(Convenience Translation of Unconsolidated Financial Statements and Related Disclosures and Footnotes Originally Issued in Turkish)

Odea Bank Anonim Şirketi

Unconsolidated Interim Financial Statements
As at and for the Nine-Month Period Ended
30 September 2026

(Convenience Translation of the Report on Review of Interim Financial Information Originally Issued in Turkish)

REPORT ON REVIEW OF UNCONSOLIDATED INTERIM FINANCIAL INFORMATION

To the General Assembly of Odea Bank A.Ş.

Introduction

We have reviewed the accompanying unconsolidated balance sheet of Odea Bank A.Ş. ("the Bank") as at 30 September 2026 and the unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows for the nine-month period then ended and notes, comprising a summary of significant accounting policies and other explanatory information. The Bank Management is responsible for the preparation and fair presentation of these unconsolidated interim financial information in accordance with the "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation" which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No.26333 dated 1 November 2006, and other regulations on accounting records of banks published by Banking Regulation and Supervision Board and circulars and interpretations published by BRSA and the requirements of Turkish Accounting Standard 34 "Interim Financial Reporting" for the matters not regulated by the aforementioned legislations. Our responsibility is to express a conclusion on these unconsolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated interim financial information does not present fairly, in all material respects, the unconsolidated financial position of Odea Bank A.Ş.as at 30 September 2026, and its unconsolidated financial performance and its unconsolidated cash flows for the nine-month period then ended in accordance with the BRSA Accounting and Reporting Legislation.

Other Matter

The independent audit of the unconsolidated financial statements of the Bank for the year ended 31 December 2025 and the review of the unconsolidated financial information for the nine-month interim period ended 30 September 2025 have been performed by another independent auditor who expressed an unqualified opinion and an unqualified conclusion in the independent auditor's report dated 17 February 2026 and the review report dated 4 November 2025, respectively.

Report on Other Legal and Regulatory Requirements

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information provided in the interim activity report included in section seven of the accompanying unconsolidated interim financial information is not consistent, in all material respects, with the reviewed unconsolidated interim financial information and explanatory notes.

Additional paragraph for convenience translation to English:

The accounting principles summarized in Note 1 Section Three, differ from the accounting principles generally accepted in countries in which the accompanying unconsolidated interim financial information is to be distributed and International Financial Reporting Standards ("IFRS"). Accordingly, the accompanying unconsolidated interim financial information is not intended to present the financial position and results of operations in accordance with accounting principles generally accepted in such countries of users of the unconsolidated interim financial information and IFRS.

SECTION ONE

GENERAL INFORMATION ABOUT THE BANK

I. Bank's Incorporation Date, Beginning Statue, Changes in the Existing Statue

Odea Bank A.Ş. ("the Bank") was established as a deposit bank with USD 300 Million capital with the permission of BRSA numbered 4432 dated October 27, 2011, which was published in the Official Gazette on October 28, 2011, numbered 28098. The Bank started its operations in the "foreign deposit banks founded in Turkey" group, by taking operating permission from BRSA numbered 4963 on September 28, 2012, which was published in Official Gazette dated October 2, 2012 numbered 28429.

II. Explanations Regarding Bank's Shareholding Structure, Shareholders Holding Directly or Indirectly, Collectively or Individually, the Managing and Controlling Power and Changes in Current Year, if any and Explanations on the Controlling Group of the Bank

Established in 2018 as a strategic partner of the Government of the United Arab Emirates, Abu Dhabi Developmental Holding Company P.J.S.C. (together with its subsidiaries and affiliates, "ADQ"), an investment and holding company headquartered in Abu Dhabi and active in critical infrastructure and global supply chain investments, has signed a share purchase agreement on October 14, 2024 with a shareholder consortium led by Bank Audi s.a.l. to acquire 96% of the shares of Odeabank, through its indirect and ultimate owner ADQ Financial Services L.L.C. and its wholly owned subsidiaries. Regarding this transaction, approvals were received from the Banking Regulation and Supervision Agency (BRSA) on March 06, 2025, and from the Competition Authority on March 20, 2025.

Within this context, the share transfer transaction was completed as of March 26, 2025, and the total shareholding rate of Bank Audi s.a.l. (76.42%), European Bank for Reconstruction and Development (8.01%), International Finance Corporation (6.36%), IFC FIG Investment Company S.a.r.l. (3.43%) and Mr. Mohammad Hassan Zeidan (1.78%) in Odeabank decreased from 96% to 0%, while the shareholding rate of ADQ Financial Services L.L.C. and its affiliates in Odeabank increased from 0% to 96%.

The Bank's paid-in capital, which amounted to TL 3.289, was increased by TL 1.973 to TL 5.262 pursuant to the resolution adopted at the General Assembly held on 14 May 2025. Of the said capital increase, TL 1.894 was contributed by ADQ Financial Services LLC and TL 79 was contributed by H.H. Sheikh Dheyab Bin Zayed Bin Sultan Al-Nahyan, and the entire amount of the increase was paid in cash.

The Bank's paid-in capital, amounting to TL 5.262, was increased by TL 4.418 to TL 9.680 pursuant to the resolution adopted at the Extraordinary General Assembly held on 11 February 2026. Of the total capital increase, TL 4.241 was committed and fully paid in cash by ADQ Financial Services LLC, and TL 177 was committed and fully paid in cash by H.H. Sheikh Dheyab Bin Zayed Bin Sultan Al-Nahyan. The capital increase was registered on 17 February 2026.

The Bank's paid-in capital, which amounted to TL 9.680, was increased by TL 4.784 to TL 14.464 pursuant to the resolution adopted at the Extraordinary General Assembly held on 13 August 2026. Of the said capital increase, TL 4.593 was contributed by ADQ Financial Services LLC and TL 191 was contributed by H.H. Sheikh Dheyab Bin Zayed Bin Sultan Al-Nahyan, and the entire amount of the increase was paid in cash. The capital increase was registered on 13 August 2026.

ADQ Group

Established in 2018, ADQ is an Abu Dhabi-based investment and holding company with a broad portfolio of enterprises. Its investments span key sectors of the UAE's diversified economy, such as energy and utilities, food and agriculture, healthcare and life sciences, and transport and logistics. As a strategic partner of the Abu Dhabi Government, ADQ is committed to accelerating the Emirate's transformation into a globally competitive and knowledge-based economy. In line with ADQ's strategic investment approach, L'IMAD Holding has been positioned as the main shareholder within the scope of the transaction in question, and the merger and related investment processes have been implemented within this partnership framework.

As of 30 September 2026, the shareholders' structure and their ownerships are summarized as follows:

Name and Surname / Commercial Title	Share Amount	Share Ratios
ADQ Financial Services LLC	13.885	96,000%
H.H. Sheikh Dheyab Binzayed Binsultan Al-Nahyan	579	4,000%
Flash Investment Holding 1 RSC Ltd	1(*)	0,000%
Flash Investment Holding 2 RSC Ltd	1(*)	0,000%
Flash Investment Holding 3 RSC Ltd	1(*)	0,000%
Flash Investment Holding 4 RSC Ltd	1(*)	0,000%
	14.464	**100,00%**

	Ebru VARDAR	Human Resources	Bachelor's Degree
	Gürcan KIRMIZI	Retail Banking	Bachelor's Degree
	Tolga USLUER	Internal Systems	Master's Degree

(*) Mr. Marcos Alonso De Quadros resigned from his position as Chairman of the Board of Directors as of September 24, 2026. Appointed as a Member of the Board of Directors pursuant to the Board of Directors' resolution dated September 24, 2026, numbered 2026/096, Mr. Hashem Hussein Hashem Aldabbas officially commenced his duties by taking an oath before the Commercial Court as of October 15, 2026, and assumed the position of Chairman of the Board of Directors within the framework of the said resolution.

(**) Mr. Mohamed M Kaissi resigned from his positions as a Member of the Board of Directors and a Member of the Audit Committee as of September 24, 2026. Mr. Jawad Shafique stepped down from his position as Vice Chairman of the Board of Directors as of September 24, 2026, and continues to serve as a Member of the Board of Directors.

Individuals mentioned above do not own any shares of the Bank.

IV. Information About The Persons and Institutions That Have Qualified Shares

Information about the persons and institutions that have qualified shares as of 30 September 2026:

Name and Surname / Commercial Title	Share Amount	Share Ratios	Paid up Shares	Unpaid Shares
ADQ Financial Services LLC	13.885	96,000%	13.885	-

V. Summary on the Bank's Functions and Areas of Activity

The headquarters of the Bank is located in Istanbul as of 30 September 2026. The Bank has 36 domestic branches with 1.246 employees. The Bank is organized to operate in all operational aspects of commercial and retail banking under the scope of 4th Article of the Banking Law. The Bank has no subsidiaries in the financial sector (31 December 2025: 35 branches, 1.211 employees).

VI. Differences between the communiqué on preparation of consolidated financial statements of Banks and Turkish Accounting Standards and short explanation about the institutions subject to full consolidation method or proportional consolidation and institutions which are deducted from equity or not included in these three methods

While non-financial subsidiaries are not consolidated within the scope of the Communiqué on Preparation of Consolidated Financial Statements of Banks, all subsidiaries are consolidated within the scope of Turkish Accounting Standards as long as they meet the relevant consolidation standard requirements.

The Bank's non-financial subsidiary is not consolidated in the accompanying financial statements.

VII. The existing or potential, actual or legal obstacles on the transfer of shareholder's equity between the Bank and its subsidiaries or reimbursement of liabilities

None.

SECTION THREE
ACCOUNTING PRINCIPLES

I. Basis of Presentation

a. The preparation of the unconsolidated financial statements and related notes and explanations in accordance with the Turkish Financial Reporting Standards and regulation on the Regulation on Accounting Applications for Banks and Safeguarding of Documents

The unconsolidated financial statements have been prepared in accordance with the "Regulation on the Procedures and Principles for Accounting Practices and Retention of Documents by Banks" published in the Official Gazette no.26333 dated 1 November 2006 with regard to Banking Law No. 5411, and in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency ("BRSA"), and in case where a specific regulation is not made by those, "Turkish Accounting Standards" ("TAS") and "Turkish Financial Reporting Standards" ("TFRS") put into effect by Public Oversight Accounting and Auditing Standards Authority ("POA") (all "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation).

Under the 'Communiqué Amending the Communiqué on Financial Statements and Related Disclosures and Footnotes to be Announced to the Public by Banks', published in the Official Gazette dated April 30, 2026, and numbered 33239, amounts in the financial statements and related disclosures and footnotes have started to be presented in millions of TL, effective from the reporting period ended June 30, 2026. Prior period amounts presented for comparative purposes have also been restated in millions of TL under the same principle.

In preparing the unconsolidated financial statements in accordance with "BRSA Accounting and Financial Reporting Legislation", the Bank management has to make assumptions and estimates about the assets and liabilities in the balance sheet. These estimates and assumptions include fair value calculation of financial instruments and impairment of financial assets are being reviewed regularly and, when necessary, adjustments are made and the effects of these adjustments are reflected to the statement of profit or loss.

a.1) ***Additional paragraph for convenience translation to English***

The effects of differences between accounting principles and standards set out by regulations in conformity with Article 37 of the Banking Law No. 5411, accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and the International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

c. Accounting policies and valuation principles applied in the preparation of financial statements

Accounting policies and valuation principles used in the preparation of the unconsolidated financial statements are determined in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency and in case where a specific regulation is not made by BRSA, TFRS.

Based on the announcement made by Public Oversight, Accounting and Auditing Standards Authority (POA) on 23 November 2023, entities applying Turkish Financial Reporting Standards (TFRSs) are required to present their financial statements by adjusting for the impact of inflation for the annual reporting period ending on or after 31 December 2023, in accordance with the accounting principles specified in TAS 29 Financial Reporting Standard in Hyperinflationary Economies. In the same announcement, it was stated that institutions or organizations authorized to regulate and supervise in their respective scope might determine different transition dates for the implementation of inflation accounting. In this context;

- In accordance with Board decision on 12 December 2023, financial statements of banks, financial leasing, factoring, financing, savings financing and asset management companies as of 31 December 2023 would not be subject to the inflation adjustment.

- In accordance with Board decision on 11 January 2024, banks, financial leasing, factoring, financing, savings financing and asset management companies are required to apply inflation adjustment as of 1 January 2025.

- In accordance with the Board decision numbered 11021 on 5 December 2024, banks, financial leasing, factoring, financing, savings financing and asset management companies will not apply inflation adjustment in 2025.

I. Basis of Presentation (continued)

c. Accounting policies and valuation principles applied in the preparation of financial statements (continued)

- In accordance with Board decision numbered 11340 on 18 December 2025, it has been decided to repeal the Board decision dated 11 January 2024, and numbered 10825 financial statements of banks, financial leasing, factoring, financing, savings financing and asset management companies would not be subject to the inflation adjustment.

Based on this, "TAS 29 Financial Reporting Standard in Hyperinflationary Economies" has not been applied in the Bank's unconsolidated financial statements dated 30 September 2026.

The accounting policies and the valuation principles applied in the preparation of the accompanying financial statements are explained in section three notes II to XXVI.

d. Changes in accounting policies and disclosures

New and revised Turkish Accounting Standards effective for annual periods beginning on or after 1 January 2026 have no material effect on the financial statements, financial performance and on the Bank's accounting policies. New and revised Turkish Accounting Standards issued but not yet effective as of the finalization date of the financial statements have no material effect on the financial statements, financial performance and on the Bank's accounting policies.

e. Accounting estimates and assumptions

In the preparation of the financial statements, the Bank's management has used various judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. These estimates and assumptions are based on management's current expectations regarding future events, and actual results may differ from these estimates. Estimates and the underlying assumptions are reviewed on an ongoing basis, and revisions to estimates are recognized prospectively in the financial statements.

A. Judgments

Information on judgments made in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is provided in the following notes

- Note VIII: Establishment of criteria for determining whether credit risk on a financial asset has increased significantly since initial recognition; determination of the methodology for incorporating forward-looking information into the measurement of Expected Credit Losses ("ECL"); selection and approval of models used in ECL measurement.
- Note VII: Classification of financial assets: assessment of the business model within which the assets are held and evaluation of whether the contractual cash flows of the financial asset represent solely payments of principal and interest on the principal amount outstanding.

B. Assumptions and Estimation Uncertainties

As of the reporting date, the key assumptions and estimation uncertainties that carry a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year arise in the following areas:

- Note VIII: Impairment of financial instruments: determination of inputs used in the ECL measurement model, key assumptions used in estimating recoverable cash flows, and incorporation of forward-looking information into the model.
- Note XVII: Recognition of deferred tax assets: assessment of the availability of future taxable profits against which deductible temporary differences and carried forward tax losses can be utilized.

I. Basis of Presentation (continued)

f. Standards and amendments issued as of 30 September 2026 but not yet effective

There are some new or amended accounting standards that have entered into force for accounting periods beginning after January 1, 2026, and early application is permitted. However, the Bank has not early applied the following new or amended accounting standards in the preparation of these financial statements.

TFRS 17 Insurance Contracts

TFRS 17 requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. TFRS 17 has been deferred for insurance, reinsurance and pension companies for a further year and will replace TFRS 4 Insurance Contracts on 1 January 2027.

Amendments to TFRS 17 Insurance Contracts and Initial Application of TFRS 17 and TFRS 9 – Comparative Information

Amendments have been made in TFRS 17 in order to reduce the implementation costs, to explain the results and to facilitate the initial application.

The amendment permits entities that first apply TFRS 17 and TFRS 9 at the same time to present comparative information about a financial asset as if the classification and measurement requirements of TFRS 9 had been applied to that financial asset before. Amendments are effective with the first application of TFRS 17.

TFRS 18 Presentation and Disclosures in Financial Statements

TFRS 18 includes requirements for all entities applying TFRS for the presentation and disclosure of information in financial statements. This standard is effective from annual reporting periods beginning on or after 1 January 2027.

TFRS 19 Subsidiaries without Public Accountability: Disclosures

TFRS 19 specifies the disclosure requirements an eligible subsidiary is permitted to apply instead of the disclosure requirements in other IFRS Accounting Standards. This standard is effective from annual reporting periods beginning on or after 1 January 2027.

Amendments to TFRS 19 Subsidiaries without Public Accountability: Disclosures

The amendments cover new or amended Turkish Financial Reporting Standards that were not considered when TFRS 19 was first issued. Amendments are effective from annual reporting periods beginning on or after 1 January 2027.

Amendments to TAS 21 Translation to a Hyperinflationary Presentation Currency

The amendments clarify how companies should translate financial statements from a non-hyperinflationary currency into a hyperinflationary one. Annual reporting periods beginning on or after 1 January 2027.

Amendments to TAS 28 ***Amendments to the Fair Value Option for Investments in Associates and Joint Ventures***

The amendments provide clarity about which entities are eligible to measure investments using the fair value option in TAS 28. Annual reporting periods beginning on or after 1 January 2027.

The Bank evaluates the effects of these standards, amendments and improvements on the financial statements.

II. Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions

The Bank's main activities comprise retail, commercial and corporate banking, money market and securities market operations.

The Bank uses financial assets intensely by its nature. The Bank's basic strategy regarding the use of financial assets is intended for ensuring the balance between the profits from and risk levels of assets.

The most important funding source of the Bank is the deposits accepted for various time periods and apart from deposits, the most important funding sources are equity, securities issued, money market transactions and borrowings obtained from foreign financial institutions, generally medium and long term. In order to use these sources in high-yield and high-quality financial assets, the Bank follows an effective asset-liability management strategy. The Bank manages interest rate risk, liquidity risk, exchange rate risk and credit risk carried on in and off balance sheet assets and liabilities within the framework of internal and legal limits.

The Bank's asset-liability management is executed by the Asset-Liability Management Committee, within the risk limits determined by the Board of Directors, in order to keep the liquidity risk, interest rate risk, currency risk and credit risk within certain limits depending on the equity adequacy and to maximize profitability.

Translation gains and losses arising from foreign currency transactions are accounted for within the period in which the transaction occurs. Foreign currency denominated assets and liabilities are translated into TL with the prevailing buying rate of exchange of the Bank on reporting date and gains and losses arising from such transactions are recognized in the statement of profit or loss under the account of foreign exchange gains or losses.

III. Investments In Associates, Subsidiaries and Joint Ventures

In the accompanying financial statements, the non-financial subsidiary that is not consolidated in accordance with the relevant BRSA regulations has been accounted for using the fair value method in accordance with TFRS 9 "Financial Instruments".

IV. Explanations on Futures and Options Contracts and Derivative Instruments

The Bank's derivative transactions mainly consist of options, foreign currency and interest rate swaps, and forward foreign exchange contracts. Derivative transactions are initially recognized at fair value and subsequently measured at fair value in the following periods. Depending on whether the fair value is positive or negative, derivative transactions are presented in the balance sheet under "Derivative financial assets measured at fair value through profit or loss" or "Derivative financial liabilities measured at fair value through profit or loss". Changes in fair value arising from valuation are recognized in the statement of profit or loss under gains or losses from derivative financial transactions.

Receivables and payables arising from derivative transactions are recorded in off-balance sheet accounts at their contractual amounts.

Within the scope of TFRS 13 Fair Value Measurement standard; if there is a significant decrease in the volume or level of activity for that asset or liability in relation to normal market activity for the asset or liability (or similar assets or liabilities); when the transaction or quoted price does not represent fair value; and / or when a price for a similar asset requires significant adjustment to make it comparable to the asset being measured, or when the price is stale, the Bank makes an adjustment to the transactions or quoted prices and reflects this adjustment to the fair value measurement. In this context, the Bank determines the point within the range that is most representative of fair value under current market conditions.

V. Explanations on Interest Income and Expenses

Interest income is recognized by applying the effective interest rate to the gross carrying amount of the financial asset, in accordance with the effective interest method defined in TFRS 9 (the rate that exactly discounts estimated future cash flows over the expected life of the financial asset or liability), except for financial assets that are credit-impaired at initial recognition and financial assets that were not credit-impaired at initial recognition but subsequently become credit-impaired. When applying the effective interest method, the Bank identifies fees that are an integral part of the effective interest rate of the financial instrument. Unless the financial instrument is measured at fair value through profit or loss, such fees that are an integral part of the effective interest rate are considered as an adjustment to the effective interest rate. In such cases, these fees are recognized in the financial statements as income or expense at the time the financial instrument is initially recognized.

V. Explanations on Interest Income and Expenses (continued)

In applying the effective interest method, the Bank amortizes the fees included in the calculation of the effective interest rate, transaction costs and other premiums or discounts over the expected life of the financial instrument.

If expectations regarding the cash flows of a financial asset are revised for reasons other than credit risk, the change is reflected in the carrying amount of the asset and the related income statement line item and is amortized over the estimated remaining life of the financial instrument.

If a financial asset becomes credit-impaired and is classified as a non-performing loan, the Bank applies the effective interest rate to the amortized cost of such financial assets in subsequent reporting periods. The interest income calculation for such assets is performed on a contract-by-contract basis for all financial assets subject to impairment calculation. The effective interest rate is applied in the calculation of loss given default in expected credit loss models, and the expected credit loss calculation also includes such interest amounts.

VI. Explanations on Fees and Commission Income and Expenses

Fees and commissions other than those that are an integral part of the effective interest rate of financial instruments measured at amortized cost are accounted for in accordance with TFRS 15 Revenue from Contracts with Customers. Except for fee income related to certain banking transactions that is recognized as income at a point in time in the period in which the service is provided, fee and commission income and expenses, as well as loan fee and commission expenses paid to other credit institutions and organizations, are recognized on an accrual basis over the period during which the service is rendered. Income obtained through contracts or through the acquisition of assets on behalf of a third natural or legal person is recognized in the period in which it is realized.

VII. Explanations on Financial Assets

Financial instruments comprise financial assets, financial liabilities and derivative instruments. Financial instruments affect liquidity, market, and credit risks on the Bank's balance sheet in all respects.

Basically, financial instruments create the majority of the commercial activities and operations of the Bank. These instruments expose, affect and diminish the liquidity, credit and interest risks in the financial statements.

All regular way purchases and sales of financial assets are recognized on the settlement date. The settlement date is the date that the asset is delivered to or by the Bank. Settlement date accounting requires (a) accounting of the asset when acquired by the institution and (b) disposing of the asset out of the balance sheet on the date settled by the institution; and accounting of gain or loss on disposal. Changes in fair value of assets to be received during the period between the trade date and the settlement date are accounted for in the same way as the acquired assets.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace.

The Bank categorizes its financial assets as "Fair Value Through Profit/Loss", "Fair Value Through Other Comprehensive Income" or "Measured at Amortized Cost". Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part 3 Issued for classification and measurement of the financial instruments published in the Official Gazette No. 29953 dated 19 January 2017 by the Public Oversight Accounting and Auditing Standards Authority.

The Bank recognizes a financial asset into the financial statements when it becomes a party to the contractual terms of a financial instrument. During the first recognition of a financial asset into the financial statements, the business model determined by the Bank management and the nature of contractual cash flows of the financial asset are taken into consideration. When the business model determined by the Bank's management is changed, all affected financial assets are reclassified and this reclassification is applied prospectively. In such cases, no adjustments are made to earnings, losses or interests that were previously recorded in the financial statements.

VII. Explanations on Financial Assets (continued)

Business model assessment

In accordance with TFRS 9, the Bank's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular management objective.

The Bank's business model does not depend on management's intention for an individual financial instrument; therefore, it does not represent a classification approach on an instrument-by-instrument basis, but rather an assessment made based on a portfolio of financial assets.

While evaluating the business model it uses for the management of financial assets, the Bank takes into account all relevant evidence available at the date of the evaluation. Such evidence includes:

- How the performance of the business model and the financial assets held within that business model is reported to the Bank's key management personnel;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, how those risks are managed.

The business model assessment is not performed based on scenarios that the entity does not reasonably expect to occur, such as "worst-case" or "stress" scenarios.

The fact that cash flows are realized differently from the expectations at the date on which the business model is assessed does not require the Bank to correct errors in the financial statements or to change the classification of other financial assets to which the same business model is applied, provided that the Bank has considered all relevant information available at the date of the business model assessment. However, in assessing the business model for newly originated or newly acquired financial assets, the Bank considers information on how cash flows were realized in the past together with other relevant information.

The Bank's business models consist of three categories, as set out below:

- Business model with the objective of holding financial assets to collect contractual cash flows: This is the business model in which the Bank holds financial assets in order to collect the contractual cash flows arising over the life of the assets. Financial assets held under this business model are measured at amortized cost, provided that the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Business model with the objective of collecting contractual cash flows and selling financial assets: This is the business model in which the Bank holds financial assets both to collect contractual cash flows and to sell the financial assets. Financial assets held under this business model are measured at fair value through other comprehensive income, provided that the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Other business models: These are business models in which financial assets are not held either to collect contractual cash flows or to collect contractual cash flows and sell financial assets, and are measured at fair value through profit or loss.

Contractual cash flows that are solely payments of principal and interest

In accordance with TFRS 9, when the Bank holds a financial asset within a business model whose objective is either to collect contractual cash flows or to collect contractual cash flows and sell financial assets, the Bank classifies such financial asset based on the characteristics of the contractual cash flows.

In a basic lending arrangement, consideration for the time value of money and credit risk generally represents the most significant elements of interest.

The Bank applies judgment to assess whether such consideration represents solely payment for the passage of time and takes into account relevant factors such as the currency in which the financial asset is denominated and the period for which the interest rate is set. In cases where the contractual terms expose the financial asset to risks or variability in cash flows that are inconsistent with a basic lending arrangement, the related financial asset is measured at fair value through profit or loss.

The methods and assumptions used in the recognition and measurement of financial instruments are mentioned below.

VII. Explanations on Financial Assets (continued)

Cash, Banks, and Other Financial Institutions:

Cash and cash equivalents include cash, demand deposits, and other short-term investments with maturities of 3 months or less from the date of purchase, which are readily convertible to cash, have negligible risk of change in their fair value, and possess high liquidity; these are recognized at amortized cost.

Financial Assets at Fair Value Through Profit and Loss:

"Financial assets at fair value through profit/loss" are financial assets that are either managed by a model other than the ones that are managed with a business model of hold to collect contractual cash flows or with a business model of hold to collect contractual cash flows or to sell financial assets, or being subject to mentioned business models, of which cash flows does not meet the "solely for the payments of principal and interest" criteria.

Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement. Transaction costs related to such assets are recorded as expense at the time of occurrence. Interest income from securities recognized as being at fair value, calculated using the effective interest method, and dividend income from securities representing equity are recognized in the income or loss statement.

Financial Assets at Fair Value Through Other Comprehensive Income:

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows which are solely payments of principal and interest are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. "Unrealized gains and losses" arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the receipt of consideration against that asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted for under the "other comprehensive income or expense items to be recycled to profit or loss" under shareholders' equity.

During initial recognition an entity can choose in an irrevocable way to record the changes of the fair value of the investment in an equity instrument that is not held for trading purposes in the other comprehensive income. In the case of this preference, the dividend from the investment is taken into the financial statements as profit or loss.

At initial recognition, the Bank may make an irrevocable election, on an instrument-by-instrument basis, to present subsequent changes in the fair value of an investment in an equity instrument that is within the scope of TFRS 9 in other comprehensive income, provided that the investment is not held for trading and does not represent contingent consideration recognized by an acquirer in a business combination to which TFRS 3 Business Combinations applies.

The related fair value differences recognized in other comprehensive income are not subsequently reclassified to profit or loss, but are transferred to retained earnings. Dividends received from such investments are recognized in profit or loss, unless the dividends clearly represent a recovery of part of the cost of the investment.

Financial Assets Measured at Amortized Cost:

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted for in the income statement.

VII. Explanations on Financial Assets (continued)

Financial Assets Measured at Amortized Cost: (continued)

In addition, the Bank's securities portfolio includes government bonds indexed to the consumer price index ("CPI") issued by the Republic of Türkiye Ministry of Treasury and Finance, which are classified as financial assets at fair value through other comprehensive income and financial assets measured at amortized cost. These securities are measured and accounted for using the effective interest method based on an index calculated by taking into consideration real coupon rates and the reference inflation index at the issue date together with the estimated inflation rate. As stated in the CPI-Indexed Bonds Investor Guide of the Republic of Türkiye Ministry of Treasury and Finance, the reference indices used in calculating the actual coupon payment amounts of these securities are based on the CPI figures from two months prior. The Bank determines the estimated inflation rate in parallel with this methodology. The estimated inflation rate, which is determined by taking into account the expectations of the Central Bank of the Republic of Türkiye and the Bank, is updated during the year when deemed necessary.

Loans and Receivables:

Loans and receivables, financial assets measured at amortized cost are financial assets that have fixed or determinable payments terms and are not quoted in an active market.

As all loan products offered by the Bank meet these criteria, they are classified as financial assets measured at amortised cost. In the event of changes in product features or the introduction of new products, their classification may be reassessed in accordance with the principles set out in the relevant section of the report.

Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Interest Rate (internal rate of return) Method".

Foreign currency indexed loans are converted into TL from the foreign currency rate as of the opening date and followed in TL accounts. Repayments are measured with the foreign currency rate at the payment date, the foreign currency gains and losses are reflected to the statement of income.

Foreign exchange gains and losses on the foreign currency indexed loans are presented under foreign exchange gains and losses in the statement of income.

Restructuring and refinancing of financial instruments

When a borrower is unable to repay a loan or is likely to face repayment difficulties, the Bank may modify the original loan terms (maturity, repayment structure, collaterals, and guarantees) according to the debtor's new financial capacity and structure. Restructuring refers to modifications of the financial terms of existing loans to facilitate repayment. Refinancing refers to the provision of a new loan by the Bank to cover one or more existing loans, fully or partially, due to the expected or actual financial difficulties of the client or group. Changes to the original loan conditions may be implemented either within the existing contract or through a new agreement.

Corporate and commercial loans that have been restructured or refinanced can be removed from watch list monitoring if the following conditions are met:

- After a comprehensive review of the firm's financial statements and the shareholders' equity position, it is determined that the firm owner is not expected to face financial difficulty and is capable of timely repayment of all principal and interest installments due as of the restructuring date.

- At least two years have passed from the restructuring or refinancing date, or from the date the loan was removed from the non-performing loans category (if later), and at least 10% of the restructured/refinanced principal (or the rate specified by regulations) has been repaid, with all outstanding amounts (principal and interest) settled during the restructuring/refinancing.

VII. Explanations on Financial Assets (continued)

Restructuring and refinancing of financial instruments (continued)

Corporate and commercial loans can be reclassified from non-performing to watch list if all the following conditions are met:

- The debtor's repayment capacity has improved.

- At least one year has passed since the restructuring date.

- The debtor has made all overdue payments (principal and interest) accrued after the restructuring/refinancing date or the date of classification as non-performing, whichever is earlier.

- Overdue payments have been collected, the reasons for non-performing classification have been removed, and there is no delay exceeding 30 days as of the reclassification date.

During a minimum follow-up period of two years from the restructuring/refinancing date, if a new restructuring/refinancing occurs or there is a delay exceeding 30 days, the transactions that were previously non-performing are reclassified as non-performing.

For restructured or refinanced retail loans, both performing and non-performing, they can only be removed from watch list monitoring upon full repayment of the loan.

Derecognition of Financial Assets/Liabilities

Derecognition Due to Changes in Contractual Terms

Under TFRS 9, the restructuring or modification of the contractual cash flows of a financial instrument may result in the derecognition of the existing financial asset. When a modification leads to the derecognition of the original financial asset and the subsequent recognition of a modified financial asset, the modified financial asset is considered a "new" financial asset for TFRS 9 purposes.

The Bank evaluates the characteristics of the new contractual terms both qualitatively and quantitatively.

If the contractual cash flows of a financial asset are modified or otherwise restructured but the modification does not result in derecognition, the gross carrying amount of the financial asset is recalculated. Any gain or loss arising from such restructuring is recognized in profit or loss if a significant change is identified.

Derecognition of a Financial Asset:

Before evaluating whether, and to what extent, derecognition is appropriate, the Bank determines whether those criteria should be applied to a part of a financial asset (or a part of a group of similar financial assets) or a financial asset (or a group of similar financial assets) in its entirety. Criteria is applied to a part of financial asset (or a part of a group of similar financial assets) if, and only if, the part being considered for derecognition meets one of the following three conditions: (i) The part comprises only specifically identified cash flows from a financial asset (or a group of similar financial assets) (ii) The part comprises only a fully proportionate (pro rata) share of the cash flows from a financial asset (or a group of similar financial assets) (iii) The part comprises only a fully proportionate (pro rata) share of specifically identified cash flows from a financial asset (or a group of similar financial assets).

A financial asset (or, a part of a financial asset or a part of group of financial assets, where appropriate) is derecognized when, and only when,

- The contractual rights to the cash flows from the financial asset expire; or
- The contractual rights to the cash flows from the financial asset are transferred; or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in the arrangement without material delay and:
- If the entity transfers substantially all the risks and rewards of ownership of the financial asset or,
- If the entity neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, whether it has retained control of the financial asset.

VII. Explanations on Financial Assets (continued)

Derecognition of Financial Assets/Liabilities (continued)

If the Bank transfers the contractual rights to the cash flows from the financial asset, or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in the arrangement without material delay and if the Bank neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, the entity shall determine whether it has retained control of the financial asset and it shall continue to recognize the financial asset to the extent of its continuing involvement in the financial asset. In this case, the entity also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the entity has retained.

The Bank has evaluated the non-performing loan portfolio of which contractual rights are transferred to the asset management companies, in the context of above statements and derecognizes the loans that are subject to agreements in which all risks and rewards are transferred to the buyer.

Derecognition of Financial Liabilities

A financial liability (or part of a financial liability) is derecognized only when it is extinguished, i.e., when the obligation specified in the contract is fulfilled, canceled, or expired.

VIII. Explanations on Expected Credit Losses

As of 1 January 2018, a loss allowance for expected credit losses is provided by Bank for all financial assets measured at amortized cost and financial assets measured at fair value through other comprehensive income, all financial assets which are not measured at fair value through profit or loss, commitments and financial guarantee contracts in accordance with TFRS 9 International Financial Reporting Standard and "Regulation on Procedures and Principles for Classification of Loans and Provisions to be Set Aside" published in the Official Gazette No. 29750 dated 22 June 2016. Equity instruments are not subject to impairment assessment as they are measured at fair value.
Expected credit losses include a probability-weighted amount that is determined by evaluating a range of possible outcomes; reasonable and supportable information that are current conditions and forecasts of future economic conditions and the time value of money.

The financial assets are divided into three categories depending on the gradual increase in credit risk observed since their initial recognition:

Stage 1:

They are financial assets that do not have a significant increase in credit risk at initial recognition or since initial recognition. Loss allowance for impairment of credit risk for these assets is recorded in the amount of 12-month expected credit loss.

Stage 2:

In the case of a significant increase in credit risk since initial recognition the financial asset is transferred to Stage 2. Loss allowance for impairment of credit risk is determined on the basis of the instrument's lifetime expected credit losses.

Stage 3 (Default):

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. In the calculation of expected credit losses, probability of default is considered as 100%. In determining the impairment, the Bank considers the following criteria:

- Delinquency in interest and/or principal payments by more than 90 days.
- Having the opinion that collection of principal and /or interest will be past due more than 90 days from its maturity or due date due to reasons such as having problems in the financing operating capital or creating additional liquidity due to unfavourable developments in macroeconomic conditions or in the sectors the debtor operates or, independent from all, due to adverse developments peculiar to the debtor.

VIII. Explanations on Expected Credit Losses (continued)

The collections made based on provision provided for loans in the current period are deducted from "Expected Credit Losses" account in income statement, and the principal collections made in respect of loans that have been provision set aside in the previous periods or write-off exposures under off-balance sheet are recognized under "Other Operating Income" account.

Significant Increase in Credit Risk

The Bank performs qualitative and quantitative assessments for the determination of financial assets that will be classified as Stage 2 due to the significant increase in credit risk.

Quantitative Assessment

In the quantitative assessment, the Bank compares the credit rating (grade) at the time of loan origination with the credit rating as of the reporting date to determine whether there has been a significant increase in credit risk. During this comparison, segment- and maturity-specific significant increase in credit risk thresholds are taken into account.

If the credit rating as of the reporting date exceeds the threshold rating defined for the relevant loan, the loan is classified as Stage 2.

Qualitative Assessment

Within the scope of qualitative assessments, if any of the following criteria occurs; the related financial asset would be considered as Stage 2:

- Receivables for which principal and/or interest payments are overdue by more than 30 days but not exceeding 90 days from their due dates or payment due dates.
- Watchlist exposures,
- Forborne exposures,
- The other retail exposures which belong to an obligor who has a retail exposure that is classified as non-performing loans.

Measurement of Expected Credit Losses

The Bank calculates expected credit losses with a weighted estimate of the probabilities of credit losses over the expected life of the financial instrument. The parameters that are subject to the expected credit loss calculation are given below.

Exposure at Default (EAD): The EAD represents the incurred amortized cost for cash obligations as of reporting date. It refers to the value calculated through credit conversion factors for non-cash loans and commitments.

Credit Conversion Factor (CCF): As of the reporting date, CCF corresponds to the rate used to convert non-cash loans and commitments to loan equivalents. The Bank uses the conversion rates based on the statistical internal models developed by considering the historical data on the basis of products.

Loss Given Default (LGD): LGD is the ratio of the Bank's net economic loss in the event of default to the exposure at default. LGD is one of the main components of Expected Credit Loss (ECL) together with Probability of Default (PD) and Exposure at Default (EAD). The Bank uses the Workout LGD methodology based on realized recoveries for its non-retail credit portfolio. Recovery curves and collateral effects are taken into account, and different LGD models are applied for different segments. For retail loans, product-based historical loss rates are used. For Banks and Financial Institutions, LGD is taken as 45% in accordance with the Basel II Standardized Approach for capital adequacy.

Collateral and guarantees are the main factors that increase recovery rates and therefore reduce LGD. The Bank models collateral by considering their nature, liquidity, legal enforceability and effectiveness in collection processes.

VIII. Explanations on Expected Credit Losses (continued)

Measurement of Expected Credit Losses (continued)

Probability of Default (PD): PD represent the likelihood of default over a specified time period. Based on TFRS 9, the Bank uses two different PDs in order to calculate expected credit losses:

- 12-month PD: as the estimated probability of default occurring within the next 12 months following the reporting date.
- Lifetime PD: as the estimated probability of default occurring over the remaining life of the financial instrument.

The Bank divides its non-retail portfolio into Corporate, Medium and Small segments and uses 6 different internal rating models in total. In internal TFRS9 rating models that include the Corporate and Medium segments, the customer's financial information includes the results of internal and external behavioral information. In the internal rating model, which includes the Small segment, it includes the results of the customer's internal and external behavioral information. PD calculations are performed by considering historical data and current conditions. For retail portfolio, the cumulative multiplication of the 12-month averages of the roll rates for each delinquency cluster on the basis of products that are sharing common characteristics is considered as PD.

When expected credit losses are estimated, the Bank considers three scenarios (base, pessimistic and optimistic) to determine PIT PDs. Scenarios are reviewed at least once a year and revised if necessary. Each scenario has its own probability of occurrence. The weighted average of the scenarios results according to their realization probabilities determines the PIT PD on the basis of each segment. ECL calculations are made over these determined PIT PDs.

If the loan is classified as Stage 1, the loss amount is considered as the expected loss in the first 12 months. The bank calculates the 12-month expected credit loss based on an expectation of default that is likely to occur in the 12 months following the reporting date. 12-month expected credit losses are calculated by multiplying the estimated default amounts at each cash flow date by the marginal default probabilities and the loss at default rate, and then discounting the effective interest rate of the loan from the relevant date to the present.

If the loan is classified under Stage 2, expected credit losses are calculated by considering lifetime. The expected credit loss measurement, including the use of forward-looking macroeconomic scenarios is similar to that described above however the probability of default is estimate lifetime of the financial instrument.

The Bank applies an individual assessment methodology for the provisioning calculations of Stage 2 loans, in line with its established criteria. The provision amount is determined by discounting expected recoveries undergoing Concern and Gone Concern scenarios using the effective interest rate and consolidating these based on scenario weightings.

In accordance with TFRS 9, the Bank set aside provision for Stage 3 in the calculation of expected credit losses in accordance with internal policies. The Bank makes this calculation by using default LGD rates that increase according to the time spent in default for companies below a certain threshold value, and by discounting the collection expectations individually for the financial instrument to its present value with the internal rate of return for the companies above this threshold.

For retail products sharing similar credit risk characteristics, a collective approach is used for ECL measurement. In making this calculation, the Bank takes into consideration the transition rates between the clusters in the thirty-day intervals past due of the financial assets sharing the similar credit risk characteristics as of the end of the month. The probability of loss for related cluster is calculated by multiplying the average of the 12-month transition rates corresponding to each cluster with the average of the 12-month transition rates of afterthought clusters. The outstanding balance per cluster is multiplied by the probability of loss, LGD and weighted average remaining maturity. Finally, expected credit loss is computed by applying the respective impact from the forward looking model which accounts for 3 probability weighted scenarios considering the stage and the remaining maturity of the retail product.

VIII. Explanations on Expected Credit Losses (continued)

The Bank updates TFRS 9 models at least once a year in accordance with its internal policies. The relevant model update was performed in the fourth quarter of 2025, and the expected credit loss provisions are calculated using the updated model.

Approaches to Determine Forward Looking Economic Scenario

As mentioned above, by using scenarios linked to macroeconomic factors, the impact of future expectations for the individual portfolio is included in the calculation of expected credit losses. The macroeconomic indicators that make up these forecast models are Gross Domestic Product (GDP) and unemployment for the individual segment, and only GDP rates for the non-individual segments. The macroeconomic forecast model includes more than one scenario, and the weighted averages of the relevant scenarios are reflected in the expected loss calculation for the individual segment and in the PIT PD for non-individual segments.

The Bank considers different scenarios in the calculation of expected credit losses by evaluating current economic conditions and expert judgments. Accordingly, the macroeconomic forecast values considered in the calculation of expected credit loss provisions have been updated as of 31 December 2025 and are presented below.

Date	GDP
2026	3,85%
2027	4,35%
2028	4,45%

Financial Assets Measured at Fair Value through Other Comprehensive Income (FVOCI)

As of 1 January 2018, The Bank applied the impairment requirements for the recognition and measurement of a loss allowance for financial assets that are measured at fair value through other comprehensive income in accordance with TFRS 9 principles. However, the loss allowance is recognised in other comprehensive income and does not reduce the carrying amount of the financial asset in the statement of financial position.

When the related financial asset is de-recognised from the financial statement, the loss allowance for expected credit losses previously reflected to the other comprehensive income is classified under the profit-loss statement.

Low Credit Risk

The definition of low credit risk is applied to banks, financial institutions, and central governments that are rated as investment grade or higher by external credit rating agencies and are therefore considered to have low credit risk. Such financial instruments are classified as Stage 1 under all circumstances. This definition also includes financial instruments whose credit ratings have deteriorated between the origination and reporting dates but continue to be rated as investment grade or higher as of the reporting date.

Explanations on the Write-off Policy

Within the scope of the "Regulation on the Amendment of the Regulation on the Procedures and Principles for the Classification of Loans and Provisions to be Set Aside for These Loans," which was published in the Official Gazette dated 27 November 2019 and numbered 30961 and entered into force, the Bank may derecognize the portion of its loans classified as "Group V – Loss Loans" for which there is no reasonable expectation of recovery. In determining whether a reasonable expectation of recovery exists, the Bank performs both objective and subjective assessments.

For the portions of loans for which collection is not expected, expected credit loss allowances are recognized in accordance with TFRS 9. Accordingly, the portions of loans that are deemed to have no reasonable expectation of recovery and that are currently monitored by the Bank under the classification of "Group V – Loss Loans" are subject to write-off up to the amount of the related allowance set aside.

IX. Explanations on Offsetting of Financial Instruments

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and the intention of collecting or paying the net amount of related assets and liabilities or the right to offset the assets and liabilities simultaneously. Otherwise, there is not any offsetting transaction about financial assets and liabilities.

X. Explanations on Sales and Repurchase Agreements and Lending of Securities

The sales and purchase of government securities under repurchase agreements made with the customers are being recorded in balance sheet accounts in accordance with the Uniform Chart of Accounts. Accordingly in the financial statements, the government bonds and treasury bills sold to customers under repurchase agreements are classified under financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and financial assets measured at amortized cost depending on the portfolio they are originally included in and are valued according to the valuation principles of the related portfolios. Funds obtained from repurchase agreements are classified as a separate sub-account under money markets borrowings account in the liabilities.

Funds given against securities purchased under agreements to resell ("reverse repo") are accounted under "Receivables from reverse repurchase agreements" on the balance sheet. The difference between the purchase and determined re-sell price is accrued over the life of repurchase agreements.

The income and expenses from these transactions are reflected to the "Interest Income on Marketable Securities" and "Interest Expense on Money Market Borrowings" accounts in the income statement.

XI. Explanations on Assets Held for Sale and Discontinued Operations

Property and equipment held-for-sale consist of tangible assets that were acquired due to non-performing receivables and are accounted in the unconsolidated financial statements in accordance with the regulations of "Turkish Financial Reporting Standard for Assets Held for Sale and Discontinued Operations (TFRS 5)".

A non-current asset (or disposal group) classified as held for sale is measured at the lower of its carrying amount and fair value less costs to sell. For an asset to be classified as held for sale, the asset (or disposal group) must be available for immediate sale in its present condition subject to terms that are usual and customary for sales of such assets, and its sale must be highly probable. For the sale to be highly probable, a plan to sell the asset must have been made by an appropriate level of management, and an active program to locate buyers and complete the plan must have been initiated. Furthermore, the asset must be actively marketed at a price consistent with its fair value.

Various events or circumstances may extend the completion time of the sale transaction beyond one year. Assets are continued to be classified as held for sale if there is sufficient evidence that the delay is due to events or conditions beyond the Bank's control and that the Bank's plan to sell the related asset (or disposal group) is in progress.

A discontinued operation is a division of a business that is classified as disposed or held for sale. The results related to discontinuing operations are presented separately in the profit or loss statement. As of 30 September 2026 and 31 December 2025 the Bank does not have any discontinued operations.

XII. Explanations on Goodwill and Other Intangible Assets

There is no goodwill regarding the investments in associates and subsidiaries.

Other intangible assets are accounted for at cost less accumulated amortization. Other intangible assets are amortized with straight-line method based on their economic lives. There have been no changes in the amortization calculation method during the current period.

Computer software purchased from third parties is classified under intangible rights and presented within other intangible assets.

XIII. Explanations on Tangible Fixed Assets

Tangible fixed assets are accounted for at acquisition cost less accumulated depreciation.

Depreciation of assets held less than one year as of the balance sheet date is accounted for proportionately. Depreciation method has not changed in the current period. The annual rates used, which approximate rates based on the estimated economic useful lives of the related assets, are as follows:

	%
Buildings	2
Safety box	2-13
ATM	10
Furniture, fixtures and others	7-33
Office equipment's	10-25

Gain or loss resulting from disposals of the tangible fixed assets is reflected to the income statement as the difference between the net proceeds and net book value.

Normal maintenance and repair cost of the properties are expensed.

There is no pledge, mortgage, or any other lien on tangible fixed assets.

Branches, service buildings and vehicles subject to operational lease are accounted in accordance with TFRS 16 as of 1 January 2019.

At the commencement date, the Bank measures the right-of-use asset in accordance with TFRS 16. The depreciation requirements in TAS 16 Property, Plant and Equipment is applied in depreciating real assets considered as right-of-use asset. Amortization calculation considers the length of contract as useful lifetime.

The amortization expenses related to operational leases subject to TFRS 16 are recorded in profit/loss table under amortization expenses of tangible asset.

The Bank has changed its accounting policy for the measurement of real estates recognized under tangible assets from the cost model to the revaluation model in accordance with TAS 16 "Property, Plant and Equipment". The revaluation surplus arising from the valuation performed by appraisal firms licensed by the Capital Markets Board ("CMB") and the Banking Regulation and Supervision Agency ("BRSA") was recognized under equity, in the "Other Accumulated Comprehensive Income or Expense Not to be Reclassified to Profit or Loss" account.

XIV. Explanations on Leasing Transactions

Tangible assets acquired through financial leasing are recognized as assets and the related liabilities as lease payables in assets and liabilities, respectively. Financial costs on leasing agreements are distributed throughout the lease periods at fixed interest rates. Interest expenses and foreign exchange losses related with financial leasing are accounted in income statement. Depreciation for assets acquired through financial leases is calculated consistently with the same principle as for the tangible assets.

As of the balance sheet date, the Bank does not have authorization for any financial leasing transactions as lessor.

Disclosures of TFRS 16

Bank- lessee:

The Bank assesses whether the contract has the quality of a lease or whether the lease includes the transaction at the beginning of a contract. In case the contract is transferred for a certain period of time to control the use of the asset defined for a price, it is either leased or includes a lease. The Bank reflects the existence of a right of use and a lease liability to the financial statements at the effective date of the lease.

Right of use assets:

The right to use asset is first recognized by cost method and includes:

a) The initial measurement amount of the lease obligation,

b) The amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease;

c) All initial direct costs incurred by the Bank and

When Bank applying the cost method, the existence of the right to use:

a) Accumulated depreciation and accumulated impairment losses are deducted and

b) Measures the restatement of the lease obligation at the restated cost.

TAS 16 Impairment of Assets is applied to determine whether the real estates considered as right-of-use assets are impaired and to account for any impairment loss identified.

The Lease Obligations:

At the effective date of the lease, the Bank measures its leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the Bank's average borrowing interest rates.

The lease payments included in the measurement of the lease liability consist of the payments to be made for the right of use during the lease term of the underlying asset and the unpaid payments at the effective date of the lease.

After the effective date of the lease, the Bank measures the leasing liability as follows:

a) Increase the book value to reflect the interest on the lease obligation

b) Reduces the book value to reflect the lease payments made and

c) The book value is measured to reflect reassessments and restructuring or reflect to fixed lease payments as of revised nature.

The interest on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic interest rate to the remaining balance of the lease liability.

XV. Explanations on Provisions and Contingent Liabilities

Provisions are recognized when there is a present obligation due to a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by using the Bank's best expectation of expenses in fulfilling the obligation and discounted to present value if material.

XVI. Explanations on Liabilities Regarding Employee Benefits

In accordance with the existing labor law, the Bank is required to make lump-sum termination indemnities to each employee who has completed over one year of service and whose employment is terminated due to retirement or for reasons other than resignation and misconduct.

The Bank has calculated provision for employee severance benefits in the accompanying financial statements in accordance with TAS 19 "Employee Benefits" by using the "Projection Method" based on their past experiences in the issues of completion of personnel service period and severance pay eligibility and discounted the total provision by using the current market yield at the balance sheet date.

The Bank has no retirement fund or foundation of which its employees are members.

Defined Contribution Plans:

The Bank pays contributions to the Social Security Institution of Turkey on a mandatory basis. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due.

Short-term Employee Benefits:
In accordance with TAS 19 "Turkish Accounting Standard on Employee Benefits"; defined liabilities that arise from unused leave payments are accrued in the related period and are not discounted.

XVII. Explanations on Taxation

Corporate Tax:

The Bank are subject to the tax legislation and practices in force in Türkiye. Corporate income tax is declared by the evening of the last day of the fourth month following the end of the relevant accounting period and is paid in a single installment by the end of that month. Companies are required to calculate provisional tax on their financial profits realized in quarterly periods using the applicable tax rate, declare it by the 17th day of the second month following the relevant period, and pay it by the evening of the same day. Provisional taxes paid during the year are offset against the corporate income tax calculated on the annual corporate income tax return for that year. If there remains an amount of provisional tax paid despite the offset, such amount may be refunded in cash or offset against other financial liabilities.

In Türkiye, the commercial profit of companies is subject to corporate income tax based on the statutory tax base calculated by adding non-deductible expenses as required by tax legislation and deducting the exemptions and deductions stipulated in tax legislation. The general corporate income tax rate applied to this tax base is 30% for banks, companies within the scope of Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, as well as insurance and reinsurance companies and pension companies, for profits earned in the 2023 fiscal year and subsequent taxation periods. Accordingly, while the Bank used a tax rate of 30% in the calculation of current period tax and deferred tax for 2026 (December 31, 2025: 30%).

In addition, pursuant to Article 32/C added to the Corporate Income Tax Law, for profits earned in the 2025 fiscal year and subsequent taxation periods, the corporate income tax calculated by taking into account Articles 32 and 32/A of the Corporate Income Tax Law may not be less than 10% of the corporate income before deductions and exemptions. The effects of this regulation on the current period tax expense and on the assessment of the recoverability of deferred tax assets are taken into consideration.

With the General Communiqué on Tax Procedure Law No. 555 published in the Official Gazette (2nd Repetitive) dated December 30, 2023 and numbered 32415, pursuant to Article 298 (repeated) of the Tax Procedure Law No. 213, it became mandatory for enterprises operating in Türkiye to apply inflation accounting to their financial statements prepared under tax legislation for the 2023 accounting period. These inflation-adjusted financial statements were taken as the opening balance sheets of the financial statements prepared under tax legislation for tax returns prepared as of January 1, 2024. Accordingly, the Bank's financial statements prepared for tax purposes have been subject to inflation adjustment starting from the 2023 accounting period.

XVII. Explanations on Taxation (continued)

Corporate Tax (continued)

However, according to Article 17 of Law No. 7491 titled "Law on Amendments to Certain Laws and Decree Laws," published in the Official Gazette dated December 28, 2023 and numbered 32413, it has been enacted that profit/loss differences arising from inflation adjustments to be made in the 2024 and 2025 accounting periods, including provisional tax periods, by banks, companies within the scope of the Financial Leasing, Factoring, Financing and Savings Financing Companies Law No. 6361 dated November 21, 2012, payment and electronic money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, as well as insurance and reinsurance companies and pension companies, shall not be taken into account in the determination of taxable income. Therefore, no current period tax expense arose from the application of inflation accounting in the relevant periods.

Furthermore, pursuant to Provisional Article 37 added to the Tax Procedure Law and published in the Official Gazette dated December 25, 2025 and numbered 33118, financial statements prepared under tax legislation shall not be subject to inflation adjustment in the 2025 accounting period as well as in the 2026 and 2027 accounting periods, including provisional tax periods, regardless of whether the conditions for inflation adjustment are met. In these periods, pursuant to paragraph (Ç) of Article 298 (repeated) of the Tax Procedure Law, depreciable assets included in financial statements prepared under tax legislation and the accumulated depreciation related thereto included in the liabilities of such financial statements may be subject to revaluation for tax purposes. If the value increase amounts arising from such revaluation are transferred to any other account in any manner other than being added to capital or withdrawn from the business, such portions shall be subject to income or corporate income tax in the current period, without being associated with the income of the period in which the transaction is made. The Bank benefited from the relevant revaluation opportunity in its financial statements as of September 30, 2026 and December 31, 2025.

Tax legislation in Türkiye does not allow the Company and its subsidiaries to file a consolidated tax return. Therefore, the tax provision reflected in the financial statements has been calculated separately on a company-by-company basis.

According to the Corporate Income Tax Law, tax losses shown on the tax return may be offset against the corporate income tax base of the period, provided that they do not exceed five years. There is no practice of reaching a settlement with the tax authority regarding taxes payable in Türkiye. Authorities authorized to conduct tax audits may examine tax returns and the underlying accounting records for a period of five years following the accounting period and may make additional tax assessments based on their findings.

Dividend payments made by resident joint stock companies in Türkiye to parties other than those exempt from or not liable for corporate income tax and income tax, as well as to resident and non-resident individuals and non-resident legal entities, are subject to a 15% withholding tax. Dividend distributions are subject to withholding tax, which is declared in the period in which the dividend is paid in cash or on account.

Dividend payments made by resident joint stock companies in Türkiye to other resident joint stock companies in Türkiye are not subject to income tax. In addition, no income tax is calculated if profits are not distributed or are added to capital.

In the application of withholding tax rates on profit distributions made to non-resident corporations and individuals, the withholding tax rates stipulated in the relevant Double Taxation Avoidance Agreements are also taken into consideration.

Dividend income derived by corporations from participation in the capital of another fully liable corporation is exempt from corporate income tax. In addition, 50% of the gains arising from the sale of participation shares that have been held in the assets of corporations for at least two full years, as well as founder's shares, usufruct certificates, pre-emptive rights held for the same period, and participation units of investment funds that fall within the scope of income exemptions under the Corporate Income Tax Law, are exempt from corporate income tax. Likewise, 50% of the gains arising from the sale of immovable properties (real estate) held for the same period, together with founder's shares, usufruct certificates, and pre-emptive rights related thereto, were exempt from corporate income tax. However, with the amendment made as of July 15, 2023, the 50% tax exemption stipulated in the Corporate Income Tax Law for gains from the sale of immovable properties has been abolished. Nevertheless, this exemption will be applied at a rate of 25% for the sale of immovable properties that were included in the assets of enterprises before July 15, 2023.

XVII. Explanations on Taxation (continued)

Corporate Tax (continued)

In order to benefit from the exemption, the relevant gain must be retained in a special fund account in the liabilities section of the financial statements prepared under tax legislation and must not be withdrawn from the business for a period of five years. The relevant gain may be added to capital within this period. The sales proceeds must be collected by the end of the second calendar year following the year in which the sale takes place.

Transfer Pricing Regulations

In Türkiye, transfer pricing regulations are set out in Article 13 of the Corporate Income Tax Law titled "Disguised Profit Distribution through Transfer Pricing." The Communiqué dated November 18, 2007 regulates the details of the application regarding disguised profit distribution through transfer pricing.

If a taxpayer purchases or sells goods or services with related parties at prices or amounts determined in violation of the arm's length principle, the profit shall be deemed to have been distributed wholly or partially in a disguised manner through transfer pricing. Such disguised profit distribution through transfer pricing is not deductible in determining corporate income for corporate income tax purposes and is considered as distributed dividends.

Deferred Tax Liability / Asset:

The Bank calculates and reflects deferred tax asset or liability on timing differences which will result in taxable or deductible amounts in determining taxable profit of future periods.

In accordance with TAS 12 "Turkish Accounting Standard on Income Taxes" the Bank calculates deferred tax asset on carry forward tax losses and all deductible temporary differences, if sufficient taxable profit within five-year period to recover such amounts is probable; as well as deferred tax liability on all taxable temporary differences.

The book value of the deferred tax asset is reviewed at the end of each reporting period. The book value of a deferred tax asset is reduced to the extent that it is no longer probable that sufficient financial profit will be available to allow the benefit of part or all of the deferred tax asset to be obtained.

If the deferred tax transactions and other issues are recognized (accounted) in profit and loss, related tax effects are recognized in profit and loss. On the other hand, if the deferred tax transactions and other issues are recognized (accounted) in equity accounts, related tax effects are also recognized (accounted) in equity accounts.

Deferred tax assets and liabilities are reflected in the accompanying financial statements on a net basis.

The net deferred tax asset is included in deferred tax asset and the net deferred tax liability is reflected under deferred tax liability on the balance sheet.

In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date.

XVIII. Additional Explanations on Borrowings

The borrowing costs related to purchase, production, or construction of qualifying assets that require significant time to be prepared for use and sale are included in the cost of assets until the relevant assets become ready to be used or to be sold. Financial investment income obtained by temporary placement of undisbursed investment loan in financial investments is offset against borrowing costs qualified for capitalization.

All other borrowing costs are recorded to the income statement in the period they are incurred.

The Bank has not issued convertible bonds.

XIX. Explanations on Issued Share Certificates

Direct transaction costs related to issuance of stock certificates are recognized as discount from equity.

XX. Explanations on Avalized Drafts and Acceptances

Avalized draft and acceptances are realized simultaneously with the payment dates of the customers and they are presented as probable commitments in off-balance sheet accounts.

XXI. Explanations on Government Incentives

There are no government incentives utilized by the Bank.

XXII. Explanations on Segment Reporting

Reporting according to the operational segment is presented in Note VIII of Section Four.

XXIII. Explanations on Reclassifications

None.

XXIV. Related Parties

For the purpose of these financial statements, shareholders of the Bank, key management personnel and board members together with their families and companies controlled by/subsidiary with them, associated companies and joint ventures and the Fund providing post-employment benefits are considered and referred to as related parties in accordance with TAS 24 "Related Parties".

The transactions with related parties are disclosed in detail in Note VII of Section Five.

XXV. Cash and Cash Equivalents

For the purposes of preparing the cash flow statements, "Cash" is defined as cash on hand, cash in vaults, cash in transit, purchased bank drafts, and demand deposits held at banks, including the Central Bank of the Republic of Türkiye. "Cash equivalents" are defined as interbank money market placements with original maturities of less than three months, time deposits held at banks, and investments in marketable securities other than equities.

XXVI. Explanations on Other Disclosures

None.

SECTION FOUR

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK

I. Explanations on Equity

As of 30 September 2026, Bank's total capital (tier I capital and tier II capital) has been calculated as TL 9.472 and capital adequacy ratio is 9,53%. As of 31 December 2025, Bank's total capital (tier I capital and tier II capital) amounted to TL 9.843 and capital adequacy ratio was 16,29%. These ratios are above the minimum ratio required by the legislation.

(*) At the Ordinary General Assembly meeting held on March 26, 2026, it was decided to offset the Bank's net loss of TL 1.868 for 2025 from the Extraordinary Reserves.

(**) Subordinated debt instruments included in Tier 2 capital with a remaining maturity of less than five years are discounted by 20% per year for Tier 2 capitalcalculation purposes. Taking into account the maturity date of August 2027, the Bank's subordinated debt instruments were not included in the Tier 2 capital calculation after 100% amortization.

Information on the reconciliation of Total Capital and Shareholders' Equity:

The difference between the total equity amount that forms the basis for the capital adequacy calculation and the "Equity" amount in the non-consolidated balance sheet primarily arises from expected credit loss provisions (for Stage I and Stage II loans) and subordinated loans. As stated in Article 8 of the Regulation on Banks' Equity, up to 1.25% of the First and Second Stage Loan Loss Provisions, based on the credit risk weighted assets, is included in the calculation of Total Capital. Additionally, the nominal amount of subordinated loans is considered as Tier II Capital, with the remaining amount reduced by 100% until the maturity is less than 5 years, and by 20% for each year under 5 years. Furthermore, as per the Regulation, the balances of leasehold improvement costs (presented under Tangible Assets) and Intangible Fixed Assets in the balance sheet are deducted from core equity in the calculation of capital adequacy.

If convertible, specify issuer of instrument it converts into	None
Write-down feature	Yes
If write-down, write-down trigger(s)	Due to the losses incurred, where the Bank is at the point at which the BRSA may determine pursuant to Article 71 of the Banking Law that: (1) its operating license is to be revoked and the Bank is liquidated or (2) the rights of all of its shareholders (except to dividends), and the management and supervision of the Bank, are to be transferred to the SDIF on the condition that losses are deducted from the capital of existing shareholders (occurrence of either condition means the issuer has become non-viable), or (3) it is probable that the Issuer will become non-viable; then the bonds can be written-down
If write-down, full or partial	Fully or partially
If write-down, permanent or temporary	Permanent
If temporary write-down, description of write-up mechanism	There are no any temporary write-up mechanisms.
Position in subordination hierarchy in liquidation (specify instrument type immediately senior to instrument)	In priority of receivables, it comes after the debt instruments which are nonsubordinated loans.
Whether the sub-loan agreement contains all the items stated within the article number 7 and 8 of "Own fund regulation" or not	The instrument is in compliance with article number 8.
Details of above mentioned items within article number 7 and 8 of "Own fund regulation"	The instrument is not in compliant with article numbered 7.

(*) As of most recent reporting date, the bank does not have participation or subsidiary company.

(**) Subordinated debt instruments included in Tier 2 capital with a remaining maturity of less than five years are discounted by 20% per year for Tier 2 capitalcalculation purposes. Taking into account the maturity date of August 2027, the Bank's subordinated debt instruments were not included in the Tier 2 capital calculation after 100% amortization.

(***) On 1 August 2017, the Bank issued Basel III compliant bonds with a maturity of 10 years and semi-annual coupon payments, amounting to USD 300 million, to be sold to real and legal persons residing abroad. According to the BRSA's letter dated 17 July 2017, the bond has been classified as Tier 2 capital (supplementary capital) in accordance with the Regulation on Banks' Equity. Pursuant to the approval of the BRSA with the letter dated 26 September 2018, the repurchase amount executed by the Bank stands at USD 25 million as of 30 September 2026.

(****) On August 1, 2022, the early pay option of the subordinated bond has not been exercised and the coupon interest for the coming periods has been set at 8,606%.

II. Explanations on Currency Risk

Foreign currency risk indicates the probability of loss that banks are subject to due to the exchange rate movements in the market. While calculating the share capital requirement, all foreign currency assets, liabilities and forward transactions of the Bank are taken into consideration and value at risk is calculated by using the standard method.

As of 30 September 2026, the Bank's net short position is TL 831 (31 December 2025: TL 816 net short position) resulting from short position on the balance sheet amounting to TL 20.784 (31 December 2025: TL 4.952 short position) and long position on the off-balance amounting to TL 19.953 (31 December 2025: TL 4.137 long position). The Bank uses "Standard Method" in legal reporting to measure the foreign exchange risk.

The Board of Directors sets limits for the positions and stop losses which are followed up daily and weekly. Any possible changes in the foreign currency transactions in the Bank's positions are also monitored.

The announced foreign exchange buying rates of the Bank at 30 September 2026 and the previous five working days in full TL are as follows (Bank's FC evaluation rates):

	23 September 2026	24 September 2026	25 September 2026	28 September 2026	29 September 2026	30 September 2026
USD	48,7931	48,8107	48,8309	48,9376	48,9555	48,9725
CHF	59,1532	58,9273	58,8927	58,8269	58,6925	58,6924
GBP	64,6902	64,5355	64,7142	64,9130	64,7605	65,0513
100 JPY	0,3083	0,3073	0,3108	0,3113	0,3109	0,3123
EURO	55,5977	55,5015	55,6632	55,6077	55,5223	55,6141

	24 December 2025	25 December 2025	26 December 2025	29 December 2025	30 December 2025	31 December 2025
USD	42,7829	42,8172	42,8211	42,9022	42,9089	42,9074
CHF	54,2696	54,3199	54,2912	54,3018	54,2979	54,1081
GBP	57,7797	57,8278	57,8799	57,8878	57,8882	57,7212

(*) Foreign currency indexed loans amounting to TL 3 are included in the loan portfolio. Expected loss provisions are considered.

(**) The foreign currency risk calculation is presented in accordance with the "Regulation on Foreign Currency Net General Position / Equity Standard Ratio Calculation and Implementation of Banks' on Consolidated and Non-Consolidated Basis" as published in the Official Gazette dated 1 November 2006 and numbered 26333 (FCNGP Regulation) and does not include all items in the financial statements.

(***) Subordinated loans are included.

(****) Does not affect net off-balance sheet position.

(*****) Expected Loss Provisions for the related items have been taken into account.

II. Explanations on Currency Risk (continued)

Foreign currency sensitivity:

The Bank holds EUR (Euro) and USD (US Dollars) currencies as a result of foreign currency transactions and manages it by using miscellaneous financial instruments.

As of 30 September 2026, the Bank's net foreign exchange exposure as per internal calculation is presented below:

30 September 2026	EURO	USD	OTHER FC	TOTAL
Net currency position including on-balance sheet and off-balance sheet	227	(1.547)	(45)	(1.365)

31 December 2025	EURO	USD	OTHER FC	TOTAL
Net currency position including on-balance sheet and off-balance sheet	22	(1.012)	(9)	(999)

The internal currency risk calculation includes derivative financial assets / liabilities, securities valuation differences and similar positions which are not included in the FCNGP Regulation of the BRSA and options are taken into account with their delta equivalents for internal currency risk management purposes.

BRSA's decision numbered 32039 dated 10 December 2022, the FCNGP Regulation was changed in a way that converges to the Bank's internal currency risk calculation, and the said amendment entered into force as of 9 January 2023.

The maximum and minimum positions presented in Other FC column of internal foreign exchange exposure calculation are TL 227 and TL (1.547) respectively (31 December 2025: TL 43 and TL (38)).

III. Explanations on Interest Rate Risk

Interest rate risk shows the probability of loss related to the changes in interest rates depending on the Bank's position, and it is managed by the Asset-Liability Committee. The interest rate sensitivity of assets, liabilities and off-balance sheet items related to this risk are measured by using the standard method and included in the market risk for capital adequacy.

Risk Management Group performs duration, maturity and sensitivity analysis to protect the effect of interest rate volatility and reported to the Asset-Liability Committee.

Simulations on interest income are performed in connection with the forecasted economic indicators used in the budget of the Bank. The negative effects of the fluctuations in the market interest rates on the financial position and the cash flows are minimized by revising budgeted targets.

The Bank management follows the market interest rates daily and revises the interest rates of the Bank whenever necessary.

Since the Bank monitors maturity mismatches very closely a significant interest rate risk exposure is not expected.

(**) Derivative financial assets are classified under other assets and expected loss provisions for other assets are netted off in other assets.

(***) The Bank, on August 1, 2017 issued the Basel III compliant, 10 years, USD 300 million bond to foreign domicile investors and with the permission of BRSA dated July 17, 2017, classified it as Tier II sub-loan. The Bank, pursuant to the approval of the BRSA on 26 September 2018, bought back USD 25 millions of Tier II sub-loan as of September 30, 2026, and the relevant amount has been deducted from the capital amount in the equity calculation. The Bank has not redeemed or cancelled the shares in circulation, thus selling back any portion of such amount at any time is completely at the Bank management's discretion. On August 1, 2022, the early pay option of the subordinated bond has not been exercised and the coupon interest for the coming periods has been set at 8,606%.

(****) Other obligations line includes shareholders' equity amounting to TL 14.701, tax liability of TL 1.549, provisions of TL 621, liabilities from lease transactions of TL 609, other liabilities amounting to TL 1.054 and derivative financial liabilities of TL 2.496.

IV. Explanations on Share Certificates Position Risk

The Bank has no outstanding share certificate position.

V. Explanations on Liquidity Risk Management, Liquidity Coverage Ratio and Net Stable Funding Ratio

Liquidity risk is a risk that occurs as a result of, not having cash in hand or cash inflow at a level and nature to meet cash outflow as a consequence of imbalance in cash flow in time and completely. Liquidity risk consists of sum of two main risk types; funding liquidity risk and market liquidity risk.

Management of the Bank's liquidity risk is carried out in scope of responsibilities of Board of Directors, Risk Committee of the Board, Assets and Liabilities Management Committee (ALCO), Risk Management Department and other business units which are members of ALCO.

Board of Directors has the ultimate responsibility concerning the liquidity risk and its management. Board of Directors also has the responsibility to determine liquidity risk appetite as a part of holistic risk appetite, evaluate and approve proposed limits, approve liquidity risk management policy and confirm changes regarding limit and confinement.

Risk Committee evaluates and approves short, medium and long term liquidity risk management strategies. Risk Committee also provides general adaptability of the Bank to principals and management procedures included in the management of the risk. Risk Committee reviews and evaluates liquidity risk reports periodically.

Assets and Liabilities Management Committee (ALCO) establishes short, medium and long term liquidity management strategies and evaluates the liquidity risk profile of the Bank and impacts of recently developed trends on the liquidity of the Bank through periodical meetings. ALCO makes a decision regarding the qualification of liquidity buffer of the Bank in line with risk appetite and liquidity strategy of the Bank. Additionally, ALCO reviews liquidity reports and feedbacks of the Risk Management, considers Treasury's opinions and action plans and informs Risk Committee and Board of Directors about the possible adverse conditions regarding liquidity and its material impacts.

Risk Management establishes liquidity risk management policy, determines liquidity risk limits and submits these policies and limits to the approval of Board of Directors. It also provides to measure and manage liquidity risk in the framework of risk appetite and limits approved by the Board of Directors. Risk management performs reporting to ALCO, Risk Committee and members of Board of Directors regarding adherence to risk appetite and limit excess. Additionally, risk management is also responsible to form and implement liquidity stress tests and share the results with the related parties.

Liquidity risk analysis and early warning signals are reported to the senior management periodically. Furthermore, all the analysis including regulatory and internal rates with respect to liquidity risk are reported to ALCO and limit and warning levels approved by the Board of Directors are monitored periodically and reported to related parties.

V. Explanations on Liquidity Risk Management, Liquidity Coverage Ratio and Net Stable Funding Ratio (continued)

Funding management of the Bank is carried out under the control of the Treasury and with the knowledge of ALCO. The Bank's funding strategy is intended to ensure sufficient liquidity and diversity of funding sources to meet actual and contingent liabilities through both normal and stress periods. A significant part of Bank's liquidity needs is met with deposits which represent the main funding source of the Bank. On the other hand, when it is deemed necessary, bond issuance and pre-financing products can be provided in addition to the aforementioned sources.

Almost all the liabilities of the Bank are denominated in TL, USD or EUR and the concentration risk in the funding sources is monitored closely. Concentration analysis related to deposits are performed and factors, which can deteriorate access to funding sources and trigger a sudden withdrawal of funds at a significant level, are analyzed.

Liquidity risk is closely monitored and managed in order to keep it at a level appropriate to risk appetite and liquidity risk management policies, by promoting diversification of funding sources, keeping high quality liquid assets and reduction or termination of activities causing limit excess.

In scope of the Liquidity Stress Test, the Bank monitors stress scenarios arising from internal and external factors and manages its high quality liquid assets, deposits, other balance sheet items generating cash outflows, loans and other cash inflows in that respect. There are designated risk limits for indicators. The compliance with the risk and the determined risk limits is shared with the Senior Management and the relevant business units and necessary actions are taken.

The Bank has established a Liquidity Emergency Action Plan to explain the actions that should be taken in possible liquidity tightness scenarios. In this context, normal market conditions and various stress levels are defined and action plans are created for each situation. In addition to the Emergency Action Plan, Basic Risk Indicators and Liquidity Early Warning Signals are defined within the scope of Liquidity Risk Management Policy and these indicators are regularly monitored.

The liquidity coverage ratios are calculated in accordance with the "Regulation on Liquidity Coverage Ratio Calculation of Banks" published in Official Gazette dated 21 March 2014 and numbered 28948. Liquidity coverage ratios should be at least 80% for foreign currency assets and liabilities and 100% for total assets and liabilities.

Liquidity coverage ratio is calculated by proportioning the high quality liquid assets owned by the bank to the net cash outflows in the one month maturity window. Important balance sheet items that determine the ratio can be listed as required reserves held at the CBRT, securities not subject to repo / collateral, deposits according to counterparty, securities taken as collateral with reverse repo, placements to banks and derivative transactions. Since these items have a high share in liquid assets and net cash outflows in terms of volume, their ratio of consideration is high and they may change over time, their effect on liquidity coverage ratio is higher than other items.

Although derivative transactions create a low amount of net cash flow in terms of total liquidity coverage ratio, fluctuations in foreign currency derivative transaction volumes may affect the foreign currency liquidity coverage ratio.

(*) Assets such as fixed assets, other assets, securities representing shares in the capital, current tax assets and non-performing loans are recorded Undistributed column

(**) The assets which are necessary to provide banking services and could not be liquidated in the short-term, such as fixed assets, investments in subsidiaries and associates, office stationery, and prepaid expenses are classified "Undistributed" column.

(***) The Bank, on August 1, 2017 issued the Basel III compliant, 10 year, USD 300 million bond to foreign domicile investors and with the permission of BRSA dated July 17, 2017, classified it as Tier II sub-loan. The Bank, pursuant to the approval of the BRSA on 26 September 2018, bought back USD 25 millions of Tier II sub-loan as of September 30, 2026, and the relevant amount has been deducted from the capital amount in the equity calculation. The Bank has not redeemed or cancelled the shares in circulation, thus selling back any portion of such amount at any time is completely at the Bank management's discretion. On August 1, 2022, the early pay option of the subordinated bond has not been exercised and the coupon interest for the coming periods has been set at 8,606%.

(****) Other obligations line includes shareholders' equity amounting to TL 14.701, tax liability of TL 1.549, provisions of TL 621, liabilities from lease transactions of TL 609, other liabilities amounting to TL 1.054 and derivative financial liabilities of TL 2.496.

V. Explanations on Liquidity Risk Management, Liquidity Coverage Ratio and Net Stable Funding Ratio (continued)

The net stable funding ratio is calculated by dividing the available stable funding amount by the required stable funding amount. The available stable funding represents the portion of a bank's liabilities and equity that is expected to be permanent, while the required stable funding refers to the portion of a bank's on-balance sheet assets and off-balance sheet liabilities that are expected to be refinanced. The main components of the available stable funding amount include equity elements, deposits by counterparty, securities subject to repurchase agreements, and borrowings by counterparty. The required funding amount primarily consists of securities portfolio, loans by counterparty and maturity, and placements with banks. Derivative products are considered based on their market values, and are accounted for as derivative assets/liabilities relative to the total current market value.

Net Stable Funding Ratio:

34	**Net Stable Funding Ratio (%)**					**118,85%**

Net stable funding ratio for the last three months including the reporting period was 166,92% (31 December 2025: 117,57%).

VI. Explanations on Leverage Ratio

Information on subjects that causes difference in leverage ratio between current and prior periods:

"Regulation on the Measurement and Evaluation of Banks Leverage Levels" regulates the procedures and principles regarding to ensure adequate capital at the consolidated and non-consolidated basis for exposure of possible risk of Banks. Leverage ratio of the Bank calculated amounting to 2,77% (31 December 2025:4,67%). According to Regulations, minimum leverage ratio is 3%.

Disclosure of Leverage ratio template:

		Current Period 30 September 2026(*)	Prior Period 31 December 2025 (*)
	Balance sheet transactions		
1	Balance sheet assets (excluding derivative financial assets and credit derivatives, including collaterals)	176.476	113.798
2	(Assets deducted from Core capital)	(5.794)	(3.239)
3	Total risk amount of balance sheet assets (sum of lines 1 and 2)	170.682	110.559
	Derivative financial assets and credit derivatives		
4	Cost of replenishment for derivative financial assets and credit derivatives	2.379	1.078
5	Potential credit risk amount of derivative financial assets and credit derivatives	-	-
6	Total risk amount of derivative financial assets and credit derivatives (sum of lines 4 and 5)	2.379	1.078
	Financing transactions secured by marketable security or commodity		
7	Risk amount of financing transactions secured by marketable security or commodity (excluding Balance sheet)	-	-
8	Risk amount arising from intermediary transactions	-	-
9	Total risk amount of financing transactions secured by marketable security or commodity (sum of lines 7 and 8)	-	-
	Off-balance sheet transactions		
10	Gross notional amount of off-balance sheet transactions	110.180	61.049
11	(Correction amount due to multiplication with credit conversion rates)	(19.951)	(16.432)
12	Total risk of off-balance sheet transactions (sum of lines 10 and 11)	90.229	44.617
	Capital and total risk		
13	Core Capital	7.308	7.266
14	Total risk amount(sum of lines 3, 6, 9 and 12)	263.290	156.254
	Leverage ratio		
15	Leverage ratio (**)	2,77	4,67

(*) The arithmetic average of the last 3 months in the related periods. Consequently, as of the end of August and September, the leverage ratio was calculated above the legal limit of 3%.

(**) With the BRSA's letter numbered E-32521522-101.01.04-168271 dated 14 October 2025, it has been deemed appropriate for our Bank to take into account the resource of TL 3,976 (USD 100 Million) under the "Other Liabilities" item in the Bank's Financial Position Statement in the calculation of common equity Tier1 capital within the scope of the Regulation on Equity of Banks, starting from 1 July 2025 until the capital increase is registered, based on the period-end exchange rate of 30.06.2025 Leverage ratio is calculated accordingly.

VII. Explanations on Risk Management

Notes and explanations in this section have been prepared in accordance with the Communiqué on Disclosures about Risk Management to Be Announced to Public by Banks that have been published in Official Gazette no. 29511 on 23 October 2015 and became effective as of 30 June 2016. According to Communiqué these notes have to be presented on a quarterly basis. Due to usage of standard approach for the calculation of capital adequacy by the Bank, the following tables have not been presented as of 30 September 2026:

- RWA flow statements of credit risk exposures under IRB
- RWA flow statements of CCR exposures under the Internal Model Method (IMM)
- RWA flow statements of market risk exposures under an IMA

a. Overview of RWA

		Risk Weighted Amount		Minimum Capital Requirement
		Current Period 30 September 2026	Prior Period 31 December 2025	Current Period 30 September 2026
1	Credit risk (excluding counterparty credit risk) (CCR)	83.446	50.730	6.676

VIII. Explanations on Segment Reporting

Organized to operate in all operational aspects of banking under the scope of 4th Article of the Banking Law, the Bank is providing diversified financial solutions focused on capital financing, foreign trade, project finance, non-cash products, cash management and internet banking services to commercial customers. Retail Banking, formed under three major divisions, namely, Retail Loans, Bank and Credit Cards and Wealth Management, serves to the financial needs of customers through branches, internet and mobile channels. Treasury and Capital Markets department is managing TL and FCY liquidity in healthy and sustainable manner, performing profit oriented trading activities in the market within the limits given by the Board. In addition, Treasury sales unit delivers pricing services of government bills and bonds, Eurobonds and derivatives to the Bank customers.

Current Period (1 January-30 September 2026)	**Retail Banking**	**Corporate & Commercial Banking**	**Treasury & Headquarters**	**Total Bank**

SECTION FIVE

INFORMATION AND DISCLOSURES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS

I. Explanations and Disclosures Related to the Assets

1. a) Information on Cash and Balances with the Central Bank of Turkey:

	30 September 2026		31 December 2025	
	TL	FC	TL	FC
Cash in TL/Foreign Currency	58	841	115	1.182
Balances with the Central Bank of Turkey	7.436	24.863	4.165	12.863
Other	-	-	-	-
Total	**7.494**	**25.704**	**4.280**	**14.045**

b) Information related to the account of the Central Bank of Turkey:

	30 September 2026		31 December 2025	
	TL	FC	TL	FC
Unrestricted Demand Deposit	5.306	8.330	4.006	4.725
Unrestricted Time Deposit	-	-	-	-
Restricted Time Deposit	2.130	16.533	159	8.138
Total	**7.436**	**24.863**	**4.165**	**12.863**

c) Explanations related to reserve deposits:

In accordance with the CBRT's 'Communique No. 2013/15 on Required Reserves', the Bank maintains required reserves at the CBRT for its Turkish Lira and foreign currency liabilities. According to the 'Communique on Required Reserves', required reserves can be held at the CBRT in Turkish Lira, USD, EUR, and gold.

As of September 30, 2026, the valid reserve requirement ratios applied to required reserves maintained at the CBRT range between 0% and 40% depending on the maturity structure for Turkish Lira liabilities (December 31, 2025: between 3% and 40%), and between 0% and 32% depending on the maturity structure for foreign currency liabilities (December 31, 2025: between 5% and 32%).

Under the 'Commission Application for Required Reserve and Notice Foreign Currency Deposit Accounts', banks that fall below the targets set by the CBRT regarding the 'TL Deposit Share' are required to pay a commission at a rate of 4.5% on the required reserve amounts maintained for foreign currency deposit liabilities. In the event that banks exceed the limits set by the CBRT regarding cash loan growth in Turkish Lira and foreign currency, they are required to maintain a blocked required reserve in Turkish Lira equal to the exceeding amount.

I. Explanations and Disclosures Related to the Assets (continued)

k) Main principles of liquidation policies of non-performing loans and receivables:

According to the "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves" published on Official Gazette No. 29750 dated June 22, 2016; legal action is carried on considering debtor, guarantors and existing collaterals and provisions are made for non-performing loans in accordance with the relevant decree. As of 30 September 2026, the net amount after provisions of the non-performing loans and receivables is TL 330 (31 December 2025: TL 239).

l) Explanations on write-off policy:

The amendment with respect to the regulation on the Principles and Procedures Regarding the Classification of Loans and Reserves Set Aside for These Loans entered into force with its publication in the Official Gazette No.30961 on November 27, 2019. Pursuant to the regulation, the banks are enabled to write down and move off the balance sheet the portion of a loan which is classified as "Uncollectible loans" if it cannot reasonably be expected to be recovered. Loans and receivables considered as non-collectable are written-off pursuant to approval of Board of Directors (BoD) and other related departments. As of September 30, 2026: TL 14 (As of 31 December 2025: TL 21).

7. Information on financial assets measured at amortized cost:

a) Information on financial assets given as collateral or blocked: As of 30 September 2026, financial assets measured at amortized cost given as collateral is amounting to TL 4.060 (31 December 2025: TL 2.953).

(*) The Bank, on August 1, 2017 issued the Basel III compliant, 10 year, USD 300 million bond to foreign domicile investors and with the permission of BRSA dated July 17, 2017, classified it as Tier II sub-loan. The Bank, pursuant to the approval of the BRSA on September 26, 2018 bought back USD 25 millions of Tier II sub-loan as of September 30, 2026, and the relevant amount has been deducted from the capital amount in the equity calculation. The Bank has not redeemed or cancelled the shares in circulation, thus selling back any portion of such amount at any time is completely at the Bank management's discretion. On August 1, 2022, the early pay option of the subordinated bond has not been exercised and the coupon interest for the coming periods has been set at 8,606%.

II. Explanations and Disclosures Related to the Liabilities (continued)

13. Information on Shareholders' Equity:

a) Presentation of Paid-in capital:

As of 30 September 2026, the Bank's paid in capital consists of 14.464.228.027 shares (31 December 2025: 5.261.811.049 shares) which nominal value is TL 1(full TL).

TL	30 September 2026	31 December 2025

d) Information on legal reserves:

	30 September 2026	31 December 2025
Primary Legal Reserves	175	175
Secondary Legal Reserve	-	-
Other Legal Reserves Per Special Legislation	-	-
Total	**175**	**175**

At the Ordinary General Assembly meeting held on March 26, 2026, it was decided to offset the Bank's net loss of TL 1.868 for 2025 from the Extraordinary Reserves.

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources by giving them a retroactive effect for the year in which they were issued and for each earlier period.

14. Information on minority shares:

None.

III. Explanations and Disclosures Related to the Off-Balance Sheet Contingencies and Commitments

1. Information on off-balance sheet liabilities:

a) Nature and amount of irrevocable loan commitments:

	30 September 2026	31 December 2025
Forward asset purchase and sales commitments	26.123	8.836

Message from the Chair

Esteemed Shareholders,

In the third quarter of 2026, geopolitical developments and shifts in trade policies continued to influence the global economic outlook. The course of trade relations between the US and China—influenced by the successive imposition of tariffs by the US—were closely monitored for their implications for global growth projections and supply chains. Developments in the Middle East and their repercussions on energy markets and international trade were among the key factors shaping the economic outlook.

Volatility in energy prices and the trajectory of inflation remained key determinants in the monetary policies of central banks. As global financial circumstances took shape amidst these developments, investments in technology and artificial intelligence—particularly in the U.S. and Asia—bolstered economic activity. In such a financial atmosphere capital adequacy, prudent risk management, and long-term planning remained critical for financial institutions.

Throughout the ongoing disinflation strategy in Türkiye, monetary policy and financial conditions remained critical influences on domestic demand and economic activity. Macroprudential policies have been executed in a way that will foster a balanced and sustainable trajectory for credit growth and strengthen financial stability. Global energy prices and geopolitical developments remained key factors monitored in relation to inflation and the current account balance. Unique strategic position of Türkiye in regional trade and logistics persists in providing medium- and long-term prospects. Global financial circumstances and geopolitical developments continued to influence capital flows into Türkiye, foreign exchange rates, and the country's risk premium. While the increase in Central Bank reserves and the decline in the country's risk premium presented a positive outlook, uncertainties regarding access to external financing persisted. The banking industry has sustained its support to financial stability through a robust capital structure, high liquidity, and a prudent approach to risk management.

Throughout this timeframe, Odeabank continued its operations in line with its established priorities: ensuring sustainable growth and maintaining financial resilience. The capital increase of USD 104 million was executed in February 2026, followed by a further capital increase of the identical sum in August, highlighting the robust backing from our shareholders. Thus, we executed a total capital increase of 208 million US dollars during 2026. The support of our shareholders has not only strengthened our Bank's financial resilience but also constituted a solid foundation for our long-term strategic objectives.

We have focused on managing our balance sheet growth through a sustainable approach, while maintaining balanced expansion in our loan portfolio and preserving the quality of our assets. Through ongoing investments in digital infrastructure and customer experience, we have emphasized addressing the changing demands of customers with secure and accessible banking solutions.

With the backing of our shareholders, our prudent balance sheet management, and our strategic long-term vision, I am confident that Odeabank will persist in generating value for all stakeholders.

Sincerely,

Hashem HUSSEİN HASHEM ALDABBAS

Chair of the Board of Directors
Odeabank

CEO's Message

Esteemed Shareholders,

The third quarter of 2026 was characterized by the influence of geopolitical events on the global economy, trade policy concerns, and shifts in monetary policies. The new customs tariffs implemented by the U.S. in succession, along with trade tensions with China, have shaped expectations regarding global trade and supply chains. Developments in the Middle East and their repercussions on energy supply and maritime transport were also closely monitored throughout this period.

Volatility in energy prices and the inflation outlook remained key determinants in the monetary policies of central banks. The interest rate hikes by the Federal Reserve and the European Central Bank in September, alongside the Bank of Japan raising its policy rate to its highest level in 31 years, led to a renewed tightening of financial conditions in global markets. Meanwhile, the robust trend in artificial intelligence and technology investments—particularly in the US and Asia—continued to support industrial production and commercial activities. The impact of valuations in the technology on financial markets was also among the topics closely monitored.

The stringent monetary, implemented in the Turkish economy as part of the program to fight against inflation, remained in effect throughout the third quarter. Throughout this time frame, macro-prudential policies were enacted to foster a balanced and sustainable growth trajectory for credits, while also strengthening financial stability. Though the disinflation process is in progress, the persistence of elevated price increases has highlighted the necessity of adopting a prudent perspective on the economic forecast. The Central Bank of the Republic of Türkiye's (CBRT) decision to raise its 2026 year-end inflation forecast to 28 percent indicated that the decline in inflation rate might progress more slowly than previously anticipated.

Financial conditions have influenced domestic demand and economic activity. While global energy prices were monitored to maintain the current account balance, revenues from services and access to external financing served as factors supporting the economic outlook. Conditions in global markets and geopolitical developments served as key determinants for capital flows towards Türkiye, exchange rates, and the country's risk premium. While the strengthening of Central Bank reserves and the decline in the country's risk premium supported the economic outlook, uncertainties regarding access to external financing persisted. Despite all the geopolitical developments, strategic location of Türkiye in terms of regional trade and logistics continued to offer opportunities.

Under these conditions, the Turkish banking sector continued its operations with a robust capital and liquidity structure. Maintaining asset quality, effectively managing funding sources, and ensuring balance sheet resilience remained among the sector's top priorities.

In the third quarter of 2026, Odeabank continued to strengthen its financial structure, owing to the support of its strong shareholder structure and diligent balance sheet management. Following a capital increase of 104 million USD in February, the Bank executed another capital increase of 104 million USD in August. The Bank's financial resilience and growth strategy were bolstered by the capital increase, which totaled 208 million US dollars throughout the year.

While managing balance sheet growth within a sustainable framework, we concentrated on the balanced expansion of our loan portfolio. We maintained our commitment to safeguarding asset quality. The continued downward trend in the ratio of non-performing loans has been a positive development in our efforts to maintain the quality of our loan portfolio.

Successful liquidity management and the effective management of funding costs were again two primary factors that contributed to our financial performance. The positive widening of the spread between interest income and interest costs is a direct result of the sound approach we have adopted in our asset-liability management. Despite the pressures stemming from the challenging macroeconomic conditions of the preceding period, we achieved strong growth in our net interest income in the third quarter of 2026. This development reflects an improvement in the revenue-generating capacity of our core banking activities.

We sustained our investments to improve customer experience and strengthen our digital infrastructure. Taking into account the changing needs of our clients, we have focused on making daily banking transactions easier, more secure, and more accessible. We have continued to build on our digital banking channels, while retaining the trust-based connections we have developed with our customers – and the quality of our service – at the heart of all that we do.

CEO's Message (continued)

For the period ahead, we aim to sustain the improvement in our financial performance, supported by our robust capital structure, balanced growth approach, and effective risk management. We will continue to maintain the quality of our assets, effectively manage our funding structure, and invest in further enhancing the customer experience. We will keep on diligently observing fluctuations in economic circumstances and deliver dependable and lasting solutions for our clients' financial requirements.

I would particularly like to thank all of my colleagues for their dedicated work in the third quarter of 2026, and our clients, shareholders, and business partners for their trust and contributions.

Mert Öncü
CEO of Odeabank
