All other borrowing costs are recorded to the income statement in the period they are incurred.

The Bank has not issued convertible bonds.

XIX. Explanations on Issued Share Certificates

Direct transaction costs related to issuance of stock certificates are recognized as discount from equity.

XX. Explanations on Avalized Drafts and Acceptances

Avalized draft and acceptances are realized simultaneously with the payment dates of the customers and they are presented as probable commitments in off-balance sheet accounts.

XXI. Explanations on Government Incentives

There are no government incentives utilized by the Bank.

XXII. Explanations on Segment Reporting

Reporting according to the operational segment is presented in Note XII of Section Four.

XXIII. Explanations on Reclassifications

None.

XXIV. Related Parties

For the purpose of these financial statements, shareholders of the Bank, key management personnel and board members together with their families and companies controlled by/subsidiary with them, associated companies and joint ventures and the Fund providing post-employment benefits are considered and referred to as related parties in accordance with TAS 24 "Related Parties".

The transactions with related parties are disclosed in detail in Note V of Section Five.

XXV. Explanations on Other Disclosures

None.

- (*) At the Ordinary General Assembly meeting held on March 26, 2025, it was decided to offset the Bank's net loss of TL 329,534 for 2024 from the Extraordinary Reserves.
- (**) With the decision numbered E-32521522-101.01.04-151895 dated 09.05.2025 of the Banking Regulation and Supervision Agency, the balance of TL 1.972.969 paid in cash and kept blocked for the paid-in capital increase under "Other Liabilities" in the Blanace Sheet of the Bank dated March 31, 2025, was allowed to be taken into account Additional Tier I Capital Adequacy calculation as of March 31. If the mentioned capital increase process had been completed as of March 31, 2025, the Bank's Core and Tier 1 Capital Adequacy ratios would have been 9.51% as of the same date.
- (***) The Bank, on August 1, 2017 issued the Basel III compliant, 10 year, USD 300 million bond to foreign domicile investors and with the permission of BRSA dated July 17, 2017, classified it as Tier II sub-loan. The Bank, pursuant to the approval of the BRSA on 26 September 2018, bought back USD 24.535 thousands of Tier II sub-loan as of 31 December 2024, and the relevant amount has been deducted from the capital amount in the equity calculation. The Bank has not redeemed or cancelled the shares in circulation, thus selling back any portion of such amount at any time is completely at the Bank management's discretion. On August 1, 2022, the early pay option of the subordinated bond has not been exercised and the coupon interest for the coming periods has been set at 8,606%.

As of 31 March 2025, the Bank has calculated the credit risk amount based on the Banking Regulation and Supervision Agency's decision numbered 10747 and dated 12 December 2023, taking into account the Central Bank's foreign exchange buying rates as of 26 June 2023. In addition, negative net valuation differences of securities classified under "Fair Value through Other Comprehensive Income" portfolio and acquired before 01 January 2024 are not taken into account in the calculation of Capital.

Information on the reconciliation of Total Capital and Sahreholders' Equity:

The difference between Total Capital and Shareholders' Equity in the unconsolidated balance sheet mainly arises from expected credit loss provisions (for stage I and stage II loans) and subordinated loans. In the calculation of Total Capital, up to 1,25% of expected credit loss from stage I and stage II over total credit risk amount is added to Total Capital. Also, subordinated loans' nominal amount, by reducing 20% each year if the remaining maturity is less than 5 year, is considered as Tier II Capital. In addition; leasehold improvement costs (presented under the Tangible Assets item in the balance sheet) and Intangible Fixed Assets are deducted from Total Capital in the calculation of capital adequacy. Lastly, within the scope of the BRSA's Board Decision dated 12 December 2023, in case the net valuation differences of the securities in the portfolio of "Securities at Fair Value through Other Comprehensive Income" as of 1 January, 2024 are negative, these differences are not taken into account in the calculated equity amount.

(*) As of most recent reporting date, the bank does not have participation or subsidiary company.

(**) (***) Does not include accrued interests.

On 1 August 2017, the Bank issued Basel III compliant bonds with a maturity of 10 years, amounting to USD 300 million, to be sold to real and legal persons residing abroad. According to the BRSA's letter of 17 July 2017, the bond has been classified as supplementary capital in accordance with the Regulation on Banks' Equity. Pursuant to the approval of the BRSA with the letter dated September 26, 2018, the Bank repurchased US\$ 24.535 thousand subordinated bonds as of March 31, 2025 and made a deduction from the contribution capital amount in the equity calculation. The shares have not been canceled by the Bank, and their re-circulation is at the disposal of the Bank.

(****) On August 1, 2022, the early pay option of the subordinated bond has not been exercised and the coupon interest for the coming periods has been set at 8,606%.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025 (Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Explanations on Currency Risk

Foreign currency risk indicates the probability of loss that banks are subject to due to the exchange rate movements in the market. While calculating the share capital requirement, all foreign currency assets, liabilities and forward transactions of the Bank are taken into consideration and value at risk is calculated by using the standard method.

The Board of Directors sets limits for the positions and stop losses which are followed up daily and weekly. Any possible changes in the foreign currency transactions in the Bank's positions are also monitored.

The announced foreign exchange buying rates of the Bank at 31 March 2025 and the previous five working days in full TL are as follows (Bank's FC evaluation rates):

	24 March 2025	25 March 2025	26 March 2025	27 March 2025	28 March 2025	31 March 2025

The foreign currency risk calculation is presented in accordance with the "Regulation on Foreign Currency Net General Position / Equity Standard Ratio Calculation and Implementation of Banks' on Consolidated and Non-Consolidated Basis" as published in the Official Gazette dated 1 November 2006 and numbered 26333 (FCNGP Regulation) and does not include all items in the financial statements.
 (***) Subordinated loans are included.
 (****) Does not affect net off-balance sheet position.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS **AS OF 31 MARCH 2025**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. **Explanations on Currency Risk (continued)**

Foreign currency sensitivity:

The Bank holds EUR (Euro) and USD (US Dollars) currencies as a result of foreign currency transactions and manages it by using miscellaneous financial instruments.

As of 31 March 2025, the Bank's net foreign exchange exposure as per internal calculation is presented below:

31 March 2025	EURO	USD	OTHER FC	TOTAL
Net currency position including on-balance sheet and off-balance sheet	6.608	289.324	(166.223)	129.709
31 December 2024	EURO	USD	OTHER FC	TOTAL
Net currency position including on-balance sheet and off-balance sheet	(11.641)	(29.925)	(80.609)	(122.175)

The internal currency risk calculation includes derivative financial assets / liabilities, securities valuation differences and similar positions which are not included in the FCNGP Regulation of the BRSA and options are taken into account with their delta equivalents for internal currency risk management purposes.

BRSA's decision numbered 32039 dated 10 December 2022, the FCNGP Regulation was changed in a way that converges to the Bank's internal currency risk calculation, and the said amendment entered into force as of 09 January 2023.

The maximum and minimum positions presented in Other FC column of internal foreign exchange exposure calculation are TL 1.506 and TL (87.031) respectively (31 December 2024: TL 19.822 and TL (85.659)).

The table below shows the sensitivity of the Bank to a 10% change in USD and EURO exchange rates. 10% is the sensitivity rate and represents possible change in foreign exchange rates. Positive/Negative number indicates a change in profit or loss and other equity where USD and EUR appreciate 10% against TL.

	Change in currency rate in %	Effe	Effect on profit or loss (*)

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

III. Explanations on Interest Rate Risk

Interest rate risk shows the probability of loss related to the changes in interest rates depending on the Bank's position, and it is managed by the Asset-Liability Committee. The interest rate sensitivity of assets, liabilities and off-balance sheet items related to this risk are measured by using the standard method and included in the market risk for capital adequacy.

Risk Management Group performs duration, maturity and sensitivity analysis to protect the effect of interest rate volatility and reported to the Asset-Liability Committee.

Simulations on interest income are performed in connection with the forecasted economic indicators used in the budget of the Bank. The negative effects of the fluctuations in the market interest rates on the financial position and the cash flows are minimized by revising budgeted targets.

The Bank management follows the market interest rates daily and revises the interest rates of the Bank whenever necessary.

Since the Bank monitors maturity mismatches very closely a significant interest rate risk exposure is not expected.

Information related to the interest rate sensitivity of assets, liabilities and off-balance sheet items (based on repricing dates):

Expected Credit losses for related items are presented in non-interest bearing column. Derivative financial assets are classified under other assets and expected loss provisions for other assets are netted off in other assets. The Bank, on August 1, 2017 issued the Basel III compliant, 10 year, USD 300 million bond to foreign domicile investors and with the permission of BRSA dated July 17, 2017, classified it as Tier II sub-loan. The Bank, pursuant to the approval of the BRSA on 26 September 2018, bought back USD 24.535 thousands of Tier II sub-loan as of December 31 2024, and the relevant amount has been deducted from the capital amount in the equity calculation. The Bank has not redeemed or cancelled the shares in circulation, thus selling back any portion of such amount at any time is completely at the Bank management's discretion. On August 1, 2022, the early pay option of the subordinated bond has not been exercised and the coupon interest for the coming periods has been set at 8,606%.

other obligations line; it includes shareholders' equity amounting to 5.231.363 TL, tax liability of 674.574 TL, provisions of 354.758 TL, liabilities from lease transactions of 351.104 TL and other liabilities of 2.421.885 TL and derivative financial liabilities amounting to 401.256 TL. (****)

Expected Credit losses for related items are presented in non-interest bearing column.

(*) (**) (***)

Expected Credit losses for related items are presented in non-interest bearing column. Derivative financial assets are classified under other assets and expected loss provisions for other assets are netted off in other assets. The Bank, on August 1, 2017 issued the Basel III compliant, 10 year, USD 300 million bond to foreign domicile investors and with the permission of BRSA dated July 17, 2017, classified it as Tier II sub-loan. The Bank, pursuant to the approval of the BRSA on 26 September 2018, bought back USD 24.535 thousands of Tier II sub-loan as of 31 December 2023, and the relevant amount has been deducted from the capital amount in the equity calculation. The Bank has not redeemed or cancelled the shares in circulation, thus selling back any portion of such amount at any time is completely at the Bank management's discretion. On August 1, 2022, the early pay option of the subordinated bond has not been

exercised and the coupon interest for the coming periods has been set at 8,606%. Other obligations line; It includes shareholders' equity amounting to 6.110.552 TL, tax liability of 207.226 TL, provisions of 842.576 TL, liabilities from lease transactions of 163.278 TL and other liabilities of 561.920 TL and derivative financial liabilities amounting to 508.436 TL. IV. **Explanations on Share Certificates Position Risk**

The Bank has no outstanding share certificate position.

V. Explanations on Liquidity Risk Management, Liquidity Coverage Ratio and Net Stable Funding Ratio

Liquidity risk is a risk that occurs as a result of, not having cash in hand or cash inflow at a level and nature to meet cash outflow as a consequence of imbalance in cash flow in time and completely. Liquidity risk consists of sum of two main risk types; funding liquidity risk and market liquidity risk.

Management of the Bank's liquidity risk is carried out in scope of responsibilities of Board of Directors, Risk Committee of the Board, Assets and Liabilities Management Committee (ALCO), Risk Management Department and other business units which are members of ALCO.

Board of Directors has the ultimate responsibility concerning the liquidity risk and its management. Board of Directors also has the responsibility to determine liquidity risk appetite as a part of holistic risk appetite, evaluate and approve proposed limits, approve liquidity risk management policy and confirm changes regarding limit and confinement.

Risk Committee evaluates and approves short, medium and long term liquidity risk management strategies. Risk Committee also provides general adaptability of the Bank to principals and management procedures included in the management of the risk. Risk Committee reviews and evaluates liquidity risk reports periodically.

Assets and Liabilities Management Committee (ALCO) establishes short, medium and long term liquidity management strategies and evaluates the liquidity risk profile of the Bank and impacts of recently developed trends on the liquidity of the Bank through periodical meetings. ALCO makes a decision regarding the qualification of liquidity buffer of the Bank in line with risk appetite and liquidity strategy of the Bank. Additionally, ALCO reviews liquidity reports and feedbacks of the Risk Management, considers Treasury's opinions and action plans and informs Risk Committee and Board of Directors about the possible adverse conditions regarding liquidity and its material impacts.

Risk Management establishes liquidity risk management policy, determines liquidity risk limits and submits these policies and limits to the approval of Board of Directors. It also provides to measure and manage liquidity risk in the framework of risk appetite and limits approved by the Board of Directors. Risk management performs reporting to ALCO, Risk Committee and members of Board of Directors regarding adherence to risk appetite and limit excess. Additionally, risk management is also responsible to form and implement liquidity stress tests and share the results with the related parties.

Liquidity risk analysis and early warning signals are reported to the senior management periodically. Furthermore, all the analysis including regulatory and internal rates with respect to liquidity risk are reported to ALCO and limit and warning levels approved by the Board of Directors are monitored periodically and reported to related parties.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

V. Explanations on Liquidity Risk Management, Liquidity Coverage Ratio and Net Stable Funding Ratio (continued)

Funding management of the Bank is carried out under the control of the Treasury and with the knowledge of ALCO. The Bank's funding strategy is intended to ensure sufficient liquidity and diversity of funding sources to meet actual and contingent liabilities through both normal and stress periods. A significant part of Bank's liquidity needs is met with deposits which represent the main funding source of the Bank. On the other hand, when it is deemed necessary, bond issuance and pre-financing products can be provided in addition to the aforementioned sources.

Almost all the liabilities of the Bank are denominated in TL, USD or EUR and the concentration risk in the funding sources is monitored closely. Concentration analysis related to deposits are performed and factors, which can deteriorate access to funding sources and trigger a sudden withdrawal of funds at a significant level, are analyzed.

Liquidity risk is closely monitored and managed in order to keep it at a level appropriate to risk appetite and liquidity risk management policies, by promoting diversification of funding sources, keeping high quality liquid assets and reduction or termination of activities causing limit excess.

In scope of the Liquidity Stress Test, the Bank monitors stress scenarios arising from internal and external factors and manages its high quality liquid assets, deposits, other balance sheet items generating cash outflows, loans and other cash inflows in that respect. There are designated risk limits for indicators. The compliance with the risk and the determined risk limits is shared with the Senior Management and the relevant business units and necessary actions are taken.

The Bank has established a Liquidity Emergency Action Plan to explain the actions that should be taken in possible liquidity tightness scenarios. In this context, normal market conditions and various stress levels are defined and action plans are created for each situation. In addition to the Emergency Action Plan, Basic Risk Indicators and Liquidity Early Warning Signals are defined within the scope of Liquidity Risk Management Policy and these indicators are regularly monitored.

The liquidity coverage ratios are calculated in accordance with the "Regulation on Liquidity Coverage Ratio Calculation of Banks" published in Official Gazette dated 21 March 2014 and numbered 28948. Liquidity coverage ratios should be at least 80% for foreign currency assets and liabilities and 100% for total assets and liabilities.

23	Liquidity Coverage Ratio (%)			251,00	612,00

(*) Simple arithmetic average calculated for the last three months by using the amounts calculated based on weekly simple arithmetic averages.

Liquidity coverage ratio is calculated by proportioning the high quality liquid assets owned by the bank to the net cash outflows in the one month maturity window. Important balance sheet items that determine the ratio can be listed as required reserves held at the CBRT, securities not subject to repo / collateral, deposits according to counterparty, securities taken as collateral with reverse repo, placements to banks and derivative transactions. Since these items have a high share in liquid assets and net cash outflows in terms of volume, their ratio of consideration is high and they may change over time, their effect on liquidity coverage ratio is higher than other items.

Although derivative transactions create a low amount of net cash flow in terms of total liquidity coverage ratio, fluctuations in foreign currency derivative transaction volumes may affect the foreign currency liquidity coverage ratio.

The weeks having the highest and lowest level of liquidity coverage ratios calculated for the last three months and their average values are given below:

	Current Per	iod-31 March 2025	Prior Period-31 December 202			
	TL+FC	FC	TL+FC	FC		
Lowest	132,65	255,61	182,56	547,78

(*) (**) (***)

Assets such as fixed assets, other assets, securities representing shares in the capital, current tax assets and non-performing loans are recorded here. Other assets line includes assets other than those mentioned above. The Bank, on August 1, 2017 issued the Basel III compliant, 10 year, USD 300 million bond to foreign domicile investors and with the permission of BRSA dated July 17, 2017, classified it as Tier II sub-loan. The Bank, pursuant to the approval of the BRSA on 26 September 2018, bought back USD 24.535 thousands of Tier II sub-loan as of March 31 2025, and the relevant amount has been deducted from the capital amount in the equity calculation. The Bank has not redeemed or cancelled the shares in circulation, thus selling back any portion of such amount at any time is completely at the Bank management's discretion. On August 1, 2022, the early pay option of the subordinated bond has not been exercised and the coupon interest for the coming periods has been set at 8,606%.

(****) TL and other liabilities of 2.421.885 TL and derivative financial liabilities amounting to 401.256 TL

V. Explanations on Liquidity Risk Management, Liquidity Coverage Ratio and Net Stable Funding Ratio (continued)

The net stable funding ratio is calculated by dividing the available stable funding amount by the required stable funding amount. The available stable funding represents the portion of a bank's liabilities and equity that is expected to be permanent, while the required stable funding refers to the portion of a bank's on-balance sheet assets and off-balance sheet liabilities that are expected to be refinanced. The main components of the available stable funding amount include equity elements, deposits by counterparty, securities subject to repurchase agreements, and borrowings by counterparty. The required funding amount primarily consists of securities portfolio, loans by counterparty and maturity, and placements with banks. Derivative products are considered based on their market values, and are accounted for as derivative assets/liabilities relative to the total current market value.

VIII. Explanations on Segment Reporting

Organized to operate in all operational aspects of banking under the scope of 4th Article of the Banking Law, the Bank is providing diversified financial solutions focused on capital financing, foreign trade, project finance, noncash products, cash management and internet banking services to commercial customers. Retail Banking, formed under three major divisions, namely, Retail Loans, Bank and Credit Cards and Wealth Management, serves to the financial needs of customers through branches, internet and mobile channels. Treasury and Capital Markets department is managing TL and FCY liquidity in healthy and sustainable manner, performing profit oriented trading activities in the market within the limits given by the Board. In addition, Treasury sales unit delivers pricing services of government bills and bonds, Eurobonds and derivatives to the Bank customers.

SECTION FIVE

INFORMATION AND DISCLOSURES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS

I. Explanations and Disclosures Related to the Assets

1. a) Information on Cash and Balances with the Central Bank of Turkey:

	31 March 2025		31 December 20	
	TL	FC	TL	FC
Cash in TL/Foreign Currency	84.281	1.026.357	102.559	821.204
Balances with the Central Bank of Turkey Other	4.895.386	9.980.278	3.260.440	9.040.660
Total	4.979.667	11.006.635	3.362.999	9.861.864

b) Information related to the account of the Central Bank of Turkey:

	31 March 2025		31 December 2024	
	TL	FC	TL	FC
Unrestricted Demand Deposit	4.097.150	3.532.115	3.017.252	3.322.231
Unrestricted Time Deposit	250.000		-	-
Restricted Time Deposit	548.236	6.448.163	243.188	5.718.429
Total	4.895.386	9.980.278	3.260.440	9.040.660

c) Explanations related to reserve deposits:

In accordance with the "Communiqué Regarding the Reserve Requirements no. 2013/15, the Bank is required to maintain reserves in CBT for TL and foreign currency liabilities. The reserve requirements can be maintained as TL, USD, EUR and gold.

The required reserve rates for TL liabilities vary between 3% and 17% for TL deposits and other liabilities according to their maturities as of March 31 2025 (December 31, 2024: 3% and 17% for all TL liabilities) and between 22% and 33% for accounts provided with exchange rate/price protection support by the Central Bank (December 31, 2024: between 22% and 33%). In foreign currency, it is between 5% and 30% depending on the maturity structure (December 31, 2024: between 5% and 30%) as of March 31, 2025. As of February 7, 2025, the rate has been determined as 12% for banks' deposits/participation funds in foreign banks up to 1 year (including 1 year), funds obtained from foreign repo transactions and loans borrowed from abroad.

In accordance with the CBT instruction dated 31 August 2022 and numbered 1579, the commission practice according to the share of Turkish Lira deposits in total deposits has been changed effective from 29 September 2023. Accordingly, different commission rates based on share of Turkish Lira deposits in total deposits, transition and renewal is applied.

As of 27 October 2023, an additional reserve requirement ratio has to be maintained in Turkish lira at all maturities for deposits denominated in foreign currency (foreign bank deposits and precious metal accounts). It is applied as 4% as of 31 March 2025. Additional reserve requirement rates have been excluded from the reserve requirement commission application by the decision of the CBRT.

Within the scope of the "Communiqué on the Establishment of Securities in Turkish Lira for Foreign Currency Liabilities" numbered 2022/20; foreign currency liabilities, by the transition from foreign currency protected deposits to TL, the assets (credit growth, differentiation according to interest rate) are subject to purchase securities. As of 29 December 2023, with the transition from foreign currency protected deposits to TL, purchasing security through differentiation according to the interest rate on assets has ended. Security purchase for loan growth has been terminated and the TL blocked required reserve for loan growth has been introduced as of 29 March 2024. As of 21.06.2024, a blocked reserve requirement facility has been introduced for FX loan growth. Differentiation based on leverage ratio has been abolished as of 28.06.2024.

k) Main principles of liquidation policies of non-performing loans and receivables:

According to the "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves" published on Official Gazette No. 29750 dated June 22, 2016; legal action is carried on considering debtor, guarantors and existing collaterals and provisions are made for non-performing loans in accordance with the relevant decree. As of 31 March 2025, the net amount after provisions of the non-performing loans and receivables is TL 290.990 (31 December 2024: TL 283.899).

1) Explanations on write-off policy:

The amendment with respect to the regulation on the Principles and Procedures Regarding the Classification of Loans and Reserves Set Aside for These Loans entered into force with its publication in the Official Gazette No.30961 on November 27, 2019. Pursuant to the regulation, the banks are enabled to write down and move off the balance sheet the portion of a loan which is classified as "Uncollectible loans" if it cannot reasonably be expected to be recovered. Loans and receivables considered as non-collectable are written-off pursuant to approval of Board of Directors (BoD) and other related departments. As of March 31 2025: None. (As of 31 December 2024: non-performing loans amounting to TL TL 286.748 and 100% provisioned are written off from the asset)

(*) The Bank, on August 1, 2017 issued the Basel III compliant, 10 year, USD 300 million bond to foreign domicile investors and with the permission of BRSA dated July 17, 2017, classified it as Tier II sub-loan. The Bank, pursuant to the approval of the BRSA on September 26 2018, bought back USD 24.535 thousands of Tier II sub-loan as of March 31, 2025, and the relevant amount has been deducted from the capital amount in the equity calculation. The Bank has not redeemed or cancelled the shares in circulation, thus selling back any portion of such amount at any time is completely at the Bank management's discretion. On August 1, 2022, the early pay option of the subordinated bond has not been exercised and the coupon interest for the coming periods has been set a 8,606%.

13. Information on Shareholders' Equity:

At the Ordinary General Assembly meeting held on March 26, 2025, it was decided to offset the Bank's net loss of TL 329,534 for 2024 from the Extraordinary Reserves.

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources by giving them a retroactive effect for the year in which they were issued and for each earlier period.

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS **AS OF 31 MARCH 2025**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

Message from the Chairman

It is with great optimism that I share this letter following the successful transfer of majority shares in Odeabank to ADQ. This milestone marks the beginning of a new chapter that I believe will unlock significant value for all stakeholders. With ADQ's support, we are now equipped with greater capital strength that will drive our growth ambitions and accelerate the next phase of our journey.

As Chairman of Odeabank, I am committed to strengthening the connection between our bank and ADQ's diverse portfolio. We will actively leverage these relationships to explore new opportunities, build our capabilities, and reinforce our position as a forward-thinking institution. Odeabank's success in digital transformation has laid a strong foundation, and I see tremendous potential for us to lead innovation within Türkiye's financial landscape.

As we close the first quarter of 2025, I would also like to reflect on the broader economic environment. Despite continued global uncertainties, Türkiye has entered the year with renewed momentum. Sound fiscal management and a dynamic private sector are driving a resilient and confident economic outlook, creating the right conditions for us to grow.

Türkiye's youthful and skilled population remains a key strategic advantage. At Odeabank, we reflect this energy in how we operate, how we push the boundaries, and how we serve our customers. With continued investment in digital infrastructure and technology, we are operating in an environment full of long-term potential.

Odeabank is set apart by its strong financial foundation and scalable service model. Our talented team and agile organizational structure enable us to adapt quickly and respond with purpose in a fast-changing market. We are reimagining the customer experience through digital innovation, strengthening our position, and delivering sustainable value.

Looking ahead, we will continue to move forward with a clear strategy and firm commitment to excellence. By focusing on innovation, customer engagement, and operational resilience, we will shape the future of banking in Türkiye and contribute meaningfully to the country's financial progress.

Sincerely,

Marcos Alonso DE QUADROS Chair of Odeabank

ODEA BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 MARCH 2025

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

CEO's Message

Dear Stakeholders,

The first quarter of 2025 began with signals of recovery in both the Turkish and global economies. Nevertheless, the global macroeconomic environment continued to reflect notable volatility, largely due to trade tensions driven by additional tariffs introduced by the United States. China's increased industrial output and growing energy demand contributed to global trade dynamics, while the uncertainty in the U.S. over tariff policies and the Federal Reserve's forthcoming interest rate decisions remained critical factors shaping the near-term economic outlook.

In Europe, economic activity gained momentum, particularly supported by the growth performances of key economies such as Germany and France. In response to the region's inflation challanges, the European Central Bank has signaled a potential shift toward interest rate reductions.

Domestically, inflation in Türkiye ramined on a downward path. The Central Bank's relatively tighter monetary stance compared to the previous year contributed positively to market sentiment. Nonetheless, the subsequent tightening measures have served to balance domestic demand and support sustainable production conditions. Provided that external shocks are avoided, we maintain our base-case scenario of continued improvement in economic conditions throughout the remainder of the year.

At Odeabank, we managed our balance sheet effectively throughout the first quarter of 2025. When it comes to financial results, by the end of the first quarter of 2025, total assets reached TL 89.3 billion, while the total resources acquired through cash and non-cash loans increased to TL 59.8 billion. Total non-deposit asset under management approached TL 68.1 billion, showing an increase by 6% compared to the end of 2024.

On the other hand, with the completion of the share transfer process—one of the most significant milestones in our bank's history—we have entered a new era shaped by fresh strategies and ambitious goals. We strongly believe that this new chapter will bring valuable opportunities for growth and development, and we sincerely hope it will be beneficial for all of us.

I would also like to take this opportunity to highlight that our activities continue to receive recognition across various fields. At the globally renowned Stevie Awards, our OdeAsistan project received the Gold Stevie in the Collaboration Solution – New or New Version category, while our RM Dashboard project was honored with the Bronze Stevie in the Business Intelligence Solution – Implementation category.

Another noreworthy achievement came from Odea Radio, which continues to expand our financial literacy initiatives—including our investment-focused podcast. Odea Radio was recognized with four distinct awards at the Prida Communication Awards, organized annually by the Turkish Communication Consultancy Companies Association (İDA). These include the Grand Award in Digital and Social Media, along with awards in the categories of Creative/Innovative Use of Media, Community Building and Management in Digital, and Music Platforms and Podcasts. I extend my heartfelt thanks to all our colleagues whose dedication and outstanding efforts have made these accomplishment possible.

I would also like to express my sincere gratitude to all our stakeholder – especially our business partners, customers, and employees – for their valuable contributions.

Sincerely,

Mert Öncü CEO and Board Member
